

Dumping and Subsidy Investigation 691

Aluminum Windows and Doors

Exported from the People's Republic of China

File note

EcoEco Windows & Doors Pty

EcoEco Windows & Doors Pty (EcoEco) requested a meeting with the Anti-Dumping Commission (the commission) to discuss dumping and subsidy investigation 691 into aluminium windows and doors (AWD, the goods) exported from the People's Republic of China (China). EcoEco is an importer of the goods.

On 12 August 2026, the commission held a meeting at the commission's head office in Melbourne with representatives from the commission and EcoEco. The purpose of the meeting was to broadly discuss the issues raised by EcoEco in its submissions made in relation to investigation 691.¹

During the meeting EcoEco discussed information reiterating its submissions including its operations, how the AWD market operates in practice, manufacturing structures in particular differences between fabricators and system suppliers and factors other than dumping and/or subsidisation are the cause of injury to the Australian industry.

The commission provided a general overview of its verification procedures,² the status of the investigation aligning with the details of EPR 691 and noted that the Commissioner's preliminary findings relating to investigation 691 will be published in the statement of essential facts (SEF) which is currently due on **23 September 2026**.

The commission invited EcoEco to provide any further information via submission and reiterated that EcoEco will have the opportunity to make submissions in response to the SEF. The commission also advised that it will consider any post SEF submissions when forming its final recommendations to the Minister.

¹ EPR 691 document nos. 422,437 and 448.
