

ANTI-DUMPING NOTICE NO 2026/111

Certain Hollow Structural Sections Exported to Australia from the People's Republic of China by China Custom Manufacturing, Ltd

Termination of Accelerated Review No 713

Customs Act 1901 – Part XVB

1. Background

On 13 July 2026, China Custom Manufacturing, Ltd (CCMFG) lodged an application with the Anti-Dumping Commission (the commission) for an accelerated review of the anti-dumping measures applying to certain hollow structural sections (the goods) exported by CCMFG to Australia from the People's Republic of China (China).

On 10 August 2026, the Commissioner of the Anti-Dumping Commission (the Commissioner) published Anti-Dumping Notice (ADN) No 2026/111 to notify interested parties of the commencement of an accelerated review under section 269ZE(3) of the *Customs Act 1901 (Cth)* (the Act).

2. Grounds for termination

If, during the course of an accelerated review, the Commissioner becomes satisfied that the applicant is refusing to co-operate with any aspect of the review, the Commissioner may terminate the review under section 269ZE(3) of the Act.

On 13 July 2026, the commission sent an exporter questionnaire to the applicant with a response due date of 19 August 2026. The questionnaire requested information that is necessary to complete the accelerated review.

PV Hardware Solutions SLU (PVH) provided a response to the exporter questionnaire by the due date. PVH is not the applicant or the exporter in this accelerated review. In its questionnaire response, PVH stated that it purchases the goods from the applicant, CCMFG, and that it is an 'intermediary' based in a third country. PVH's response also contained material deficiencies, including incomplete and conflicting information. The applicant in this accelerated review, CCMFG, did not provide a response to the exporter questionnaire.

Given that PVH is not the exporter nor the applicant and that the applicant, CCMFG, did not submit a response to the exporter questionnaire, I am satisfied that the applicant is refusing to co-operate with an aspect of the accelerated review and I have terminated the accelerated review in accordance with section 269ZE(3) of the Act.

PUBLIC RECORD

3. Effect of the termination of the accelerated review

Termination of this accelerated review means that any securities required and taken in relation to the goods exported by the applicant and entered for home consumption from 13 July 2026 will now be converted to interim dumping duty. The applicable rate of duty is the 'all other exporters' rate of interim dumping duty applicable to China.

Further details on the goods and existing measures are available on the Dumping Commodity Register on the commission's website at www.adcommission.gov.au.
