## **ANTI-DUMPING NOTICE NO. 2024/036**

*Customs Act 1901 – Part XVB*

### **Certain railway wheels**

**Exported from**

**the People’s Republic of China and the French Republic**

### **Findings of Continuation Inquiry No 632 into Anti-Dumping Measures**

*Public Notice under subsection 269ZHG(1) of the Customs Act 1901*

The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed an inquiry, which commenced on 14 August 2023, into whether the continuation of the anti-dumping measures in the form of a dumping duty notice applying to certain railway wheels exported to Australia from the People’s Republic of China (China) and the French Republic (France) is justified.

Recommendations resulting from that inquiry, reasons for the recommendations, and material findings of fact and law in relation to the inquiry are contained in *Anti-Dumping Commission Report No 632 (REP 632)*.

I, ED HUSIC, the Minister for Industry and Science, have considered REP 632 and have decided to accept the recommendation and reasons for the recommendation, including all the material findings of facts and law therein and have decided that **the anti-dumping measures applying to certain railway wheels exported to Australia from China should continue from 17 July 2024.**

Under subsection 269ZHG(1)(b) of the Act, I declare that I have decided to secure the continuation of the anti-dumping measures.

I determine that:

- pursuant to subsection 269ZHG(4)(a)(ii) of the Act, the notice continues in force after 16 July 2024 but, after this day, ceases to apply in relation to exports from France.
- pursuant to subsection 269ZHG(4)(a)(iii) of the Act, the notice continues in force after 16 July 2024 but, after this day, has effect as if different specified variable factors had been fixed in relation to exports from China by Baowu Group Masteel

Rail Transit Materials Technology Company Limited and all other exporters.

In accordance with subsection 8(5BB) of the *Customs Tariff (Anti-Dumping) Act 1975*, and the *Customs Tariff (Anti-Dumping) Regulation 2013* (the Regulation), the duty that has been determined is an amount worked out in accordance with the combination of fixed and variable duty method pursuant to subsections 5(2) and (3) of the Regulation, as detailed in the table below.

Particulars of the dumping margins established for each of the exporters and the effective rates of duty are also set out in the following table.

Country	Exporter	Dumping margin	Effective rate of interim dumping duty	Duty method
China	Baowu Group Masteel Rail Transit Materials Technology Company Limited	13.3%	13.3%	Combination of fixed and variable duty method
	All other exporters	13.3%	13.3%	Combination of fixed and variable duty method

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel ([www.adreviewpanel.gov.au](http://www.adreviewpanel.gov.au)), in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

REP 632 has been placed on the public record, which may be examined at the Anti-Dumping Commission Office by contacting the case manager on the details provided below. Alternatively, the public record is available at [www.adcommission.gov.au](http://www.adcommission.gov.au)
