

Application for an accelerated review of anti-dumping measures

Applications are taken to be lodged or received by the Commissioner when it is first received by a commission staff member doing duty in relation to applications.

Staff members are taken to be on duty receiving applications from 9:00am to 5:00pm (AEST or AEDST) on business days that are not an Australian Capital Territory public holiday, or during Annual Closedown.

See Page 5 for more details.

Applicants are encouraged to contact the Commission prior to lodgement if they wish to discuss their application or the process.

APPLICATION UNDER SECTION 269ZE OF THE *CUSTOMS ACT 1901*
FOR AN ACCELERATED REVIEW OF ANTI-DUMPING MEASURES

In accordance with section 269ZE of the *Customs Act 1901* (the Act) ¹, I request that the Commissioner of the Anti-Dumping Commission conduct an accelerated review of a dumping duty notice and/or countervailing duty notice (the notice(s)) insofar as it affects this exporter².

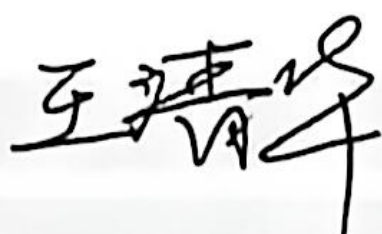

NB: Only a new exporter is eligible to apply for an accelerated review. A new exporter means that, in relation to goods the subject of an application for a dumping duty notice or countervailing duty notice or like goods, an exporter who did not export such goods to Australia at any time during the investigation period in relation to the application (ss 269ZE(1) and 269T(1) refers).

DECLARATION

I believe that the information contained in this application:

- provides reasonable grounds for an accelerated review of the dumping or countervailing duty notice(s) in so far as it relates to the applicant; and
- is complete and correct.

PUBLIC RECORD

Required information

1. Provide details of the current anti-dumping measure(s) the subject of this review application, including:
 - identify the notice(s) imposing measures that the applicant seeks an accelerated review of; and
 - a description of the goods to which the notice(s) relates.

Answer:

The current measures were imposed pursuant to Anti-Dumping Notice No. 2010/40, published on October 28, 2010. The investigation period was July 1, 2008 to June 30, 2009.

The subject products are Aluminium extrusions produced via an extrusion process, of alloys having metallic elements falling within the alloy designations published by The Aluminium Association commencing with 1, 2, 3, 5, 6 or 7 (or proprietary or other certifying body equivalents), with the finish being as extruded (mill), mechanical, anodised or painted or otherwise coated, whether or not worked, having a wall thickness or diameter greater than 0.5 mm, with a maximum weight per metre of 27 kilograms and a profile or cross-section which fits within a circle having a diameter of 421 mm. The goods include aluminium extrusion products that have been further processed or fabricated to a limited extent, after aluminium has been extruded through a die. Aluminium extrusion products that have been painted, anodised, or otherwise coated, or worked (e.g., precision cut, machined, punched or drilled) fall within the scope of the goods. The goods do not extend to intermediate or finished products that are processed or fabricated to such an extent that they no longer possess the nature and physical characteristics of an aluminium extrusion but have become a different product.

The tariff classification codes of goods are 76041000, 76042100, 76042900, 76081000, 76082000, 76101000, 76109000.

2. Provide details of the name, street and postal address, of the applicant seeking the accelerated review;

Answer:

Company name: Foshan Nanhai Niu Yuan Hardware Product Co, Ltd.

Street and postal address: No. 1, Lane 1, Mashe Houjie Industrial Zone, Lishui Town, Nanhai District, Foshan, Guangdong, China.

3. Provide details of the name of a contact person, including their position,

PUBLIC RECORD

telephone number and e-mail address;

Answer:

Name of contact person: Wang Qinghua

Position: General Manager

Telephone number: [Commercially Sensitive Information: Contact information]

E-mail address: [Commercially Sensitive Information: Contact information]

4. Describe the applicant's role in the exportation of the goods (e.g. producer or manufacturer, distributor or trader of the goods);

Answer:

Niuyuan is a manufacturer of subject goods. Niuyuan sells aluminum extrusions in Chinese and overseas market, but did not export subject goods to Australia during the original investigation period.

5. Confirm that the applicant is a 'new exporter', meaning, in relation to goods the subject of an application for a dumping duty notice or countervailing duty notice or like goods, an exporter who did not export such goods to Australia at any time during the investigation period in relation to the application (ss 269ZE(1) and 269T(1) refers).

