

## Continuation Inquiry 638 Quenched and tempered steel plate Exported from Finland, Japan and Sweden

### File note

#### Meeting with SSAB – 8 April 2024

On 8 April 2024, representatives from SSAB met with the Anti-Dumping Commission. The following matters were discussed at the meeting:

- SSAB's submission dated 5 April 2024,<sup>1</sup> which was presented during the exporter verification conducted in Sweden in March 2024.
- SSAB's position in the Australian market for quenched and tempered steel plate, and its likely behavior in the Australian market should the measures expire.
- The increase in imports of quenched and tempered steel plate from China, and the effect these imports are having on prices in the Australian market.
- Examples of competition and pricing pressure from quenched and tempered steel plate imported from China.
