ANTI-DUMPING NOTICE NO. 2018/110

Customs Act 1901 – Part XVB

Application for an accelerated review of a dumping duty notice
and countervailing duty notice

Submitted by Anhui Tongxi Jinpeng Aluminum Co., Ltd

applying to certain aluminium extrusions exported to Australia
from the People's Republic of China

9 July 2018

Introduction

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, have commenced an accelerated review of the anti-dumping measures applying to certain aluminium extrusions ('the goods') exported to Australia from the People's Republic of China (China), in so far as they relate to the new exporter, Anhui Tongxi Jinpeng Aluminum Co., Ltd (Tongxi Jinpeng or 'the applicant').

The lodgement date of 19 June 2018 is the commencement date of the accelerated review.¹

I previously initiated Accelerated Review 475 on the anti-dumping measures applying to the goods exported to Australia from China as they affect Tongxi Jinpeng on 18 April 2018.² The accelerated review was terminated on 18 June 2018 pursuant to subsection 269ZE(3)(a) of the *Customs Act 1901* (the Act).³ Termination of Accelerated Review 475 did not preclude Tongxi Jinpeng from submitting an application for another accelerated review.

The goods

The goods subject to anti-dumping measures (the goods), in the form of a dumping duty notice and a countervailing duty notice (the notices), are outlined in the table below.

Full description of the goods the subject of the application
Aluminium extrusions produced via an extrusion process, of alloys having metallic elements falling within the alloy designations published by The Aluminium Association commencing with 1, 2, 3, 5, 6 or 7 (or proprietary or other certifying body equivalents), with the finish being as extruded (mill), mechanical, anodized or painted or otherwise coated, whether or not worked, having a wall thickness or diameter greater than 0.5 mm., with a maximum weight per metre of 27 kilograms and a profile or cross-section which fits within a circle having a diameter of 421 mm.
Further information
The goods include aluminium extrusion products that have been further processed or fabricated to a limited extent, after aluminium has been extruded through a die. Aluminium extrusion products that have been painted, anodised, or otherwise coated, or worked (e.g. precision cut, machined, punched or drilled) fall within the scope of the goods. The goods do not extend to intermediate or finished products that are processed or fabricated to such an extent that they no longer possess the nature and physical characteristics of an aluminium extrusion, but have become a different product.

¹ Subsection 269ZF(2) states that an application for accelerated review is taken to have been lodged when the application is first received by a Commission staff member doing duty in relation to applications for accelerated reviews. Subsection 269ZF(3) states that the day on which an application is taken to be lodged must be recorded on the application.

² Anti-Dumping Notice (ADN) 2018/58 refers.

< Examples >						
< Goods covered by measures >				< Goods not covered by the measures >		
Mill finish, painted, powder coated, anodised, or otherwise coated aluminium extrusions	Precision cut, machined, punched or drilled aluminium extrusions	Aluminium extrusions designed for use in a door or window	Carpet liner, fence posts, heat sinks	Shower frame kits, window kits, unassembled unitised curtain walls	Unglazed window or door frames	Windows, doors

Tariff Classification

The goods are generally, but not exclusively, classified to the following tariff subheadings in Schedule 3 to the *Customs Tariff Act 1995*:

7604.10.00/06	non alloyed aluminium bars, rods and profiles;
7604.21.00/07	aluminium alloy hollow angles and other shapes;

Accelerated reviews

The legislative framework that underpins the making of, and my consideration of, an application for accelerated review of dumping duty and countervailing duty notices is contained in Divisions 1 and 6 of Part XVB of the Act.

If I do not reject an application or terminate an accelerated review, pursuant to subsections 269ZG(1) and (2) of the Act I must, not later than 100 days after the application is lodged, provide the Assistant Minister for Science, Jobs and Innovation (the Assistant Minister) a report recommending:

- (a) that the dumping duty notice and countervailing duty notice the subject of the application remain unaltered; or
- (b) that the dumping duty notice and countervailing duty notice the subject of the application be altered so as to apply to the applicant as if different variable factors had been fixed;

and set out my reasons for so recommending.

In relation to this application, this recommendation must be made not later than **27 September 2018**.

There is no legislative requirement to maintain a public file for accelerated reviews. However, in the interests of transparency, a public record will be maintained. This notice, along with a non-confidential version of the application, response to the exporter questionnaire and any non-confidential submissions that are received, will be published on the public record, available at www.adcommission.gov.au.

Submissions

Written submissions concerning this accelerated review must be lodged by **8 August 2018** by email to investigations2@adcommission.gov.au.

Parties claiming that information contained in their submission is confidential, or that the publication of the information would adversely affect their business or commercial interests, must:

- (i) provide a summary containing sufficient detail to allow a reasonable understanding of the substance of the information that does not breach that confidentiality or adversely affect those interests, or
- (ii) satisfy me that there is no way such a summary can be given to allow a reasonable understanding of the substance of the information.

Submissions containing confidential information must be clearly marked '**FOR OFFICIAL USE ONLY**' on each page. A non-confidential version, or a summary, of the submission must also be lodged, clearly marked '**PUBLIC RECORD**' on each page.

Circumstances in which an accelerated review may be sought

Section 269ZE sets out the circumstances in which an accelerated review may be sought. If the circumstances of subsection 269ZE(2) are met, I may reject the application.

