## About Lubei Company Profile

- Company Profile
  - Organization
  - sales network
  - member units
  - development path
- Shandong Lubei Enterprise Group Corporation is located on the south bank of the Bohai Sea, in the overlapping zone of the Yellow River Delta High-Efficiency Ecological Economic Zone and the Bohai Rim

Economic Zone, at the junction of the Beijing-Tianjin-Hebei Metropolitan Circle and the Shandong Peninsula Blue Economic Zone, and adjacent to Tianjin Binhai New Area in the north, Cangzhou Bohai New District, east of Binzhou Beihai New District, is a state-owned large-scale chemical enterprise group with 6,000 employees and assets of nearly 20 billion yuan, spanning chemical, building materials, electric power, light industry, non-ferrous metals and other industries, with an annual sales income of 120 billion 100 million yuan, ranking among the top 500 Chinese manufacturing companies, top 500 Chinese chemical companies, top 100 Chinese chemical fertilizer manufacturing companies, top 100 Chinese building materials companies, and top 10 marine chemical companies in Shandong. It is currently the largest ammonium phosphate, One of the joint production enterprises of sulfuric acid and cement.

The group's holding companies include Shandong Lubei Chemical Co., Ltd., Shandong Xindongneng Lithium Battery Technology Co., Ltd., Shandong Jinhai Titanium Industry Resources Technology Co., Ltd., Wudi Golden Bay Lithium Industry Technology Co., Ltd., and its wholly-owned subsidiaries include Shandong Lubei Haisheng Biotechnology Co., Ltd. Co., Ltd., Shandong Wudi Lubei Chemical Jianan Co., Ltd., Wudi Haichuan Installation Engineering Co., Ltd., Wudi Lanjie Sewage Treatment Co., Ltd., etc., and the joint stock companies include Datang Lubei Power Generation Co., Ltd., Wudi Zhengyuan Chemical Co., Ltd., Shandong Jujie Environmental Protection Technology Co., Ltd., Shandong Hualan Chemical Co., Ltd., Shandong Lubeibi Water Source Seawater Desalination Co., Ltd., etc. With an annual output of 1 million tons of alumina and 500,000 tons of chemical aluminum, 250,000 tons of titanium dioxide, 1 million tons of compound fertilizer, 300,000 tons of ammonium phosphate, 400,000 tons of sulfuric acid, 600,000 tons of cement, and 20,000 tons of lithium

carbonate , 30,000 tons of lithium iron phosphate carbon cathode materials, 30,000 tons of iron phosphate, 1 million tons of raw salt, 2,500 tons of bromine, 10,000 tons of dyes, 125MW power generation, and 600t/h heating scale. "Lubei brand" ternary compound fertilizer and diammonium phosphate are "China famous brand" and "national inspection-free product", "Haifeng brand" ordinary Portland cement is "Shandong famous brand product", "Lubei" and "Jinhai" trademarks Won the China Famous Trademark.

The group has always adhered to the tenet of scientific and technological innovation leading the development of enterprises, and continuously strengthened R&D investment and R&D team building. It has successively established the National Petroleum and Chemical Industry Gypsum Chemical Decomposition Comprehensive Utilization Engineering Research Center, National Circular Economy Research Center, Shandong Provincial Enterprise Technology Center, Shandong Lubei Chemical Building Materials Design Institute, Lithium Battery Materials Research Institute, Titanium Product Development Research Institute, Flame Retardant and Chemical Aluminum Development Research Institute and other scientific research institutions have trained a large number of professional and technical personnel for the industry, and have achieved more than 160 major scientific and technological achievements, More than 60 national invention patents and 5 international invention patents, won the National Science and Technology Progress Award, China Petroleum and Chemical Industry Association Science and Technology Progress Award, Shandong Science and Technology Progress Award, Shandong Provincial Party Committee and Provincial Government Science and Technology Award and Social Science and Technology Progress Award, etc. rewards. Among them, the "Phosphogypsum Sulfuric Acid Cogeneration Cement Technology" with independent intellectual property

rights won the second prize of the National Science and Technology Progress Award. "Comprehensive utilization engineering technology of industrial by-product gypsum chemical decomposition method" won the first prize of Shandong Science and Technology Progress Award. The "Sulfur-containing solid-liquid waste collaborative processing industrialization" project won the first prize of Science and Technology Award of China Circular Economy Association, and was included in the Taishan Industry Leading Talent Project.

The group unswervingly develops ecological, low-carbon, and circular economy industrial clusters. Through the implementation of technology integration innovation, it has created ammonium phosphate-sulfuric acid-cement co-production and sulfur-containing solid-liquid waste collaborative treatment system, "breeding-cooling-desalination- A number of circular economy industrial chains, such as the cascade comprehensive utilization of seawater with bromine extraction-salt production as the main body, salt-alkali-electricity-aluminum and high-end chemical aluminum co-production, titanium sulfur phosphorus calcium lithium co-production and titanium dioxide clean production, have been created. China's Lubei eco-industrial model has become a banner for the development of China's circular economy. It is a model of the eco-industry of the Asia-Pacific Organization of the United Nations Environment Program in China. Enterprise, National Eco-industrial Demonstration Park, National Marine Science and Technology Industry Base and other titles.

