8. Provide a statement setting out the basis on which you consider the particular dumping or countervailing duty notice is inappropriate, so far as the applicant is concerned.

Jiangsu Youli Intelligent Equipment Co., Ltd considers that the current dumping duty notice and countervailing duty notice are inappropriate so far as Jiangsu Youli is concerned because Jiangsu Youli is a new exporter whose export prices, normal value, cost-to-make-and-sell information, subsidy position and commercial circumstances were not examined when the measures were originally imposed or subsequently reviewed.

Jiangsu Youli was established on [REDACTED] Jiangsu Youli confirms that it did not export the goods the subject of the notices, or like goods, to Australia at any time during the original HSS investigation period of 1 July 2010 to 30 June 2011. Jiangsu Youli also confirms that it was not a respondent or subject to investigation in original HSS Inquiry No. 177.

Jiangsu Youli further confirms that it has no ownership, control, management, affiliation or other associated relationship with any Chinese exporter whose exports were examined in original HSS Inquiry No. 177. Jiangsu Youli can provide its corporate registration documents and corporate group chart in support of this

statement.

As Jiangsu Youli was not examined, the current residual / all-other China rate does not reflect Jiangsu Youli's own export pricing, production costs, normal value, domestic sales position, subsidy circumstances or selling arrangements. The application therefore seeks an accelerated exporter review so that the Commission can determine an exporter-specific outcome for Jiangsu Youli based on its own data.

Jiangsu Youli is prepared to cooperate fully with the Commission, including by completing and submitting questionnaires, accepting verification where required, and providing supporting evidence on a confidential and non-confidential basis. This may include corporate structure information, shareholder and director information, production records, sales schedules, Australian export sales, domestic sales or confirmation of no domestic sales, cost-to-make-and-sell information, product specifications, purchase records, mill certificates and transaction documents.

**Impact
of an all
exporter
review of
measures**

Where a review of measures applies to all exporters of the goods generally (that is, not a single exporter), the changes to the notice(s) that result from the review may apply to all relevant exporters of the goods, including past applicants for an accelerated review. This means that changes to a notice as an outcome of an all-exporter review of measures may replace an earlier published outcome of an accelerated review.
