INSTRUCTIONS

Why you have been asked to fill out this questionnaire?

The Anti-Dumping Commission (the Commission) is conducting an investigation into power transformers (also referred to as 'the goods') exported to Australia from the People's Republic of China (China).

The Commission will use the information you provide to determine normal values and export prices over the investigation period (the period). This information will determine whether the power transformers are dumped.

If you do not manufacture the goods

If you play a role in the export of the goods but do not produce or manufacture the goods (for example, you are a trading company, broker, or vendor dealing in the goods), it is important that you forward a copy of this questionnaire to the relevant manufacturers and inform the case manager of the contact details for these manufacturers **immediately**.

The Commission will still require your company to complete this exporter questionnaire except Section G – Cost to make and sell.

What happens if you do not respond to this questionnaire?

You do not have to complete the questionnaire. However, if you do not respond, do not provide all of the information sought, do not provide information within a reasonable time period, or do not allow the Commission to verify the information, we may deem your company to be an uncooperative exporter. In that case the Commission must determine a dumping margin having regard to all relevant information.

Therefore, it is in your interest to provide a complete and accurate response to this exporter questionnaire, capable of verification.

Extension requests

If you require a longer period to complete your response to this exporter questionnaire, you must submit a request to the case manager, in writing, for an extension to the due date for all or part of the questionnaire. This request must be made prior to the due date. A request for extension will be rejected if received after the due date.

When considering the extension request, the Commission will have regard to:

- the Commission's responsibility to conduct the case in a timely and efficient manner;
- the reasons why you could not provide a response within the whole period and not only the period remaining between the request and the due date;
- ordinary business practices or commercial principles;
- the Commission's understanding of the relevant industry;
- previous correspondence and previous dealings with your company; and

FOR PUBLIC RECORD

- information provided by other interested parties.

More information on extensions can be found in the Customs (Extension of Time and Non-cooperation) Direction 2015 at <https://www.legislation.gov.au/Details/F2015L01736>.

You will be informed of the decision whether your request for an extension has been rejected, granted in full or granted in part. For example, you may be granted an extension to submit all sections except for Section A or you may be granted a shorter extension than you requested.

A summary of any requests and grants of extensions to submit a response to this exporter questionnaire will be published in the public record.

Submitting a response to the exporter questionnaire

Responses to the exporter questionnaire should be lodged by email listed on the cover page. In submitting the response to the exporter questionnaire, you must answer all questions, include all attachments and spreadsheets, and provide a non-confidential version of your response to this exporter questionnaire.

If your response to this exporter questionnaire contains major deficiencies that, in the Commissioner's view, cannot be quickly and easily rectified in a further response, then your company may be deemed as an uncooperative exporter.

Confidential and non-confidential responses

You are required to lodge a confidential version (for official use only) and a non-confidential version (for public record) of your response to this exporter questionnaire by the due date. Please ensure that *each page* of information you provide is clearly marked either "FOR OFFICIAL USE ONLY" or "PUBLIC RECORD".

All information provided to the Commission in confidence will be treated accordingly. The non-confidential version of your submission will be placed on the public record, and must contain sufficient detail to allow a reasonable understanding of the substance of the information, but does not breach confidentiality nor adversely affect those interests.

A person is not required to provide a summary for the public record if the Commission can be satisfied that no such summary can be given that would allow a reasonable understanding of the substance of the information.

All submissions are required to have a bracketed explanation of deleted or blacked out information for the non-confidential version of the submission. An example of a statement to accompany deleted/blacked out text is:

[Explanation of cost allocation through the divisions, by reference to machine hours or weight].

If such an explanation is not provided, the Commission may disregard the information in the submission. Where the public record version of your response to the exporter questionnaire does not contain sufficient detail, your company may be deemed to have significantly impeded the case and be deemed an uncooperative exporter.

Verification of the information that you supply

FOR PUBLIC RECORD

The Commission may wish to conduct a visit to your company to verify your questionnaire response for completeness, relevance and accuracy of the information to your company's records.

The verification visit is not meant to be a chance for you to provide new or additional information. The Commission expects your response to the questionnaire to be relevant, complete and accurate.

Any verification visit typically commences approximately 2 to 4 weeks after the due date of the response to the exporter questionnaire. To assist with planning of a verification visit, please contact the case manager as soon as possible for a potential verification date to be scheduled.

Verification is usually conducted over 4 days. However, in complex cases, a verification visit may be scheduled over 5 days. A verification visit will include a detailed examination of your company's records and we will collect copies of relevant documents. The verification will require the participation of key staff, including your financial accountant, production manager and sales staff. A tour of the manufacturing facility may also be required during the verification visit.

Note that the Commission may disregard any data or information that is not verified, including new or additional information provided after the verification visit.

A report will be prepared following the verification visit, which details the outcomes of the visit. This report will be placed on the public record and may include the publication of the preliminarily-assessed dumping margin. The Commission considers that the dumping margin is not confidential information, but rather an aggregate figure derived from confidential data.

