Extension of time granted to issue *Final Report No 483*

Customs Act 1901 – Part XVB

On 6 July 2018 Dale Seymour, the Commissioner of the Anti-Dumping Commission, (the Commissioner) published a notice (initiation notice) indicating that an anti-circumvention inquiry was to be conducted in relation to wire rope exported to Australia from the Republic of South Africa.

A full description of the goods is available in Anti-Dumping Notice (ADN) No 2018/105 at www.adcommission.gov.au.

The initiation notice stated that:

- a statement of essential facts (SEF) for the inquiry would be placed on the public record by 24 October 2018 or such later date as allowed; and
- a recommendation to the Minister would be made in a report on or before 8 December 2018 or such later date as allowed.

The Commissioner extended the due date to publish the SEF and provide the final report to the Minister on two occasions.¹ The SEF was placed on the public record on 11 February 2019.

Following this, the Commissioner allowed interested parties until 8 April 2019 to provide further submissions and extended the due date to provide the report and recommendation to the Minister to 10 May 2019.²

The Commission has received further submissions in response to the SEF. As a result, I, Paul Sexton, General Manager of Investigations, consider that further time is required to address these submissions and requested an extension of time under subsection 269ZH(1)(b) of the *Customs Act 1901* to the deadline for the Commissioner to provide his final report and recommendation to the Minister.

¹ Refer to Anti-Dumping Notices (ADN) [2018/161](#) and [2018/188](#) for further details.

² Refer to ADN [2019/40](#) for further details.

The Commissioner has further extended the deadline to provide his report and recommendation to the Minister.³ The Commissioner's report and recommendation to the Minister will now be made on or before **31 May 2019**.
