additional quarter of Australian industry data than what was provided in an application, this would impose a significant delay to the proposed inquiry.

Orrcon estimates that preparing, reconciling, and reviewing an additional quarter would take approximately 6-8 weeks, given the need to extract information across multiple of Orrcon's ERP platforms and prepare supporting exhibits. Such delay would materially defer the Commission's ability to assess whether the expiration of the measures on HSS from the subject countries will likely lead to a continuation and recurrence of dumping and consequent material injury that the measures are intended to prevent.
