

Anti-Dumping Commission

Investigation 706

Zinc coated (galvanised) steel

Exported to Australia from the Republic of Korea and the Socialist Republic of Vietnam

FILE NOTE

Meeting with BlueScope

On 7 September 2026, staff from the Anti-Dumping Commission (the commission) met with representatives of BlueScope Limited (BlueScope), the applicant for *Investigation 706 - Zinc coated (galvanised) steel exported from Korea and Vietnam*.

BlueScope discussed the submission by Nam Kim Steel Joint Company in respect of the Model Control Code (MCC) structure, published on the commission's website on 29 July 2026.¹ BlueScope spoke about differences in coating types used for zinc coated (galvanised) steel.

The commission invited BlueScope to make a submission on any issues related to the MCC structure for the Commissioner to consider as part of the investigation.
