## INSTRUCTIONS

### Why you have been asked to fill out this questionnaire?

The Anti-Dumping Commission (the Commission) is conducting an inquiry into whether the continuation of anti-dumping measures, in the form of a dumping duty notice, in respect of power transformers (the goods) exported to Australia from the Republic of Indonesia (Indonesia), Taiwan and the Kingdom of Thailand (Thailand) is justified.

The Commission will use the information you provide to determine normal values and export prices over the inquiry period (the period). This information will determine whether power transformers have been dumped.

### If you do not manufacture the goods

If you play a role in the export of the goods but do not produce or manufacture the goods (for example, you are a trading company, broker, or vendor dealing in the goods), it is important that you forward a copy of this questionnaire to the relevant manufacturers and inform the case manager of the contact details for these manufacturers **immediately**.

The Commission will still require your company to complete this exporter questionnaire except Section G – Cost to make and sell.

### What happens if you do not respond to this questionnaire?

You do not have to complete the questionnaire. However, if you do not respond, do not provide all of the information sought, do not provide information within a reasonable time period, or do not allow the Commission to verify the information, we may deem your company to be an uncooperative exporter. In that case the Commission must determine a dumping margin having regard to all relevant information.

Therefore, it is in your interest to provide a complete and accurate response to this exporter questionnaire, capable of verification.

### Extension requests

If you require a longer period to complete your response to this exporter questionnaire, you must submit a request to the case manager, in writing, for an extension to the due date for all or part of the questionnaire. This request must be made prior to the due date. A request for extension will be rejected if received after the due date.

When considering the extension request, the Commission will have regard to:

- the Commission's responsibility to conduct the case in a timely and efficient manner;
- the reasons why you could not provide a response within the whole period and not only the period remaining between the request and the due date;
- ordinary business practices or commercial principles;
- the Commission's understanding of the relevant industry;
- previous correspondence and previous dealings with your company; and
- information provided by other interested parties.

More information on extensions can be found in the Customs (Extension of Time and Non-cooperation) Direction 2015 at <https://www.legislation.gov.au/Details/F2015L01736>.

You will be informed of the decision whether your request for an extension has been rejected, granted in full or granted in part. For example, you may be granted an extension to submit all sections except for Section A or you may be granted a shorter extension than you requested.

## PUBLIC RECORD

A summary of any requests and grants of extensions to submit a response to this exporter questionnaire will be published in the public record.

### **Submitting a response to the exporter questionnaire**

Responses to the exporter questionnaire should be lodged by email listed on the cover page. In submitting the response to the exporter questionnaire, you must answer all questions, include all attachments and spreadsheets, and provide a non-confidential version of your response to this exporter questionnaire.

If your response to this exporter questionnaire contains major deficiencies that, in the Commissioner's view, cannot be quickly and easily rectified in a further response, then your company may be deemed as an uncooperative exporter.

### **Confidential and non-confidential responses**

You are required to lodge a confidential version (for official use only) and a non-confidential version (for public record) of your response to this exporter questionnaire by the due date. Please ensure that *each page* of information you provide is clearly marked either "FOR OFFICIAL USE ONLY" or "PUBLIC RECORD".

All information provided to the Commission in confidence will be treated accordingly. The non-confidential version of your submission will be placed on the public record, and must contain sufficient detail to allow a reasonable understanding of the substance of the information, but does not breach confidentiality nor adversely affect those interests.

A person is not required to provide a summary for the public record if the Commission can be satisfied that no such summary can be given that would allow a reasonable understanding of the substance of the information.

All submissions are required to have a bracketed explanation of deleted or blacked out information for the non-confidential version of the submission. An example of a statement to accompany deleted/blacked out text is:

[Explanation of cost allocation through the divisions, by reference to machine hours or weight].

If such an explanation is not provided, the Commission may disregard the information in the submission. Where the public record version of your response to the exporter questionnaire does not contain sufficient detail, your company may be deemed to have significantly impeded the case and be deemed an uncooperative exporter.

### **Verification of the information that you supply**

The Commission may wish to conduct a visit to your company to verify your questionnaire response for completeness, relevance and accuracy of the information to your company's records.

The verification visit is not meant to be a chance for you to provide new or additional information. The Commission expects your response to the questionnaire to be relevant, complete and accurate.

Any verification visit typically commences approximately 2 to 4 weeks after the due date of the response to the exporter questionnaire. To assist with planning of a verification visit, please contact the case manager as soon as possible for a potential verification date to be scheduled.

Verification is usually conducted over 4 days. However, in complex cases, a verification visit may be scheduled over 5 days. A verification visit will include a detailed examination of your company's records and we will collect copies of relevant documents. The verification will require the participation of key staff, including your financial accountant, production manager and sales staff. A tour of the manufacturing facility may also be required during the verification visit.

## **PUBLIC RECORD**

Note that the Commission may disregard any data or information that is not verified, including new or additional information provided after the verification visit.

A report will be prepared following the verification visit, which details the outcomes of the visit. This report will be placed on the public record and may include the publication of the preliminarily-assessed dumping margin. The Commission considers that the dumping margin is not confidential information, but rather an aggregate figure derived from confidential data.

You will be provided with an opportunity to comment on the accuracy and confidentiality of the verification report prior to its publication on the public record.

The Commission may elect to undertake an alternative verification methodology than an on-site verification to satisfy itself of the completeness, relevance and accuracy of the data.

For information on the Commission's verification procedures, refer to Anti-Dumping Notice No. 2016/30 available on the Commission's website.

### **Important instructions for preparing your response**

- All questions in this exporter questionnaire must be completed. If a question is not applicable to your situation, please answer the question with "Not Applicable" and provide an explanation as to why.
- All questions must be answered in English. An English translation must be provided for documents not originally in English.
- Clearly identify all units of measurement (e.g. KG) and currencies (e.g. AUD) used. Apply the same measurement consistently throughout your response to the questionnaire.
- Label all attachments to your response according to the section of the questionnaire it relates to (e.g. label the chart of accounts as Attachment A-5.6)
- The data must be created as spreadsheet files in Microsoft Excel.
- If you have used formulas to complete spreadsheets, these formulas must be retained and not hard-coded.
- You must retain all worksheets used in answering the questionnaire. Be prepared to provide these worksheets during the Commission's verification of your data.
- If you cannot present electronic data in the requested format contact the case officer as soon as possible.
- Where possible, electronic data should be emailed or shared with the Commission via SIGBOX, a secure online document repository. Please contact the case manager to request access to SIGBOX if required.

## **GOODS UNDER CONSIDERATION / GOODS SUBJECT TO ANTI-DUMPING MEASURES**

The goods under consideration (the goods) i.e. the goods exported to Australia, subject to anti-dumping measures, are:

*Liquid dielectric power transformers with power ratings of equal to or greater than 10 MVA (mega volt amperes) and a voltage rating of less than 500kV (kilo volts) whether assembled or unassembled, complete or incomplete.*

Incomplete transformers are sub-assemblies consisting of the active part and any other parts attached to, imported with or invoiced with the active parts of power transformers. The active part of a power transformer consists of one or more of the following when attached to or otherwise assembled with one another:

- the steel core;
- the windings;
- electrical insulation between the windings; and
- the mechanical frame.

The product definition includes step-up transformers, step-down transformers, autotransformers, interconnection transformers, voltage regulator transformers, rectifier transformers, traction transformers, trackside transformers and power rectifier transformers.

Distribution transformers are not the subject to the measures.