Answer:

Niuyuan had not yet been established during the original investigation period July 1, 2008 to June 30, 2009, and thus could not have exported the subject products to Australia, which is also the reason why Niuyuan was unable to participate in the original investigation.

To prove the above facts, Niuyuan provides the business license as **Exhibit 1 [Commercially Sensitive Information: Business license]**, which records that Niuyuan was established on May 30, 2012, later than the original investigation period.

6. Confirm whether the applicant has previously applied for an accelerated review in relation to the notices the subject of this application.

Answer:

Niuyuan once applied for an accelerated review on 2019. The review was commenced on December 2, 2019, with the case number 537, and was terminated on March 10, 2020.

The aim of Niuyuan's application for the prior review was exploring the Australian market. Yet, from the preparation of the review application until the expiration of the submission deadline, Niuyuan failed to develop any Australian clients. Consequently, Niuyuan had no choice but to withdraw from the investigation.

Niuyuan has recently established a cooperative relationship with an Australian client, as evidenced by the framework contract provided in [Exhibit 2 \[Commercially Sensitive Information: Contract with Niuyuan's Customer\]](#). Niuyuan also notes that in the second last paragraph on the second page of the ANTI-DUMPING NOTICE NO. 2020/008(termination notice for Case 537), the Commission explicitly stated that "Termination of this accelerated review does not affect the applicant's right to apply for another accelerated review."

Based on the above, Niuyuan hereby applies for this review, requesting the Commission to determine the dumping and subsidy rates for Niuyuan.

7. Confirm whether the applicant is related to an exporter whose exports were examined in relation to the application for publication of the notice(s), and the nature of the relationship (s 269ZE(2)(b) refers).

In determining whether the applicant is an associate of an exporter whose exports were examined in relation to the application for publication of the notices(s), answer the following (s 269TAA(4) refers):

- (a) Are both natural persons?

If yes:

- (i) Are they members of the same family? Or;
(ii) Is one of them an officer or director of a body corporate controlled, directly or indirectly, by the other?

- (b) Are both body corporates?

If yes:

- (i) Are both of them controlled by a third person (whether or not a body corporate)? Or;
(ii) Do both of them together control, directly or indirectly, a third body corporate? Or;
(iii) Is the same person (whether or not a body corporate) in a position to cast, or control the casting of, 5% or more of the maximum number of votes that might be cast at a general meeting of each of them?

- (c) Is one of them, being a body corporate, directly or indirectly,

PUBLIC RECORD

controlled by the other (whether or not a body corporate)?

(d) Is one of them, being a natural person, an employee, officer or director of the other (whether or not a body corporate)?

(e) Are they members of the same partnership?

NB: Please include appropriate evidence in support of your view that the applicant is or is not related to another company whose exports were examined in relation to the application for publication of the notice(s) (i.e. during the original investigation). This should include an overview of your corporate structure, including entities that the applicant has an interest in and entities that have an interest in the applicant, list of directors and annual report(s) where applicable.

Answer:

Niuyuan confirms that it is not related to any Chinese producer or exporter of Aluminium extrusions that were originally investigated.

During the original investigation period, Niuyuan had not yet been established and therefore could not have had any affiliation with the subject companies. Niuyuan is currently held by two individual shareholders, [Commercially Sensitive Information: Shareholder information]. While the shareholders have investments in other companies, none of them are related to the companies involved in the original investigation, nor are they associated with the subject producers or exporters. Additionally, Niuyuan itself has no parent or subsidiary companies.

We have compiled a list of companies in which the two shareholders have investments, detailing the name of each company, its main business activities, and the nature of its relationship with Niuyuan. Please refer to [Exhibit 3 List of Associated Companies \[Commercially Sensitive Information: Shareholder information\]](#) for details.

8. Provide a statement setting out the basis on which you consider the particular dumping or countervailing duty notice is inappropriate, so far as the applicant is concerned.

Impact of an all exporter review of measures

Where a review of measures applies to all exporters of the goods generally (that is, not a single exporter), the changes to the notice(s) that result from the review may apply to all relevant exporters of the goods, including past applicants for an accelerated review. This means that changes to a notice as an outcome of an all-exporter review of measures may replace an earlier published outcome of an accelerated review.

Answer:

As stated above, since Niuyuan had not yet been established during the period of the original investigation, it was unable to participate in that investigation. Therefore, the measures determined in the original investigation shall not apply to Niuyuan.

