

ANTI-DUMPING NOTICE NO. 2023/079

Aluminium extrusions exported to Australia from countries subject to measures

Findings of Exemption Inquiry No 0095

Customs Tariff (Anti-Dumping) Act 1975

The Anti-Dumping Commission has completed exemption inquiry EX0095. This inquiry is about aluminium extrusions (or the goods) exported to Australia from countries subject to measures. Exports of the goods from these countries are subject to anti-dumping measures.

The exemption was sought under sections 8(7)(a) and 10(8)(a) of the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act). Under these provisions the Minister for Industry and Science (the Minister) may exempt goods from interim dumping duty, dumping duty, interim countervailing duty and countervailing duty (collectively, the duties) if satisfied:

that like or directly competitive goods are not offered for sale in Australia to all purchasers on equal terms under like conditions having regard to the custom and usage of trade.

The anti-dumping measures

Anti-dumping measures in the form of dumping duty and countervailing duty notices currently apply to aluminium extrusions exported from the People's Republic of China. A dumping duty notice applies to mill finish aluminium extrusions and surface finish aluminium extrusions exported to Australia from Malaysia. Certain exporters are exempt from duties.

For further details as to the anti-dumping measures and the duties, refer to the Anti-Dumping Commission (the commission) website, www.adcommission.gov.au.

The goods subject to measures may be classified under the following subheadings in Schedule 3 of the *Customs Tariff Act 1995*:

The exemption goods

The goods subject to the exemption inquiry (the exemption goods) are:

Extruded aluminium T-Bars of mill finish produced from 5383 aluminium alloy with Temper H112 (AA5383-H1112) of any length, width, diameter and weight.

The inquiry

An application was lodged by Press Metal Aluminium Australia Pty Limited, Press Metal International Technology Ltd and Press Metal International Ltd (collectively, the applicants) on 20 September 2022. After examining the application, I initiated an exemption inquiry 22 December 2022.

The Commissioner of the Anti-Dumping Commission made a recommendation to the Minister that he exempt the exemption goods from the duties in accordance with sections 8(7)(a) and 10(8)(a) of the Dumping Duty Act. The reasons for my recommendation are set out in *Exemption Inquiry Report No 0095* (REP EX0095).

The Minister has accepted that recommendation and has exempted the exemption goods from the duties through *Ministerial Exemption Instrument No 5 of 2023* (the exemption instrument). The exemption takes effect from 20 September 2022.

A copy of REP EX0095 and the exemption instrument is available on the commission website (www.adcommission.gov.au).

Further information

If importers believe that goods they are importing are exempted from the duties in accordance with the exemption instrument, when they or their broker enter these goods for home consumption via the Integrated Cargo System, the exemption category 'GOODS' should be selected and no interim dumping or interim countervailing duties will be applied to the shipment. Parties seeking a refund of the duties already paid should contact the commission's client support team on 13 28 46 or +61 2 6213 6000 or email: clientsupport@adcommission.gov.au.

The decision to grant the exemption does not prevent further applications for exemptions from the duties being considered. Parties can apply for an exemption where they believe their goods satisfy any of the conditions for exemption detailed in sections 8(7) and 10(8) of the Dumping Duty Act. Further information on the application process can be found on the commission's website.

The exemption granted as a result of this inquiry may be subject to review and may be revoked by the Minister if circumstances change.
