The Quota due to Coke= Quota passed down this time $\times (0.8 \times A1 + 0.2 \times A2)$

$A1 = (\text{Export volume in recent three years of each enterprise} \div \text{Total Volume of national export}) \times 0.9 + (\text{Export value in recent three years of each enterprise} \div \text{Total Value of national export}) \times 0.1$

$A2 = \text{the export supply volume of manufacturing enterprises in 2007} \div \text{The total export supply volume of all the manufacturing enterprises}$

Including: the 0.2 of the formula is the weight of supply volume for manufacturing enterprise; the 0.8 is the weight of export performance of manufacturing and foreign trade enterprises; the 0.9 of A1 means the weight of export volume; the 0.1 represents weight of export value.
