

Continuation Inquiry 621

Wind towers exported to Australia from China

File note

The Anti-Dumping Commission (commission) published the Statement of Essential Facts (SEF) for continuation inquiry 621 (CON 621) on the Electronic Public Record (EPR) on 16 October 2023. The commission invited interested parties to make written submissions in response to the SEF by 6 November 2023.

The commission received a submission from Keppel Prince Engineering Pty Ltd (KPE) by the due date which it published on the EPR on 6 November 2023. Following review of this submission, the commission requested that KPE provide further detail to allow sufficient understanding of the information without breaching confidentiality. KPE responded to the commission's request with a revised submission and the commission uploaded this on 8 December 2023.
