ANTI-DUMPING NOTICE NO. 2019/61

Customs Act 1901 – Part XVB

Certain aluminum extrusions

Exported to Australia from Malaysia

Findings in Relation to a Review of Anti-Dumping Measures relating to Alumac Industries Sdn Bhd

***Notice under subsection 269ZDB(1) of the Customs Act 1901
and subsection 8(5) of the Customs Tariff (Anti-Dumping) Act 1975***

The Acting Commissioner of the Anti-Dumping Commission ('Commission') has completed a review, which commenced on 27 September 2018, of the anti-dumping measures applying to certain aluminium extrusions (the goods) exported to Australia from Malaysia by Alumac Industries Sdn Bhd (Alumac). The anti-dumping measures are in the form of a dumping duty notice and a countervailing duty notice.

Recommendations resulting from the review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report No. 490 and 494 (REP 494)*.

I, KAREN ANDREWS, the Minister for Industry, Science and Technology have considered REP 494 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts or law set out in REP 494.

Under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), I declare that, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975*, with effect from the date of publication of this notice, the dumping duty notice¹ currently applying to the goods exported to Australia from Malaysia be taken to have effect, in relation to Alumac, as if different variable factors had been fixed relevant to the determination of duty.

The interim dumping duty (IDD) that has been determined is an amount worked out in accordance with the floor price duty method, as detailed in the table below.

Particulars of the dumping margin established for Alumac and the applicable IDD is set out in the following table.

¹ The outcome of a revocation review (REV 490) resulted in the countervailing duty notice being revoked with respect to exports of the goods to Australia by Alumac. Therefore this notice only deals with the dumping duty notice applicable to exports of the goods to Australia by Alumac. Refer to ADN No. 2019/60.

Exporter	Dumping margin	Subsidy margin	Fixed rate of IDD	Duty method
Alumac Industries Sdn Bhd	-9.0%	N/A	0%	Floor price duty method, being the difference between the export price and normal value of the goods sold for home consumption, where the export price is lower than normal value.

Affected parties should contact the Commission business.gov.au on 13 28 46 or +61 2 6213 6000 or at clientsupport@adcommission.gov.au for further information regarding the actual duty liability calculation in their particular circumstance.

To preserve confidentiality, details of the revised variable factors being the ascertained export price, ascertained normal value and non-injurious price will not be published.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel (www.adreviewpanel.gov.au) in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

The Anti-Dumping Review Panel can be contacted by mail, phone, fax or email:
