ANTI-DUMPING NOTICE NO. 2019/69

Investigation 473

Alleged dumping of ammonium nitrate exported to Australia from the People's Republic of China, Sweden and the Kingdom of Thailand

Notice for longer period for the decision of the Minister for Industry, Science and Technology

Customs Act 1901

Public notice under subsection 269TLA(3)

The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed an investigation into the alleged dumping of ammonium nitrate exported to Australia from the People's Republic of China, Sweden and the Kingdom of Thailand.

Copies of the application and various submissions made in relation to the investigation are available on the Anti-Dumping Commission's website at www.adcommission.gov.au.

The Commissioner provided his final report and recommendations to me on 18 April 2019. Subsection 269TLA(2)(a) of the *Customs Act 1901* (the Act) requires the relevant Minister to make their decision on the outcome of this investigation within 30 days after receiving the Commissioner's report, that is, by **18 May 2019**.

Where there are special circumstances that prevent the decision being made within that period, subsection 269TLA(2)(b) of the Act provides that the decision may be within such longer period as the Minister considers appropriate.

I consider that I require further time to consider this report due to the complexities of this case and it is therefore appropriate under subsection 269TLA(2)(b) of the Act to extend the period for making my decision for a further **15 days to 3 June 2019**¹ in order to properly consider the Commissioner's final report and recommendations.

A handwritten signature in blue ink that reads "Karen Andrews".

KAREN ANDREWS

Minister for Industry, Science and Technology

Dated this ^{16th} day of May 2019

¹As the date for the decision 2 June 2019 falls on a Sunday, the date of decision is the next day, Monday 3 June 2019.
