ANTI-DUMPING NOTICE NO. 2019/81

Public notice under subsection 269TB(4) of the Customs Act 1901

Solid Base Angle

Exported from the People’s Republic of China

Withdrawal of application for the publication of a dumping duty notice

Customs Act 1901 – Part XVB

On 26 February 2019, I Dale Seymour, the Commissioner of the Anti-Dumping Commission, initiated an investigation into the alleged dumping of solid base angle (the goods) exported to Australia from the People’s Republic of China (China).

The investigation was in response to an application lodged by Galintel Pty Ltd (the applicant) seeking the publication of a dumping duty notice in respect of the goods exported to Australia from China. The application alleged that the goods had been exported to Australia at dumped prices and because of that were causing material injury to the Australian industry.

I gave public notice of my decision to initiate the investigation under subsection 269TC(4) of the Act. See Anti-Dumping Notice 2019/26.

I have received a notice in writing from the applicant under subsection 269TB(3) of the Act withdrawing its application for a dumping duty notice in whole, that is in relation to all exporters of solid base angle exporting from China.

I am satisfied that the notice of withdrawal from the applicant meets the requirements of subsection 269TB(4), that is:

- it is in writing;
- it is in a form approved by me for the purposes of subsection 269TB(4);
- it contains such information as the form requires;
- it is signed in a manner indicated in the form; and
- it has been lodged in a manner approved by me under section 269SMS.

Therefore, I will cease the investigation concerning this application and make no findings on the allegations of dumping, material injury and causal link.