You will be provided with an opportunity to comment on the accuracy and confidentiality of the verification report prior to its publication on the public record.

The Commission may elect to undertake an alternative verification methodology than an on-site verification to satisfy itself of the completeness, relevance and accuracy of the data.

For information on the Commission's verification procedures, refer to Anti-Dumping Notice No. 2016/30 available on the Commission's website.

Important instructions for preparing your response

- All questions in this exporter questionnaire must be completed. If a question is not applicable to your situation, please answer the question with "Not Applicable" and provide an explanation as to why.
- All questions must be answered in English. An English translation must be provided for documents not originally in English.
- Clearly identify all units of measurement (e.g. KG) and currencies (e.g. AUD) used. Apply the same measurement consistently throughout your response to the questionnaire.
- Label all attachments to your response according to the section of the questionnaire it relates to (e.g. label the chart of accounts as Attachment A-5.6)
- The data must be created as spreadsheet files in Microsoft Excel.
- If you have used formulas to complete spreadsheets, these formulas must be retained and not hard-coded.

FOR PUBLIC RECORD

- You must retain all worksheets used in answering the questionnaire. Be prepared to provide these worksheets during the Commission's verification of your data.
- If you cannot present electronic data in the requested format contact the case officer as soon as possible.
- Where possible, electronic data should be emailed or shared with the Commission via SIGBOX, a secure online document repository. Please contact the case manager to request access to SIGBOX if required.

GOODS UNDER CONSIDERATION / GOODS SUBJECT TO ANTI-DUMPING MEASURES

The goods under consideration (the goods) i.e. the goods exported to Australia, allegedly at dumped prices, are:

Liquid dielectric power transformers with power ratings of equal to or greater than 10 MVA (mega volt amperes) and a voltage rating of less than 500kV (kilo volts) whether assembled or unassembled, complete or incomplete.

Incomplete transformers are sub-assemblies consisting of the active part and any other parts attached to, imported with or invoiced with the active parts of power transformers. The active part of a power transformer consists of one or more of the following when attached to or otherwise assembled with one another:

- the steel core;
- the windings;
- electrical insulation between the windings; and
- the mechanical frame.

The product definition includes step-up transformers, step-down transformers, autotransformers, interconnection transformers, voltage regulator transformers, rectifier transformers, traction transformers, trackside transformers and power rectifier transformers.

Distribution transformers are not the subject to the measures.

SECTION A COMPANY INFORMATION

A-1 Company representative and location

1. Please nominate a contact person within your company:

SECTION B

EXPORT SALES TO AUSTRALIA

B-1 Australian export sales process

1. Provide details (and diagrams if appropriate) of the export sales process of your company and any entities (e.g. agents) including:
 - (a) Marketing and advertising activities
 - (b) Price determination and/or negotiation process
 - (c) Order placement process
 - (d) Order fulfilment process and lead time
 - (e) Delivery terms and process
 - (f) Invoicing process
 - (g) Payment terms and process

Typically the Australian end-user will issue tender documents. [CONFIDENTIAL TEXT DELETED – sales processes]. On the basis of the project requirements and technical specifications ABB CQ will review factors [CONFIDENTIAL TEXT DELETED – factors that are reviewed] to prepare the tender documents. ABB CQ will then provide information [CONFIDENTIAL TEXT DELETED – sales processes] then submit the tender bidding documents to the Australian end user.

If the tender is won, ABB CQ will begin with production and then export the goods [CONFIDENTIAL TEXT DELETED – customer information].

2. In what currency do you invoice your Australian customers? If it is not in your local currency:
 - (a) Do your customers pay you into a foreign currency denominated account? If yes, provide details;
 - (b) Do you use forward contracts to lock in the foreign exchange rate relating to the export sales? If yes, provide details;
 - (c) How is the exchange rate determined and how often is it updated in your accounting system?

ABB CQ invoices Australian customers in [CONFIDENTIAL TEXT DELETED – currency information].

For the project exported to Australia [CONFIDENTIAL TEXT DELETED – timeframe], ABB CQ invoiced the customer in [CONFIDENTIAL TEXT DELETED - currency] and received payments in AUD [CONFIDENTIAL TEXT DELETED – currency].

FOR PUBLIC RECORD

[CONFIDENTIAL TEXT DELETED – information about determination of exchange rate]

3. Are there any Australian customers related to your company? If yes, please provide a list of each related customer and provide details on how the selling price is set.

[CONFIDENTIAL TEXT DELETED – customer information].

Please refer to the replies above concerning export process, i.e., tendering documents. As explained, ABB CQ provided its quotation to its customer taking into account [CONFIDENTIAL TEXT DELETED – factors taken into account]. ABB CQ understands [CONFIDENTIAL TEXT DELETED – customer information].