Requirement	Finding
<p>Applicant meets the definition of new exporter³ (subsection 269ZE(1))</p> <p>To fall within the definition of a new exporter, the period within which the applicant must not have exported the goods to Australia is 1 July 2008 to 30 June 2009 (the investigation period for the original investigation).</p>	<p>There is no evidence of exports by the applicant during the investigation period for the original investigation. A search of the Australian Border Force's import database did not reveal the applicant as a supplier of the goods during this period.</p> <p>Accordingly, I consider that the applicant should be considered a new exporter for the purposes of the accelerated review.</p>
<p>Declaration has not already been made in respect of the applicant under subsection 269ZG(3)(b) (subsection 269ZE(1))</p>	<p>No such declaration has been made.</p>
<p>The applicant did not refuse to co-operate, in relation to the application for publication of the notices (subsection 269ZE(2)(a))</p>	<p>There is no evidence of exports by the applicant during the investigation period for the original investigation and, therefore, cooperation was not sought from the applicant during the original investigation as the applicant would not have been identified as an exporter. Accordingly, the applicant did not refuse to cooperate with the original investigation.</p>
<p>The applicant is not related to an exporter whose exports were examined in relation to the application for publication of the notices (subsection 269ZE(2)(b))</p> <p><i>Subsection 269ZE(4) provides that, for the purposes of section 269ZE, an exporter is taken to be related to another exporter if the two exporters are associates of one another under subsection 269TAA(4).</i></p>	<p>To determine whether section 269ZE(2)(b) applies, preliminary background research of the applicant was conducted to ascertain the existence of any relationship or connection between the applicant and an exporter whose exports were examined during the original investigation.</p> <p>The Commission has examined the information from the original investigation and the Australian Border Force's import data for the original investigation period.</p> <p>There is no evidence to suggest that the applicant is related to an exporter whose exports were examined during the original investigation.</p>

For the reasons set out above, I consider that the application complies with subsection 269ZE(1). As there are presently no grounds to reject the application under subsection 269ZE(2), I have not rejected it.

³A new exporter is defined in subsection 269T(1) as, in relation to the goods the subject of the application for a dumping or countervailing duty notice or like goods, an exporter who did not export such goods to Australia at any time during the investigation period in relation to the application. Subsection 269T(1) also defines 'application' in relation to a dumping duty notice or a countervailing duty notice as meaning an application for the publication of such a notice.

Application for accelerated review – compliance with section 269ZF

Subsection 269ZF(1) requires that an application for accelerated review must:

- be in writing and be lodged in a manner approved under section 269SMS (subsection 269ZF(1));
- contain a description of the goods to which the dumping duty notice and the countervailing duty notice relates (subsection 269ZF(1)(a)); and
- contain a statement of the basis on which the exporter considers that the particular notice is inappropriate so far as the exporter is concerned (subsection 269ZF(1)(b)).

Requirement	Finding
Lodged with the Commissioner in writing and in a manner approved under section 269SMS	The application was in writing and lodged in a manner approved in an instrument made under section 269SMS, being by email to the Commission's nominated email address.
Contains a description of the goods to which the dumping duty notice and countervailing duty notice relates	The application contained a description of the goods to which the dumping duty notice and countervailing duty notice relate.
Contains a statement of the basis on which the applicant considers that the particular notice is inappropriate in so far as the exporter is concerned	<p>The application included a statement from the applicant as to the grounds on which it deems the notices inappropriate in so far as it concerned as follows:</p> <ul style="list-style-type: none"> • The applicant did not export the goods subject to the notices at any time during the investigation period. • As the applicant was not subject to the original investigation, it did not refuse to cooperate. <p>The applicant is not related to the exporters to which the notices apply.</p>

Based on the information submitted by the applicant, I consider that the application complies with subsection 269ZF(1).

Conclusion

I am satisfied that, on the basis of currently available information in the application and:

- the circumstances in which an accelerated review can be sought under subsection 269ZE(1) have been satisfied;
- the conditions for rejection under subsection 269ZE(2) are not satisfied; and
- the application satisfies the requirements of section 269ZF.

In view of the above, I have decided that the application should not be rejected. My decision has been made on the basis of all currently available information. If, during the accelerated review, evidence becomes available that satisfies me that the requirements of either subsection 269ZE(2) or subsection 269ZE(3) are met, I may reject the application or terminate the accelerated review.

The review period for the accelerated review is set as 1 April 2017 to 31 March 2018.

Securities

When an application for an accelerated review of a dumping duty notice or countervailing duty notice is lodged, subsection 269ZH(a) provides that no interim duty can be collected from the applicant in respect of consignments of goods, to which the application relates, entered for home consumption after the application is lodged and until the completion of the review.

However, pursuant to subsection 269ZH(b), the Commonwealth may require and take securities under section 42 in respect of interim dumping duty and interim countervailing duty that may be payable on importation of the goods to which the application relates.

I declare that the Commonwealth will require and take securities, as shown in Confidential table 1, under section 42 from 19 June 2018 in respect of interim dumping duty and interim countervailing duty that may be payable on the importation of the goods to which the application under subsection 269ZE(1) relates.

The interim dumping duty that has been determined is an amount that has been worked out in accordance with the combination duty method pursuant to subsection 5(2) of the *Customs Tariff (Anti-Dumping) Regulation 2013*.

The interim countervailing duty that has been determined is an amount that has been ascertained as a proportion of the export price of the goods pursuant to subsection 10(3B)(a) of the *Customs Tariff (Anti-Dumping) Act 1975*.
