

ANTI-DUMPING NOTICE NO. 2026/034

Customs Act 1901 – Part XVB

ZINC COATED (GALVANISED) STEEL

Exported from the People's Republic of China by

Tianjin Xinyu Color Plate Co., Ltd

Findings in relation to an Accelerated Review No 694 of Anti-Dumping Measures

Public Notice under section 269ZG(3) of the Customs Act 1901

The Commissioner of the Anti-Dumping Commission has completed the accelerated review, which commenced on 11 December 2025, of the anti-dumping measures applying to zinc coated (galvanised) steel ("the goods") exported to Australia from China by Tianjin Xinyu Color Plate Co., Ltd ("the applicant").

Recommendations resulting from that review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report No. 694* (REP 694).

I, TIM AYRES, the Minister for Industry and Innovation and Minister for Science, have considered REP 694 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts and law set out in REP 694.

Under section 269ZG(3) of the *Customs Act 1901* (the Act), I declare that, with effect from 11 December 2025, the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act) have effect as if the original dumping duty notice and countervailing duty notice had applied to the applicant but the Minister had fixed specified different variable factors relevant to the determination of duty.

I determine, pursuant to section 8(5) of the Dumping Duty Act, that the interim dumping duty (IDD) payable on the goods exported to Australia from China by the applicant is an amount worked out in accordance with the floor price duty method as set out in sections 5(4) and 5(5) of the *Customs Tariff (Anti-Dumping) Regulation 2013*.

I direct, pursuant to section 10(3B) of the Dumping Duty Act, that the interim countervailing duty (ICD) payable on the goods exported to Australia from China by the applicant is a proportion of the export price of the goods.

Particulars of the rates of IDD and ICD are as detailed in the table below.

Exporter	Effective rate of interim dumping duty	Effective rate of interim countervailing duty	Duty Method
Tianjin Xinyu Color Plate Co., Ltd	N/A	1.2%	Dumping: floor price duty method Countervailing: proportion of the export price of the goods

IDD will be payable on the goods exported by the applicant only when the actual export price is below the floor price which is specified (confidential) amount per kilogram as per Confidential Table 1 to this notice.

The actual duty liability may be higher than the effective rate of duty due to a number of factors. Affected parties should contact the Anti-Dumping Commission on 13 28 46 or at clientsupport@adcommission.gov.au for further information regarding the actual duty liability calculation in their particular circumstance.

REP 694 has been placed on the public record, available at www.adcommission.gov.au. The public record may also be examined at the Anti-Dumping Commission office by contacting the case manager on the details provided below. Enquiries about this notice may be directed to the Case Manager by email at investigations2@adcommission.gov.au.

Dated this *Seventh* day of *April* 2026

Tim Ayres
Minister for Industry and Innovation and Minister for Science