4. If sales are in accordance with price lists or price extras list, provide copies of these lists.

Not applicable. There are no price lists or price extras list.

5. Do your export selling prices vary according to the distribution channel identified? If yes, provide details. Real differences in trade levels are characterised by consistent and distinct differences in functions and prices.

[CONFIDENTIAL TEXT DELETED – comment about distribution channels]

6. Did you provide on-invoice discounts and/or off-invoice rebates to any Australian customer or an associate of the customer in relation to the sale of the goods during the period? If yes, provide a description and explain the terms and conditions that must be met by the customer to obtain the discount.

[CONFIDENTIAL TEXT DELETED – comment about provision on-invoice discounts and/or off-invoice rebates]

7. Did you issue any credit or debit notes (directly or indirectly) to the customer or associate of the customer in relation to the sale of the goods during the period? If yes, provide details of the credit/debit notes including the reasons the credit/debit notes were issued.

[CONFIDENTIAL TEXT DELETED – comment about issuance of credit notes]

[CONFIDENTIAL TEXT DELETED – comment about issuance of debit notes]

8. The invoice date will normally be taken to be the date of sale. If you are making a claim that a different date should be taken as the date of sale:

(a) What date are you claiming as the date of sale?

(b) Why does this date best reflect the material terms of sale?

According to ABB CQ's normal business practice, power transformer projects are recognised as a completed sale based on the "sales revenue confirmation" date. For

FOR PUBLIC RECORD

Australian sales, the sales revenue confirmation date is typically closely aligned with the delivery of the product based on the relevant sales terms.

For currency conversion purpose, as identified above, [CONFIDENTIAL TEXT DELETED – information about exchange rate determination].

B-2 Australian sales listing

1. Complete the worksheet named “B-2 Australian sales”
 - This worksheet lists all export sales (i.e. transaction by transaction) to Australia of the goods invoiced within the period (1 January 2016 to 31 December 2016).
 - Where a contract has been won during the investigation period but the goods are not yet shipped, provide details of these goods with any expenses incurred to date and the scheduled delivery date specified in the contract.
 - If you have claimed in B-1.8 that the date of sale is one other than the invoice date, then add the sales within your claimed date of sale.
 - You must provide this list in electronic format using the template provided.
 - If you have used formulas to complete this worksheet, these formulas must be retained.
 - If there are any direct selling expenses incurred in respect of the exports to Australia not listed in the spreadsheet, add a column. For example, if the delivery terms make you responsible for arrival of the goods at an agreed point within Australia (e.g. delivered duty paid), insert additional columns in the spreadsheet for all other costs incurred.

Please see Attachment B-2 Australian sales, listing all goods exported to Australia during the POI, as well as all contracts won during the POI but not yet shipped. [CONFIDENTIAL ATTACHMENT]

2. Provide a table listing the source of the data for each column in the export sales listing (B-2.1).

Please see Attachment B-2.2 for the source of data for each column in the export sales listing. [CONFIDENTIAL ATTACHMENT]

B-3 Sample export documents

1. Select the two largest invoices by value and provide the following documentation:
 - Contracts
 - Purchase order and order confirmation
 - Commercial invoice and packing list
 - Proof of payment and accounts receivable ledger

FOR PUBLIC RECORD

- Documents showing bank charges
- Invoices for inland transport
- Invoices for port handling and other export charges
- Bill of lading
- Invoices for ocean freight & marine insurance (if applicable)
- Country of origin certificates (if applicable)

If the documents are not in English, please provide a translation of the documents.

As shown in the Australian sales spreadsheet, [CONFIDENTIAL TEXT DELETED – information about number of exports to Australia]. [CONFIDENTIAL TEXT DELETED – project information]. We provide the relevant and available documents for [CONFIDENTIAL TEXT DELETED – quantity information] projects at Attachment B-3.1.

2. For each document, please annotate the documents or provide a table reconciling the details in the export listing (in B-2) to the source documents (in B-3.1).

Please see the annotations provided in Attachment B-3.1. [CONFIDENTIAL ATTACHMENT]

B-4 Reconciliation of sales to financial accounts

1. Please complete the worksheet named “B-4 Upwards sales” to demonstrate that the sales listing in B-2, D-2 and F-2 are complete.
 - You must provide this list in electronic format using the template provided.
 - Please use the currency that your accounts are kept in.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment B-4 Upwards sales. [CONFIDENTIAL ATTACHMENT]

2. Please provide all documents (e.g. general ledgers, trial balances), other than those in A-5, B-2 and D-2, required to complete the “Upwards sales” worksheet. If the documents include spreadsheets, all formulas used must be retained.

The data reported in Attachment B-4 is based on the Income Statement, which is in the financial reports provided at Attachment A-4.1. [CONFIDENTIAL ATTACHMENT]

3. For any amount in the “Upwards sales” worksheet that is hard coded (i.e. not a formula), please cross-reference by providing:

FOR PUBLIC RECORD

- the name of the source document, including the relevant page number, in column F of the worksheet; and
- highlight or annotate the amount shown in the source document.

Not applicable. All amounts in the “Upwards sales” worksheet were extracted from the SAP system.

B-5 Reconciliation of direct selling expenses to financial accounts

1. Please complete the worksheet named “B-5 Upwards selling expense” to demonstrate that the direct selling expenses (e.g. Inland transport) in B-2 and D-2 are complete.
 - You must provide this list in electronic format using the template provided.
 - Please use the currency that your accounts are kept in.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment B-5 Upwards selling expense. [CONFIDENTIAL ATTACHMENT]

2. Please provide all documents (e.g. general ledgers, trial balances), other than those in A-5, B-2 and D-2, required to complete the “Upwards SG&A” worksheet. If the documents include spreadsheets, all formulas used must be retained.

The data reported in Attachment B-5 is based on the Income statement, which is in the financial reports provided at Attachment A-4.1. [CONFIDENTIAL ATTACHMENT]

3. For any amount in the “Upwards sales” worksheet that is hard coded (i.e. not a formula), please cross-reference by providing:
 - the name of the source document, including the relevant page number, in column F of the worksheet; and
 - highlight or annotate the amount shown in the source document.

All amounts reported in the “Upwards sales” worksheet are extracted from the SAP system.

SECTION C EXPORTED GOODS & LIKE GOODS

C-1 Models exported to Australia

1. Fully describe all of the goods your company exported to Australia during the period. Include specification details and any technical and illustrative material that may be helpful in identifying, or classifying, the goods exported to Australia.

Power transformers sold by ABB CQ to each project domestically or to export markets are unique products with their own design. As the Commission is aware, this is due to the nature of power transformers, being a highly customised electric engineering product. Each is designed and produced to suit the specific requirements and usages of each project.

It is not possible to provide a simple summary that identifies all relevant technical specifications involved for each power transformer. Accordingly, ABB CQ identifies the power transformers it sold to Australia using the contract number and the relevant MVA/kV ratings as a simplified way of product identification.

The power transformers exported to Australia by ABB CQ during the POI were follows:

[CONFIDENTIAL TEXT DELETED – product details]

2. List each unique unit of goods exported to Australia (these types should cover all types listed in spreadsheet “B-2 Australian sales” – see section B of this questionnaire).

Please see explanation above at C-1.1.

C-2 Models sold in the domestic market

1. Fully describe all like goods your company sold on the domestic market during the period. Include specification details and any technical and illustrative material that may be helpful in identifying, or classifying, the like goods sold on the domestic market.

As explained above, due to the special nature of power transformers, each of the power transformer sold to projects by ABB CQ during the POI were unique products. Therefore, ABB CQ did not have any domestic sales of power transformers which were “like goods” to the ones it exported to Australia during the POI.

As is the case for the Australian sale, ABB CQ uses the contract number and the MVA/kV ratings to identify each type of power transformers it sold on the domestic market during the POI. These were:

[CONFIDENTIAL TEXT DELETED – product details]

2. List each unique unit of power transformer sold on the domestic market during the investigation period.

FOR PUBLIC RECORD

DOMESTIC TYPE	Mega volt amperes (MVA)	Kilo volts (kV)
Product code of each unique unit of the goods sold domestically		

Please see above at C-2.1.

3. Please provide any technical and illustrative material that may be helpful in identifying or classifying the goods that your company sells on the domestic market.

Please see Attachment A-2.11 for ABB CQ's product brochure. [CONFIDENTIAL ATTACHMENT]

SECTION D DOMESTIC SALES

D-1 Domestic sales process

1. Provide details (and diagrams if appropriate) of the domestic sales process of your company and any other related entities including:
 - (a) Marketing and advertising activities
 - (b) Price determination and/or negotiation process
 - (c) Order placement process
 - (d) Order fulfilment process and lead time
 - (e) Delivery terms and process
 - (f) Invoicing process
 - (g) Payment terms and process

Generally, there were two types of domestic sales during the POI.

1 The first type of domestic sales involves a sales by ABB CQ to the customers [CONFIDENTIAL TEXT DELETED – information about sales process]

2 The second type of domestic sales involves ABB CQ selling the power transformers [CONFIDENTIAL TEXT DELETED – information about sales process].

The domestic sales process would be as follows for situation one:

[CONFIDENTIAL DIAGRAM DELETED – illustration of sales process]

The domestic sales process would be as follows for situation two:

[CONFIDENTIAL DIAGRAM DELETED – illustration of sales process]

2. Are any domestic customers related to your company? If yes, please provide a list of each related customer and provide details on how the selling price is set.

[CONFIDENTIAL TEXT DELETED – customer information]

3. If sales are in accordance with price lists or price extras list, provide copies of these lists.

Not applicable. There are no price lists or price extras list.

