

Hot rolled plate steel Exported from the People's Republic of China

Findings in Relation to a Subsidisation Investigation Public notice under subsection 269TJ(2) of the Customs Act 1901

The Anti-Dumping Commission (the Commission) has completed its investigation into the alleged subsidisation of hot rolled plate steel ("the goods"), exported to Australia from the People's Republic of China.

The goods are classified to tariff subheadings

- 7208.40.00 statistical code 39;
- 7208.51.00 statistical code 40;
- 7208.52.00 statistical code 41;
- 7225.40.00 statistical codes 22 and 24

in Schedule 3 of the *Customs Tariff Act 1995*.

A full description of the goods is available in Australian Customs Dumping Notice (ACDN) No. 2013/18 and ACDN 2013/20. These ACDNs are available on the internet at www.adcommission.gov.au

The Commission reported its findings and recommendations to the Minister for Industry (the Minister) in *Anti-Dumping Commission Report to the Minister No. 198* (REP 198), in which it outlines the investigations carried out by the Commission and recommends the publication of a countervailing duty notice in respect of the goods. The Minister has considered REP 198 and has accepted the Commission's recommendations and reasons for the recommendations, including all material findings of fact or law on which the Commission's recommendations were based, and particulars of the evidence relied on to support the findings.

Particulars of the subsidy programs and level of subsidisation established are set out in the following table:

Exporters	Subsidy Programs	Level of Subsidisation
All exporters from the People's Republic of China (China) (except Shandong Iron and Steel, Jinan Company (JIGANG))	1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41 and 42.	37%
JIGANG	3, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41 and 42.	2.6%

* The names and details of each of the above countervailable subsidy programs are contained within REP 198.

I, IAN MACFARLANE, Minister for Industry, have considered and accepted the recommendations of the Commission, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings in REP 198.

I am satisfied that a countervailable subsidy has been received in respect of the goods that have already been exported to Australia, and that a countervailable subsidy may be received in respect of like goods that may be exported to Australia in the future; and because of that, material injury to the Australian industry producing like goods has been caused or is being caused. Therefore under subsection 269TJ(2) of the Act, I **DECLARE** that section 10 of the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act) applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from China.

The considerations relevant to my determination of material injury to the Australian industry caused by subsidisation are the size of the subsidy margin, the effect of subsidised imports on prices in the Australian market including loss of sales volume, reduced revenues, price depression and suppression, reduced profits and profitability, reduced return on income and loss of employment.

In making my determination, I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of subsidised goods, and have not attributed injury caused by other factors to the exportation of those subsidised goods.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel, in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

Particulars of the non-injurious prices of the goods (as ascertained in the confidential tables to this notice) will not be published as they may reveal confidential information.

Clarification about how measures are applied to 'goods on the water' is available in ACDN 2012/34, available at www.adcommission.gov.au.

I, IAN MACFARLANE, Minister for Industry, have considered and accepted the recommendations of the Commission, the reasons for the recommendations are based and the evidence relied on to support those findings in REP 198.

I am satisfied, as to the goods that have already been exported to Australia, and that a countervailable subsidy may be received in respect of like goods that may be exported to Australia in the future; and because of that, material injury to the Australian industry producing like goods has been caused or is being caused. Therefore under subsection 269TJ(2) of the Customs Act 1901, I **DECLARE** that section 10 of the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act) applies to like goods that are exported to Australia after the date of publication of this notice.

- (i) the goods; and
- (ii) like goods that were exported to Australia, and that a countervailable subsidy may be received in respect of like goods that may be exported to Australia in the future; and because of that, material injury to the Australian industry producing like goods has been caused or is being caused. Therefore under subsection 269TJ(2) of the Customs Act 1901, I **DECLARE** that section 10 of the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act) applies to like goods that are exported to Australia after the date of publication of this notice.

I am also satisfied that the amount of the subsidy received in respect of the goods that have already been exported to Australia is less than the normal value of the goods in the domestic market of the country of origin. Therefore under subsection 269TJ(2) of the Customs Act 1901, I **DECLARE** that section 10 of the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act) applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from China.

The considerations relevant to my determination of material injury to the Australian industry caused by subsidisation are the size of the subsidy margin, the effect of subsidised imports on prices in the Australian market including loss of sales volume, reduced revenues, price depression and suppression, reduced profits and profitability, reduced return on income and loss of employment.
