

Customs Act 1901 – Part XVB

Certain Strata Steel Bolts

Exported from the People’s Republic of China

Findings in relation to a subsidisation investigation

Public notice under section 269TJ (1) and (2) of the Customs Act 1901

Anti-Dumping Notice (ADN) 2026/059

The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed the investigation into the alleged subsidisation of certain strata steel bolts (the goods) exported to Australia from the People’s Republic of China (China).

A full description of the goods is available in Anti-Dumping Notice (ADN) number 2024/108. This ADN is available on the public record at www.adcommission.gov.au.

The Commissioner reported his findings and recommendations to me in *Anti-Dumping Commission Report No 659* (REP 659), in which he outlines the investigations carried out and recommends the publication of a countervailing duty notice in respect of the goods. I have considered REP 659 and accepted the Commissioner’s recommendations and reasons for the recommendations, including all material findings of fact and law on which the Commissioner’s recommendations were based, and particulars of the evidence relied on to support the findings. The report is available at www.adcommission.gov.au.

Particulars of the levels of subsidisation established are set out in the following table:

Exporter	Duty method	Subsidy margin and interim countervailing duty rate
Anto Mining Equipment Co Ltd	<i>Ad valorem</i>	14.0%
Sandvik Jining Rocbolt Technologies China Co Ltd	<i>Ad valorem</i>	6.7%
Huanghua Tanrimine Metal Support Co Ltd	<i>Ad valorem</i>	10.3%
All other exporters	<i>Ad valorem</i>	14.0%

The names and details of each of the countervailable subsidy programs are contained within chapter 7 of REP 659.

I, TIM AYRES, the Minister for Industry and Innovation and Minister for Science, have considered, and accepted, the recommendations of the Commissioner, the reasons for the recommendations, the material findings of fact on which the recommendations are based, and the evidence relied on to support those findings in REP 659.

I am satisfied, as to the goods that have been exported to Australia, that countervailable subsidies have been received in respect of the goods and because of that, material injury to the Australian industry producing like goods might have been caused if the security had not been taken. Therefore, under section 269TJ(1) of the *Customs Act 1901* (the Act), I DECLARE that section 10 of the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act) applies to:

- (i) the goods; and
- (ii) like goods that were exported to Australia after the Commissioner made a Preliminary Affirmative Decision under section 269TD on 6 March 2026 but before the publication of this notice.

I am also satisfied that a countervailable subsidy has been received in respect of the goods that have already been exported to Australia, and that a countervailable subsidy may be received in respect of like goods that may be exported to Australia in the future; and because of that, material injury to the Australian industry producing like goods has been caused. Therefore, under section 269TJ(2) of the Act, I DECLARE that section 10 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from China.

The considerations relevant to my determination of material injury to the Australian industry caused by subsidisation are the size of the dumping and subsidy margins, the effect of dumped and subsidised imports on prices in the Australian market in the form of price undercutting and the consequent impact on the Australian industry including price depression, price suppression and reduced profits and profitability.

In making my determination, I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of subsidised goods, and have not attributed injury caused by other factors to the exportation of those subsidised goods.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel, in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

Particulars of the export prices, non-injurious prices and amount of countervailable subsidy received in respect of the goods (as ascertained in the confidential tables to this notice) will not be published in this notice as they may reveal confidential information.

Clarification about how measures are applied to 'goods on the water' is available in ACDN 2012/34, available at www.adcommission.gov.au.

REP 659 and other documents included in the public record may be examined at the Anti-Dumping Commission office by contacting the case manager on the details provided below. Alternatively, the public record is available at www.adcommission.gov.au.
