The last modification was made by ANTI-DUMPING NOTICE NO. 2020/103 after the completion of Continuation Inquiry No. 543.

The description of the goods to which the notice relates is as follows:

Aluminium extrusions produced via an extrusion process, of alloys having metallic elements falling within the alloy designations published by The Aluminium Association commencing with 1, 2, 3, 5, 6 or 7 (or proprietary or other certifying body equivalents), with the finish being as extruded (mill), mechanical, anodised or painted or otherwise coated,

The goods include aluminium extrusion products that have been further processed or fabricated to a limited extent, after aluminium has been extruded through a die. Aluminium extrusion products that have been painted, anodised, or otherwise coated, or worked (eg precision cut, machined, punched or drilled) fall within the scope of the goods.

The goods do not extend to intermediate or finished product that are processed or fabricated to such an extent that they no longer possess the nature and physical characteristics of an aluminium extrusion, but have become a different product.

Response:

Antai is a producer of the goods.

5. Confirm that the applicant is a 'new exporter', meaning, in relation to goods the subject of an application for a dumping duty notice or countervailing duty notice or like goods, an exporter who did not export such goods to Australia at any time during the investigation period in relation to the application (ss 269ZE(1) and 269T(1) refers).

Response:

Antai confirms that it is a "new exporter", i.e. in relation to goods the subject of an application for a dumping duty notice or countervailing duty notice or like goods (in this case, aluminium extrusions), Antai did not export such goods to Australia at any time during the investigation period in relation to the application (in this case, 1 July 2008 to 30 June 2009).

6. Confirm whether the applicant has previously applied for an accelerated review in relation to the notices the subject of this application.

Response:

Antai confirms that it has never applied for an accelerated review in relation to the notices the subject of this application.

7. Confirm whether the applicant is related to an exporter whose exports were examined in relation to the application for publication of the notice(s), and the nature of the relationship (s 269ZE(2)(b) refers).

In determining whether the applicant is an associate of an exporter whose exports were examined in relation to the application for publication of the notices(s), answer the following (s 269TAA(4) refers):

- (a) Are both natural persons?

If yes:

- (i) Are they members of the same family? Or;
(ii) Is one of them an officer or director of a body corporate controlled, directly or indirectly, by the other?

- (b) Are both body corporates?

If yes:

- (i) Are both of them controlled by a third person (whether or not a body corporate)? Or;
(ii) Do both of them together control, directly or indirectly, a third body corporate? Or;
(iii) Is the same person (whether or not a body corporate) in a position to cast, or control the casting of, 5% or more of the maximum number of votes that might be cast at a general meeting of each of them?

- (c) Is one of them, being a body corporate, directly or indirectly, controlled by the other (whether or not a body corporate)?
- (d) Is one of them, being a natural person, an employee, officer or director of the other (whether or not a body corporate)?
- (e) Are they members of the same partnership?

NB: Please include appropriate evidence in support of your view that the applicant is or is not related to another company whose exports were examined in relation to the application for publication of the notice(s) (i.e. during the original investigation). This should include an overview of your corporate structure, including entities that the applicant has an interest in and entities that have an interest in the applicant, list of directors and annual report(s) where applicable.

Antai confirms that it is not related to any exporter whose exports were examined in relation to the application for publication of the notice(s) (i.e. during the original investigation).

The list of Chinese companies which are related to Antai is as follows:

【Confidential】

【Confidential information regarding Chinese related companies of Antai.】

Most of the related companies of Antai were established after the original investigation period. 【Confidential】

【Confidential information regarding one of the related companies.】

【Confidential】

【Confidential information regarding the director of Antai.】

8. Provide a statement setting out the basis on which you consider the particular dumping or countervailing duty notice is inappropriate, so far as the applicant is concerned.

Response:

Antai did not export the goods to Australia during the investigation period of the original investigation, so it was not examined in the original investigation. Also, Antai is not related to any exporter whose exports were examined in the original investigation. Antai understands that it has met the criteria for a new exporter.

Currently Antai is subject to the dumping and countervailing duty rate applied to “all other exporters”, which is as high as 77.4%. Antai considers this duty inappropriate so far as Antai is concerned, as this duty rate was not calculated based on Antai’s own data and cannot reflect the actual dumping and countervailing level of Antai.

Thus, Antai seeks an accelerated review to obtain an individual duty rate.

Impact of an all exporter review of measures	Where a review of measures applies to all exporters of the goods generally (that is, not a single exporter), the changes to the notice(s) that result from the review may apply to all relevant exporters of the goods, including past applicants for an accelerated review. This means that changes to a notice as an outcome of an all exporter review of measures may replace an earlier published outcome of an accelerated review.
Lodgement of the application	<p>This application, together with the supporting evidence, must be lodged in the manner approved by the Commissioner under subsection 269SMS(2) of the Act. The Commissioner has approved lodgement of this application by either:</p> <ul style="list-style-type: none"> • preferably, email, using the email address clientsupport@adcommission.gov.au, or • pre-paid post to: <p style="margin-left: 40px;">The Commissioner of the Anti-Dumping Commission GPO Box 2013 Canberra ACT 2601, or</p> • facsimile, using the number (03) 8539 2499 or +61 3 8539 2499 (outside Australia)
Public Record	<p>There is no legislative requirement to maintain a public record for accelerated reviews. However, in the interests of transparency, a public record for an accelerated review will be opened and accessible on the Commission’s website at www.adcommission.gov.au. The public record will contain, among other things, a copy of the application, all submissions from interested parties and Commission reports.</p> <p>At the time of making the application, the Commission requests both a confidential version (for official use only) and non-confidential version (public record) of the application be submitted. Please ensure each page of the application is clearly marked “FOR OFFICIAL USE ONLY” or “PUBLIC RECORD”. The non-confidential application should enable a reasonable understanding of the substance of the information submitted in confidence, clearly showing the reasons for seeking the accelerated review, or, if those reasons cannot be summarised, a statement of reasons why summarisation is not possible. If you cannot provide a non-confidential version, contact the Commission’s client support section for advice.</p>
