The relevant measures arise from the original HSS investigation and have been amended/extended to capture certain goods classified to tariff subheading 7308.90.00 following Anti-Circumvention Inquiry No. 685 and Anti-Dumping Notice No. 2026/064.

4. Describe the applicant's role in the exportation of the goods (e.g. producer or manufacturer, distributor or trader of the goods).

Response: The applicant is the exporter of the goods. The applicant manufactures the steel torque tube elements at its subcontractor, [REDACTED] Ltd., factory address: [REDACTED] including tube rolling and welding, cutting, straightening, swaging and drilling.

The applicant exports the goods to Australia under purchase orders/contracts with [REDACTED] and is the exporter of record unless otherwise stated in the transaction schedule at [REDACTED] Australian Export Transaction Schedule.

5. Confirm that the applicant is a 'new exporter' as defined in sections 269ZE(1) and 269T(1) of the Customs Act 1901.

Response: The applicant confirms that it did not export HSS, steel torque tube elements or like goods to Australia, whether directly or indirectly through any trader, distributor, related party or other intermediary, at any time during the original HSS investigation period for dumping and subsidisation, being 1 July 2010 to 30 June 2011.

For transparency, the applicant confirms that exports of steel torque tube elements to Australia commenced after that original investigation period. The applicant's first identified shipment of the relevant hollow structural section goods to Australia was on 29 March 2017. Details of those later exports are provided at [REDACTED]

New Exporter Eligibility / Evidence of Later Exports.

6. Confirm whether the applicant has previously applied for an accelerated review in relation to the notices the subject of this application.

Response: The applicant confirms that it has not previously applied for an accelerated exporter review with the Anti-Dumping Commission.

7. Confirm whether the applicant is related to an exporter whose exports were examined in relation to the application for publication of the notice(s), and the nature of the relationship (s 269ZE(2)(b) refers).

Response: The applicant confirms that it is not related to, and is not an associate of, any exporter whose exports were examined in the original HSS investigation.

The applicant has addressed the association tests in section 269TAA(4) of the Customs Act 1901 in [REDACTED] Section 269TAA Association / Relationship Analysis, and provides supporting corporate structure, shareholder, director and related-party information in [REDACTED] Corporate Structure and Shareholder Information.

Section 269TAA(4) association tests

(a) Are both natural persons? Response: [REDACTED]

(b) Are both body corporates? Response: [REDACTED]

(i) Are both of them controlled by a third person (whether or not a body corporate)? Response: [REDACTED]

(ii) Do both of them together control, directly or indirectly, a third body corporate? Response: [REDACTED]

(iii) Is the same person (whether or not a body corporate) in a position to cast, or control the casting of, 5% or more of the maximum number of votes that might be cast at a general meeting of each of them? Response: [REDACTED]

(c) Is one of them, being a body corporate, directly or indirectly, controlled by the other (whether or not a body corporate)? Response: [REDACTED]

(d) Is one of them, being a natural person, an employee, officer or director of the other (whether or not a body corporate)? Response: [REDACTED]

(e) Are they members of the same partnership? Response: [REDACTED]

NB: Appropriate evidence supporting the applicant's view that it is not related to an exporter examined in the original investigation is provided in Attachments 4 and 5, including corporate structure, shareholder, director and related-party information.

8. Provide a statement setting out the basis on which you consider the particular dumping or countervailing duty notice is inappropriate, so far as the applicant is concerned.

Response: The applicant did not export the goods or like goods to Australia during the original investigation period and was not examined in the original HSS investigation. No exporter-specific dumping margin, normal value, export price, subsidy level or combined IDD/ICD rate has been determined for the applicant.

The applicant considers that the current all-other exporter rate is inappropriate insofar as it applies to the applicant because it is not based on the applicant's own verifiable commercial data.

The applicant's pricing, production costs, sales channels, product specifications, normal value, export price and subsidy position differ from the data and assumptions used to determine the all-other exporter rate.

The applicant therefore requests that the Commissioner accept this accelerated review application and determine exporter-specific variable factors/rates for the applicant, including a nil or lower rate once supported by the applicant's data.

The applicant is willing to cooperate fully with the Commission and provide confidential normal value, export price, cost-to-make-and-sell, domestic sales, export sales and subsidy information as required.

Impact of an all exporter review of measures	Where a review of measures applies to all exporters of the goods generally (that is, not a single exporter), the changes to the notice(s) that result from the review may apply to all relevant exporters of the goods, including past applicants for an accelerated review. This means that changes to a notice as an outcome of an all-exporter review of measures may replace an earlier published outcome of an accelerated review.
Lodgement of the application	This application, together with the supporting evidence, must be lodged in the manner approved by the Commissioner under subsection 269SMS(2) of the Act. The Commissioner has approved lodgement of this application by either: • email, preferably, using the email address clientsupport@adcommission.gov.au; • upload to SIGBOX (SIGBOX is our secure online lodgement platform, suitable for large files or attachments - email us to arrange access), or • post to: The Commissioner of the Anti-Dumping Commission GPO Box 2013 Canberra ACT 2601 As currently applied: • Applications are taken to be lodged or received by the Commissioner when it is first received by a commission staff member doing duty in relation to applications. • Staff members are taken to be on duty receiving applications from 9:00am to 5:00pm (AEST or AEDST) on business days that are not an Australian Capital Territory public holiday, or during Annual Closedown.* Definitions in this application: • AEST means Australian Eastern Standard Time. • AEDST means Australian Eastern Daylight Savings Time • business day means a day that is not a Saturday or Sunday. • Annual Closedown means the 3 business days the Commission is closed between Christmas Day and New Year's Day. * Public holidays are listed at: https://www.fairwork.gov.au/employment-conditions/public-holidays
Public Record	There is no legislative requirement to maintain a public record for accelerated reviews. However, in the interests of transparency, a public record for an accelerated review will be opened and accessible on the commission's website at www.adcommission.gov.au. The public record will contain, among other things, a copy of the application, all submissions from interested parties and commission reports. At the time of making the application, the commission requests both a confidential version (for official use only) and non-confidential version (public record) of the application be submitted. Please ensure each page of the application is clearly marked "FOR OFFICIAL USE ONLY" or "PUBLIC RECORD". The non-confidential application should enable a reasonable understanding of the substance of the information submitted in confidence, clearly showing the reasons for seeking the accelerated review, or, if those reasons cannot be summarised, a statement of reasons why summarisation is not possible. If you cannot provide a non-confidential version, contact the commission's client support section for advice.