FOR PUBLIC RECORD

4. Do your domestic selling prices vary according to the distribution channel identified? If yes, provide details. Real differences in trade levels are characterised by consistent and distinct differences in functions and prices.

Not applicable, domestic selling prices are not determined by trade level.

5. Did you provide on-invoice discounts and/or off-invoice rebates to the customer or an associate of the customer in relation to the sale of the like goods during the period? If yes, provide a description; and explain the terms and conditions that must be met by the importer to obtain the discount.

[CONFIDENTIAL TEXT DELETED – information about provision of on-invoice discounts and/or off-invoice discounts]

6. Did you issue any credit or debit notes (directly or indirectly) to the customer or associate of the customer in relation to the sale of the like goods during the period? If yes, provide details of the credit/debit notes including the reasons the credit/debit notes were issued.

[CONFIDENTIAL TEXT DELETED – information about credit notes]

[CONFIDENTIAL TEXT DELETED – information about debit notes]

7. The invoice date will normally be taken to be the date of sale. If you are making a claim that a different date should be taken as the date of sale:

(a) What date are you claiming as the date of sale?

(b) Why does this date best reflects the material terms of sale?

We note the Commission’s view in Investigation 219 that the contract date is taken as the date of sales in relation to the sales of power transformers.

D-2 Domestic sales listing

1. Complete the worksheet named “D-2 Domestic sales”
- This worksheet lists all domestic sales (i.e. transaction by transaction) of like goods invoiced within the period, even if they are models not exported to Australia
 - If you have claimed in D-1.7 that the date of sale is one other than the invoice date, then add the sales within your claimed date of sale.
 - You must provide this list in electronic format using the template provided.
 - If you have used formulas to complete this worksheet, these formulas must be retained.
 - If there are any other costs, charges or expenses incurred in respect of the sales listed which have not been identified in the table in question D-2 above, add a column for each item. For example, certain other selling expenses incurred.

FOR PUBLIC RECORD

Please see Attachment D-2 Domestic sales. [CONFIDENTIAL ATTACHMENT]

2. Provide a table listing the source of the data for each column in the domestic sales listing (D-2.1).

Please see Attachment D-2.2 for the source of data for each column in the domestic sales listing. [CONFIDENTIAL ATTACHMENT]

D-3 Sample domestic sales documents

1. Select the two largest invoices by value and provide the following documentation:
 - Contracts
 - Purchase order and order confirmation
 - Commercial invoice and packing list
 - Proof of payment and accounts receivable ledger
 - Documents showing bank charges
 - Delivery invoices

If the documents are not in English, please provide a translation of the documents.

Please see Attachment D-3 for the sample domestic sales documents. [CONFIDENTIAL ATTACHMENT]

2. For each document, please annotate the documents or provide a table reconciling the details in the domestic sales listing (in D-2) to the source documents (in D-3.1).

Please see Attachment D-3 with annotations. [CONFIDENTIAL ATTACHMENT]

D-4 Reconciliation of sales to financial accounts

This section is not required if you have completed B-4.

1. Please complete the worksheet named "B-4 Upwards sales" to demonstrate that the sales listing in D-2 is complete.
 - You must provide this list in electronic format using the template provided.
 - Please use the currency that your accounts are kept in.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

FOR PUBLIC RECORD

2. Please provide all documents (e.g. general ledgers, trial balances), other than those in A-5 and D-2, required to complete the “Upwards sales” worksheet. If the documents include spreadsheets, all formulas used must be retained.
3. For any amount in the “Upwards sales” worksheet that is hard coded (i.e. not a formula), please cross-reference by providing:
 - the name of the source document, including the relevant page number, in column F of the worksheet; and
 - highlight or annotate the amount shown in the source document.

Not applicable, as ABB CQ has completed B-4.

SECTION E DUE ALLOWANCE

E-1 Credit expense

1. Do you provide credit to any domestic customers in relation to sales of like goods (i.e. payment terms that are not on a cash or pre-payment basis)? If yes:
 - (a) Do you provide a rolling credit facility to your domestic customers (i.e. no specific payment terms agreed at the time of sale)? If yes:
 - i. Calculate the accounts receivable turnover for each domestic customer (credit sales divided by the average accounts receivable).
 - ii. Calculate the average credit term for each domestic customer by dividing 365 by the accounts receivable turnover
 - (b) Do you have short term borrowings or an overdraft facility? If yes, what is the interest rate, or average of interest rates?
 - (c) Do you have term deposits or other cash product (e.g. bonds)? If yes, what is the interest rate, or average of interest rates?

Please refer to Attachment D-2, and the “credit cost worksheet” included therein for details of the payment terms applicable under each contract of the domestic sales, and the calculation of credit costs. [CONFIDENTIAL ATTACHMENT]

For the short term borrowing rate used for the calculation, please refer to Attachment E-1.1. [CONFIDENTIAL ATTACHMENT]

Please refer to the sample domestic sales documents for further examples.

2. Do you provide credit to any Australian customers in relation to sales of the goods (i.e. payment terms that are not on a cash or pre-payment basis)? If yes:
 - (a) Do you provide a rolling credit facility to your Australian customers (i.e. no specific payment terms agreed at the time of sale)? If yes:
 - i. Calculate the accounts receivable turnover for each domestic customer (credit sales divided by the average accounts receivable).
 - ii. Calculate the average credit term for each domestic customer by dividing 365 by the accounts receivable turnover
 - (b) If your Australian customers pay you into a foreign currency denominated account (question B-1.2(a) refers):
 - i. Do you have short term borrowings or an overdraft facility denominated in the same foreign currency? If yes, what is the interest rate, or average of interest rates?

FOR PUBLIC RECORD

- ii. What is the interest rate, or average of interest rates, applying to term deposits or other cash product (e.g. bonds) denominated in the same foreign currency? If yes, what is the interest rate, or average of interest rates?

Please refer to Attachment B-2, and the “credit cost worksheet” included therein for details of the payment terms applicable under each contract of the domestic sales, and the calculation of credit costs. [CONFIDENTIAL ATTACHMENT]

For further information please see the “terms of payment” as identified in the purchase order document for the Australian sales.

E-2 Packaging

1. What is the packaging used for your domestic sales of like goods?

The packing used for domestic sales of like goods includes the wooden casing used to protect the switch taps and other accessories of the transformer.

2. What is the packaging used for your export sales of the goods to Australia?

The packing method for export and domestic sales is essentially the same.
The only difference is that rope is required to fix in place the wooden cases within the container for the Australian sales. This is not required for domestic sales because containers are not used for domestic transportation.

3. If there are distinct differences in packaging between your domestic and export sales:

- (a) Provide details of the differences
- (b) Calculate the weighted average packaging cost for each model sold on the domestic market
- (c) Calculate the weighted average packaging cost for each model exported to Australia

Not applicable. There are no distinct differences in packaging between domestic and export sales.

E-3 Delivery

1. Are any domestic sales of like goods delivered to the customer? If yes, how were the transportation costs calculated in the domestic sales listing in D-2?

Yes, ABB CQ [CONFIDENTIAL TEXT DELETED – calculation of transportation costs]. The transportation cost is recognized as sales expense.

2. What are the delivery terms of the export sales of the goods to Australia?

FOR PUBLIC RECORD

The delivery term of export sales of the goods to Australia was [CONFIDENTIAL TEXT DELETED – delivery term].

3. If the delivery terms of the Australian sales includes delivery to the port, how were the inland transport and port charges calculated in the Australian sales listing in B-2?

Yes, ABB CQ [CONFIDENTIAL TEXT DELETED – calculation of transportation and port costs]. The transportation cost and the port charges are recognized as sales expense.

4. If the delivery terms of the Australian sales includes ocean freight, how was the ocean freight cost calculated in the Australian sales listing in B-2?

[CONFIDENTIAL TEXT DELETED – comment about ocean freight]

5. If the delivery terms of the Australian sales includes marine insurance, how was the marine insurance calculated in the Australian sales listing in B-2?

[CONFIDENTIAL TEXT DELETED – comment about marine insurance]

6. If the delivery terms of the Australian sales includes delivered duty paid, how were the Australian importation and delivery costs calculated in the Australian sales listing in B-2?

[CONFIDENTIAL TEXT DELETED – information about delivery term]

E-4 Other direct selling expenses

1. Do you provide sales commissions for domestic sales of like goods and/or export sales of the goods? If yes, provide details.

[CONFIDENTIAL TEXT DELETED – comment about payment of commission]

2. Are there any differences in tax liability between domestic and export sales? If yes, provide details, for example:

- What is the rate of value-added tax (VAT) on sales of the goods and like goods?
- How is VAT accounted for in your records in relation to sales of the goods and like goods?
- Do you receive a VAT refund in relation to sales of the goods and/or like goods?
- Do you receive a remission or drawback of import duties on inputs consumed in the productions of the goods or like goods?

Not applicable, in that ABB CQ's exportation to the goods during the POI enjoys full VAT refund.

FOR PUBLIC RECORD

3. Are there any other direct selling expenses incurred by your company in relation to domestic sales of like goods?
- These direct selling expenses must be included in the reconciliation of direct selling expenses in B-5

All direct selling expense have been reported.

4. Are there any other direct selling expenses incurred by your company in relation to export sales of the goods to Australia?
- These direct selling expenses must be included in the reconciliation of direct selling expenses in B-5

All direct selling expense have been reported.

E-5 Other adjustment claims

1. Are there any other adjustments required to ensure a fair comparison between the export price and the normal value (based on domestic sales, costs and/or third country sales)? If yes, provide details.
- An adjustment will only be made where there is evidence that the difference affects price comparability.
 - Refer to Chapter 14 of the Dumping and Subsidy Manual for more information.

ABB CQ has not identified other adjustments at this stage.

SECTION F THIRD COUNTRY SALES

F-1 Third country sales process

1. Are your sales processes to any third country (i.e. exports to countries other than Australia) different to the sales process described in B-1.1? If yes, provide details of the differences.

Typically there is no difference in the sales processes to third countries.

[CONFIDENTIAL TEXT DELETED - Comment about third country sale process]

2. Are there any third country customers related to your company? If yes, please provide a list of each related customer and provide details on how the selling price is set.

[CONFIDENTIAL TEXT DELETED – customer information]

3. The invoice date will normally be taken to be the date of sale. If you are making a claim that a different date should be taken as the date of sale:

- (a) What date are you claiming as the date of sale?
- (b) Why does this date best reflects the material terms of sale?

For the purpose of reporting the “period” of the sales, and for easier reconciliation, ABB CQ reports the sales period of the third country sales based on the sales revenue confirmation date. This is typically closely aligned with the delivery of the product based on the relevant sales terms.

F-2 Third country sales listing

1. Complete the worksheet named “F-2 Third country sales”
 - This worksheet lists all export sales, summarised by country and customer, to third countries of like goods invoiced within the period.
 - If you have claimed in F-1.3 that the date of sale is one other than the invoice date, then add sales with your claimed date of sale.
 - You must provide this list in electronic format using the template provided.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment F-2 Third country sales. [CONFIDENTIAL ATTACHMENT]

2. Provide a table listing the source of the data for each column in the export sales listing (F-2.1).

Please see Attachment F-2.2 for the source of data for each column in the export sales listing. [CONFIDENTIAL ATTACHMENT]

F-3 Differences in sales to third countries

1. Are there any differences in sales to third countries which may affect their comparison to export sales to Australia? If yes, provide details.

As advised in Section C, each power transformer project has a unique design with highly customised engineering specifications. Accordingly, ABB CQ's third countries are not suitable to be compared to the goods it exported to Australia during the POI.

SECTION G COST TO MAKE AND SELL

G-1. Production process

1. Describe the production process for the goods and provide a flowchart of the process. Include details of all products manufactured using the same production facilities as those used for the goods. Also specify all scrap or by-products that result from producing the goods.

Please see Attachment G-1.1 for the flowchart of the production process. [CONFIDENTIAL ATTACHMENT] The flowchart includes the major equipment used in each stage of production, the main raw materials and the scrap that are resulted from production.

2. Are any of your suppliers related to your company (regardless of whether it is relevant to the manufacture of the goods)? If yes, please provide details including the product or services supplied by the related company.

[CONFIDENTIAL TEXT DELETED – comment about related suppliers]

G-2. Cost accounting practices

1. Is your company's cost accounting system based on actual or standard costs (budgeted)?

ABB CQ's cost accounting system is based on [CONFIDENTIAL TEXT DELETED – cost accounting practices].

2. If you company uses standard costs:
 - (a) Were standard costs used as the basis of actual costs in your responses G-3.1 & G-5.1?
 - (b) Have all variances (i.e. differences between standard and actual production costs) been allocated to the goods?
 - (c) How were those variances allocated?
 - (d) Provide details of any significant or unusual cost variances that occurred during the period.

[CONFIDENTIAL TEXT DELETED – cost accounting practices]

3. Do you have different cost centres in your company's cost accounting system? If yes, list the cost centres, provide a description of each cost centre and the allocation methodology used in your accounting system.

FOR PUBLIC RECORD

[CONFIDENTIAL TEXT DELETED – comment about cost centres]

4. To what level of product specificity (models, grades etc.) does your company's cost accounting system normally record production costs?

The production costs are recorded [CONFIDENTIAL TEXT DELETED – cost accounting practices].

5. Are there any costs for management accounting purposes valued differently to financial accounting purposes? If yes, provide details of the differences.

[CONFIDENTIAL TEXT DELETED – cost accounting practices]

6. Has your company engaged in any start-up operations in relation to the goods? If yes:

- (a) Describe in detail the start-up operation giving dates (actual or projected) of each stage of the start-up operation.
- (b) State the total cost of the start-up operation and the way that your company has treated the costs of the start-up operation in its accounting records.

[CONFIDENTIAL TEXT DELETED – comment about start-up operations]

7. What is the method of valuation for raw material, work-in-process, and finished goods inventories (e.g. last in first out –LIFO, first in first out- FIFO, weighted average)?

Inventories of work-in-process and finished goods are initially measured at [CONFIDENTIAL TEXT DELETED – cost accounting practices]. The cost of inventories comprises [CONFIDENTIAL TEXT DELETED – cost accounting practices]. The cost of inventories of raw materials is determined on the [CONFIDENTIAL TEXT DELETED – cost accounting practices]. Low-value consumables and packaging materials on cyclic use [CONFIDENTIAL TEXT DELETED – cost accounting practices].

