Dear Director,

Continuation Inquiry No. 675: Rod In Coil Exported from the People's Republic of China (China)

AUSTRALIAN INDUSTRY SUBMISSION:

ASSESSMENT OF CHINESE DOMESTIC MARKET CONDITIONS FOR ROD IN COIL

InfraBuild (Newcastle) Pty Ltd (**InfraBuild**), the Australian industry applicant for continuation of these measures, makes this submission in support of its assessment of Chinese domestic market conditions for rod in coil.

We note that *Dumping Investigation No. 301 (INV 301)* established that, in accordance with subsection 269TAC(2)(a)(ii), a situation exists in the domestic Chinese market that renders domestic selling prices of rod in coil as being unsuitable for the purposes of determining normal values for rod in coil under subsection 269TAC(1), that is to say, a 'particular market situation' exists. Further in *Review of Measures Nos. 413 and 414*, the Commissioner of the Anti-dumping Commission (**Commissioner** and **commission**) found that a particular market situation for rod in coil continues to exist in China, and that the normal values for exporters could not be ascertained under subsection 269TAC(1).

InfraBuild submits the attached **ANNEXURE** in support of its contention that the finding in INV 301 and REV 413 and 414 concerning the existence of a particular market situation in the domestic Chinese market for rod in coil still exists in the current inquiry period the subject of this continuation inquiry, and that the normal values for the Chinese exporters of rod in coil cannot be ascertained under subsection 269TAC(1).

For these reasons, and for the purposes of subsection 8(5BAA) of the *Customs Tariff (Anti-Dumping) Act 1975* (**Dumping Duty Act**), InfraBuild submits that the Commissioner can reasonably be satisfied that:

- the normal value of the goods could not be ascertained under subsection 269TAC(1) because of the operation of a market situation, pursuant to subsection 269TAC(2)(a)(ii); and
- the Minister is therefore not required to have regard to the lesser duty rule in subsection 8(5B) of the Dumping Duty Act

Please do not hesitate to contact your InfraBuild representative on record with any questions.

FOR AND ON BEHALF OF THE

AUSTRALIAN INDUSTRY APPLICANT