Looking into the future, Shandong Lubei Enterprise Group Corporation will take the conversion of new and old kinetic energy, industrial transformation and upgrading and technological innovation as the carrier, on the basis of consolidating and upgrading the world's largest industrial by-product gypsum sulfuric acid production base and marine technology industry base, and

continue to Expand the ecological industrial chain of circular economy in northern Shandong, and build a domestically influential lithium battery new material base, a large-scale titanium industry base, a high-end chemical aluminum industry base, a new energy base that complements wind, fish, insects and algae, a new marine technology industry base, a new The fluorine chemical base and the demonstration and promotion center for co-processing of sulfur-containing wastes will build an internationally renowned eco-industrial park, radiate and drive the development of circular economy, and strive to make new and greater contributions to the organic integration of social, ecological and economic benefits!

## 关于鲁北 公司简介

- 公司简介
- 组织架构
- 销售网络
- 成员单位
- 发展历程

山东鲁北企业集团总公司坐落于渤海南岸，地处黄河三角洲高效生态经济区与环渤海经济区叠加带，在京津冀都市圈与山东半岛蓝色经济区的结合部，北邻天津滨海新区、沧州渤海新区，东接滨州北海新区，是国有控股大型化工企业集团，拥

有6000名员工，近200亿元资产，横跨化工、建材、电力、轻工、有色金属等行业，年销售收入120亿元，位列中国制造业企业500强、中国化工企业500强、中国化学肥料制造百强企业、中国建材百强企业、山东海洋化工行业十强企业，是目前世界上较大的磷铵、硫酸、水泥联合生产企业之一。

集团旗下控股公司有山东鲁北化工股份有限公司、山东鑫动能锂电科技有限公司、山东金海钛业资源科技有限公司、无棣金海湾锂业科技有限公司，全资子公司有山东鲁北海生生物有限公司、山东无棣鲁北化工建安有限公司、无棣海川安装工程有限公司、无棣蓝洁污水处理有限公司等，参股公司有大唐鲁北发电有限公司、无棣正源化工有限公司、山东聚杰环保科技有限公司、山东华蓝化工有限公司、山东鲁北碧水源海水淡化有限公司等。拥有年产100万吨氧化铝联产50万吨化学品铝、25万吨钛白粉、100万吨复合肥、30万吨磷铵、40万吨硫酸、60万吨水泥、2万吨碳酸锂、3万吨磷酸铁锂碳正极材料联产3万吨磷酸铁、100万吨原盐、2500吨溴素、1万吨颜染料、125MW发电、600t/h供热规模。“鲁北牌”三元复合肥、磷酸二铵是“中国名牌”、“国家免检产品”，“海峰牌”普通硅酸盐水泥是“山东名牌产品”，“鲁北”、“金海”商标荣获中国驰名商标。

集团一直坚持科技创新引领企业发展的宗旨，不断加强研发投入和研创团队建设，先后建有全国石油和化工行业石膏化学分解综合利用工程研究中心、全国循环经济研究中心、山东省企业技术中心、山东鲁北化工建材设计院、锂电材料研究院、钛产品开发研究所、阻燃剂及化学品铝开发研究所等科研机构，为行业培养了大批专业技术人才，取得160多项重大科技成果、60余项国家发明专利和5项国际发明专利，荣获国家科技进步奖、中国石油和化学工业协会科技进步奖、山东省科技进步奖、山东省委省府科技重奖及社会科技进步奖等百余项奖励。其中，具有自主知识产权的“磷石膏制硫酸联产水泥技术”获国家科技进步二等奖。“工业副产石膏化学分解法综合利用工程技术”获山东省科技进步一等奖。“含硫类固液废弃物协同处理产业化”项目获中国循环经济协会科学技术一等奖，列入泰山产业领军人才工程。

集团坚定不移地发展生态、低碳、循环经济产业集群，通过实施技术集成创新，创建了磷铵-硫酸-水泥联产及含硫固液废弃物协同处理体系、“养殖-冷却-淡化-提溴-制盐”为主体的

海水梯级综合利用、盐-碱-电-铝及高端化学品铝联产、钛硫磷钙锂联产及钛白粉清洁生产等多条循环经济产业链，创建的中国鲁北生态工业模式成为我国循环经济发展的一面旗帜，是联合国环境规划署亚太组织在中国的生态工业典型，被国家发改委、环保总局、科技部等授予国家循环经济试点企业、国家环境友好企业、国家生态工业示范园区、国家海洋科技产业基地等称号。

放眼未来，山东鲁北企业集团总公司将以新旧动能转换、产业转型升级和科技创新为载体，在巩固、提升世界规模较大工业副产石膏制硫酸基地和海洋科技产业基地的基础上，持续拓展鲁北循环经济生态产业链，建设国内有广泛影响力的锂电池新材料基地、大型钛产业基地、高端化学品铝产业基地、风光渔虫藻互补新能源基地、新型海洋科技产业基地、新型氟化工基地和含硫废弃物协同处置示范与推广中心，打造国际知名生态工业园区，辐射带动循环经济发展格局，努力为实现社会、生态和经济效益的有机融合做出新的更大贡献！