Dumping Duty:

Recently, Niuyuan has begun to export aluminum extrusions to Australia, and intends to continue such exports in the future. Niuyuan's export procedures are highly regulated and lawful, adhering to market pricing principles, with corresponding documentation available to substantiate each transaction stage. Niuyuan hereby provides a recent set of documentation for exports to Australia. Please refer to **Exhibit 4 Sample Documentation for Exports to Australia [Commercially Sensitive Information: Sales documents]** for specifics.

Niuyuan notes that Chinese aluminium profile exporters were subject to duties ranging from 3.1% to 25.7%. Niuyuan wishes to emphasize that this range of duties does not reflect its actual circumstances, as Niuyuan has not engaged in any form of dumping towards Australia.

Pursuant to Section 269TAC of Customs Act 1901(hereinafter referred to as "the Act"), the calculation of the dumping margin shall be based on a proper comparison between the export price and the normal value. The section stipulates that normal value shall be the price 'paid or payable for like goods sold in the ordinary course of trade for home consumption in the country of export in sales'. Where such price cannot be found or unsuitable, it may be substituted by 'price paid or payable for like goods sold in the ordinary course of trade in arms length transactions for exportation from the country of export to a third country determined by the Minister to be an appropriate third country', or 'the cost of production or manufacture of the goods in the country of export' plus 'administrative, selling and general costs associated with the sale and the profit on that sale'.

Pursuant to the aforementioned provisions, Niuyuan contends that the prices of aluminium extrusions exported to Australia by Niuyuan are neither below the sum of costs and reasonable profit, nor below domestic sales prices or export prices to other appropriate third countries. Regardless of the calculation method employed, Niuyuan has not engaged in dumping in Australia. Should the Commission accept Niuyuan's application for review, the company welcomes an investigation into it and will provide truthful, accurate, complete, and verifiable data on costs, prices, expenses, and other relevant information to substantiate the aforementioned claims.

PUBLIC RECORD

Countervailing Duty:

Niuyuan did not receive any benefits under the subsidy programs identified in the original investigation, which include:

- Program 1: Preferential tax policies for enterprises with foreign investment established in the coastal economic open areas and economic and technological development zones.;
- Program 10: Preferential Tax Policies for Foreign Invested Enterprises – Reduced Tax Rate for Productive FIEs scheduled to operate for a period of not less than 10 years.;
- Program 13: Exemption of tariff and import VAT for imported technologies and equipments;
- Program 16: Preferential tax policies for enterprises with foreign investment established in Special Economic Zones (excluding Shanghai Pudong area);
- Program 17: Preferential tax policies for enterprises with foreign investment established in Pudong area of Shanghai;
- Program 18 - Preferential tax policies in the Western Regions;
- Program 2: One-time Awards to Enterprises Whose Products Qualify for 'Well-Known Trademarks of China' and 'Famous Brands of China';
- Program 3: Provincial Scientific Development Plan Fund;
- Program 4: Export Brand Development Fund;
- Program 5: Matching Funds for International Market Development for SMEs;
- Program 6: Superstar Enterprise Grant;
- Program 7: Research & Development (R&D) Assistance Grant;
- Program 8: Patent Award of Guangdong Province;
- Program 9: Training Program for Rural Surplus Labour Force Transfer Employment
- Program 15: Goods provided at less than adequate remuneration;
- Program 26: Innovative Experimental Enterprise Grant;

Niuyuan has not received any benefits under the subsidy programs listed above. Accordingly, the subsidy programs and countervailing level determined in the original investigation are not applicable to Niuyuan.

On this basis, Niuyuan respectfully requests that the Commission accept this application of Accelerated Review and calculate the applicable IDD and ICD based on Niuyuan's own data.

Public Record

There is no legislative requirement to maintain a public record for accelerated reviews. However, in the interests of transparency, a public record for an accelerated review will be opened and accessible on the commission's website at www.adcommission.gov.au. The public record will contain, among other things, a copy of the application, all submissions from interested parties and commission reports.

At the time of making the application, the commission requests both a confidential version (for official use only) and non-confidential version (public record) of the application be submitted. Please ensure each page of the application is clearly marked "FOR OFFICIAL USE ONLY" or "PUBLIC RECORD". The non-confidential application should enable a reasonable understanding of the substance of the information submitted in confidence, clearly showing the reasons for seeking the accelerated review, or, if those reasons cannot be summarised, a statement of reasons why summarisation is not possible. If you cannot provide a non-confidential version, contact the commission's client support section for advice.
