

ANTI-DUMPING NOTICE NO. 2019/44

Customs Act 1901 – Part XVB

Certain aluminum extrusions

Exported to Australia from the People's Republic of China

Findings in Relation to Reviews of Anti-Dumping Measures

***Notice under subsection 269ZDB(1)(a)(iii) of the Customs Act 1901
and subsections 8(5) and 10(3B) of the Customs Tariff (Anti-Dumping) Act 1975***

The Commissioner of the Anti-Dumping Commission has completed a review, which commenced on 12 July 2018, of the anti-dumping measures applying to certain aluminium extrusions (the goods) exported to Australia from the People's Republic of China (China). The anti-dumping measures are in the form of a dumping duty notice and a countervailing duty notice.

Recommendations resulting from the review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report No. 482 (REP 482)*.

I, Karen Andrews, the Minister for Industry, Science and Technology have considered REP 482 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts or law set out in REP 482.

Under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), I declare that, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act), that, with effect from the date of publication of this notice, the dumping duty notice and countervailing duty notice currently applying to the goods exported to Australia from China be taken to have effect as if different variable factors had been fixed in respect of all exporters relevant to the determination of duty.

The dumping duty that has been determined is an amount worked out in accordance with the combination of fixed and variable duty method and countervailing duty as a percentage of the export price, as detailed in the table below.

Particulars of the dumping margin established for all exporters generally and the effective rate of duty is set out in the following table.

Exporter	Dumping margin	Subsidy margin	Fixed rate of combined IDD and ICD*	Duty method
Tai Shan City Kam Kiu Aluminium Extrusion Co., Ltd	35.7%	3.6%	39.2%	Combination of fixed and variable duty method, consisting of a fixed rate of IDD and ICD plus a variable component of IDD equal to the amount, if any, by which the actual export price is lower than the ascertained export price.
PanAsia Aluminium (China) Co., Ltd	55.2%	2.6%	55.7%	
Guangdong Zhongya Aluminium Company Limited	n/a	0.2%	0.2%	
Guangdong Jinxiecheng AL Manufacturing Co., Ltd	15.8%	0.0%	15.8%	
Foshan Shunde Beijiao Jiawei Aluminium Factory	20.1%	0.0%	20.1%	
Goomax Metal Co. Ltd., Fujian	42.3%	1.2%	43.5%	
Residual exporters	29.1%	0.7%	29.5%	
Uncooperative and all other exporters	95.9%	8.2%	101.9%	

* As outlined in REP 482, the calculation of the combined fixed rate of ICD and IDD is not simply a matter of adding the dumping and subsidy margins together for any given exporter, or group of exporters. For each exporter or group of exporters, the combined fixed rate of ICD and IDD will be the sum of:

- the subsidy rate calculated for all countervailable programs; and
- the dumping rate calculated, less an amount for the subsidy rate applying to Program 15 (where this has been received by the exporter or group of exporters).

as specified in REP 482.

The actual duty liability may be higher than the effective rate of duty due to a number of factors. Affected parties should contact the Anti-Dumping Commission (the Commission) business.gov.au on 13 28 46 or +61 2 6213 6000 or at clientsupport@adcommission.gov.au for further information regarding the actual duty liability calculation in their particular circumstance.

To preserve confidentiality, details of the revised variable factors being the Ascertained Export Price (AEP), Ascertained Normal Value (ANV), the amount of countervailable subsidy received and non-injurious price (NIP) will not be published.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel (www.adreviewpanel.gov.au) in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

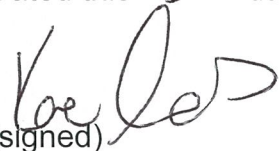

The Anti-Dumping Review Panel can be contacted by mail, phone, fax or email:
