Responses received within 37 days of initiation

The Anti-Dumping Commission (the commission) did not receive any completed responses to the exporter questionnaires by the due date of 10 May 2023.

Extensions of time

The commission received requests for extensions of time to submit an exporter questionnaire from certain exporters and due consideration has been given to the extension requests.<sup>1</sup>

When considering the extension requests, the *Customs (Extensions of Time and Non-Cooperation) Direction 2015* requires the Commissioner to:

- take into account the responsibility to conduct the case in a timely and efficient manner
- reject a request for an extension if the request has not been made before the due date, and
- consider the reasons provided for the extension, having regard to:
  - the reasons why it could not provide its response within the whole period and not only the period remaining between the request and the due date
  - ordinary business practices or commercial principles
  - the commission's understanding of the relevant industry
  - previous correspondence from the entity, previous dealings with the entity and information provided by other interested parties.

## PUBLIC RECORD

Consequently, the commission granted the following parties extensions to submit a response to the exporter questionnaire, on the requirement that the response is reasonably complete and accurate and includes both the confidential and public record versions:

Entity	Extension/s requested	Extension granted	Revised due date
EMT Systems Sdn Bhd	30 days	14 days	24 May 2023
Eonmetall Systems Sdn Bhd	30 days	14 days	24 May 2023
Schaefer Systems International Sdn Bhd	19 days	19 days	29 May 2023
Dexion Asia Sdn BHD	28 days	21 days	31 May 2023
Zhejian ShangHong Shelf Co., Ltd / Yuhua Trading (HK) Limited	30 days	26 days	5 June 2023

**Table 1: Extensions requested**

The commission advised these entities of the requirement to ensure a reasonably complete and accurate questionnaire is submitted by the revised due date.

Schaefer Systems International Sdn Bhd also subsequently requested an extension of time to complete the response to the exporter questionnaire after the revised due date had passed. In accordance with clause 5(a)(ii)(2) of the *Customs (Extensions of Time and Non-Cooperation) Direction 2015*, a request for a longer period made after the legislated period has ended must be rejected, so no further extension was granted.

### Responses received

The commission has received responses by the respective due dates set out in Table 1 from the following entities:

- EMT Systems Sdn Bhd
- Eonmetall Systems Sdn Bhd
- Zhejian ShangHong Shelf Co., Ltd / Yuhua Trading (HK) Limited

The non-confidential version of the responses will be placed on the public record, unless it contains deficiencies that could be quickly and easily rectified in a further response, in which case a reasonable timeframe will be provided to rectify the deficiencies,<sup>2</sup> then placed on the public record after the deficiencies have been rectified.

### Uncooperative exporters

Where an exporter does not provide a response to the exporter questionnaire by the due date, or provides a response to the exporter questionnaire that contains deficiencies that could not be rectified quickly and easily in a further response, the exporter may be deemed uncooperative.