8. What are the valuation methods for damaged or sub-standard goods generated at the various stages of production?

Not applicable. The valuation methods for damaged or sub-standard goods are not used for complete equipment such as power transformers.

9. What are the valuation methods for scrap, by products, or joint products?

[CONFIDENTIAL TEXT DELETED – comment about scrap products]

10. Are any management fees/corporate allocations charged to your company by your parent or related company? If yes, provide details

[CONFIDENTIAL TEXT DELETED – comment about management fees/corporate allocations]

G-3 Cost to make and sell on domestic market

1. Complete the worksheet named "G-3 Domestic CTMS".
 - Please provide the actual cost to make and sell each model/type (as identified in section C) of the like goods sold on the domestic market. Provide this cost data for each unique unit of the goods invoiced during the investigation period.
 - Indicate the source of cost information (account numbers etc) and/or methods used to allocate cost to the goods. Provide documentation and worksheets supporting your calculations.
 - If any imputation tax (e.g. value-added tax) is payable on the purchase of goods or services to manufacture like goods, report the costs excluding the imputation tax. All other taxes payable (e.g. import duty) must be included as 'other costs' if not already included, for example, under material costs.
 - You must provide this list in electronic format using the template provided.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment G-3 Domestic CTMS. [CONFIDENTIAL ATTACHMENT]

2. Provide a table listing the source of the data for each column of the "Domestic CTMS" listing (G-3.1).

Please see Attachment G-3.2 for the source of data for each column of the "Domestic CTMS" listing. [CONFIDENTIAL ATTACHMENT]

G-4 Selling, General & Administration expenses

1. Complete the worksheet named "G-4.1 SG&A listing".
 - This worksheet lists all selling, general and administration expenses by account code for the most recent accounting period and the period.
 - You must provide this list in electronic format using the template provided.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment G-4.1 SG&A listing. [CONFIDENTIAL ATTACHMENT]

2. Complete the worksheet named "G-4.2 Domestic SG&A calculation".
 - This worksheet calculates SG&A as a percentage of revenue.

FOR PUBLIC RECORD

- You must provide this list in electronic format using the template provided.
- Please use the formulas provided.

Please see Attachment G-4.2 Domestic SG&A calculation. [CONFIDENTIAL ATTACHMENT]

G-5 Cost to make and sell the goods exported to Australia

1. Complete the worksheet named "Australian CTMS".
 - Please provide the actual cost to make and sell each model/type (as identified in section C) exported to Australia.
 - Provide this information for all goods invoiced during the investigation period and for all goods the subject of a contract that was entered into during the investigation period, but invoiced or delivered outside of the investigation period. Where actual costs are not yet incurred, provide an estimate of these costs, such as for example, the estimate of the costs that formed the basis of your winning tender bid.
 - Provide this information for each unique unit of the goods contracted for sale or invoiced during the period of the investigation. For example, if one contract specifies production of two different types of the goods, provide this information for each type of the goods.
 - If any imputation tax (e.g. value-added tax) is payable on the purchase of goods or services to manufacture the goods, report the costs excluding the imputation tax. All other taxes payable (e.g. import duty) must be included as 'other costs' if not already included, for example, under material costs.
 - You must provide this list in electronic format using the template provided.
 - If you have used formulas to complete this worksheet, these formulas must be retained.
 - If you have claimed in B-1.8 that the date of sale is one other than the invoice date, then provide the cost for the duration that all Australian sales are made within your claimed date of sale, even if doing so means that such cost data predates the commencement of the period.

Please see Attachment G-5 Australian CTMS. [CONFIDENTIAL ATTACHMENT]

2. Provide a table listing the source of the data for each column of the "Australian CTMS" listing (G-5.1).

Please see Attachment G-5.2 for the source of data for each column of the "Australian CTMS" listing. [CONFIDENTIAL ATTACHMENT]

G-6 Cost allocation methodology

1. What is the allocation methodology used to complete in G-3 Domestic CTMS and G-5 Australian CTMs for:

FOR PUBLIC RECORD

- (a) Raw materials
- (b) Labour
- (c) Manufacturing overheads

a) Raw materials [CONFIDENTIAL TEXT DELETED – cost allocation methodology].

b) Labour cost is calculated by [CONFIDENTIAL TEXT DELETED – cost allocation methodology].

c) For manufacturing overheads, ABB CQ [CONFIDENTIAL TEXT DELETED – cost allocation methodology].

2. Select the domestic model (export model if you have no domestic production of like goods) with the largest production cost over the period and provide worksheets demonstrating the allocation methodology described in G-6.1 from your normal cost accounting system to the cost for that model reported in G-3.1.

Please see Attachment G-6.2 for the worksheets demonstrating the allocation methodology described in G-6.1. [CONFIDENTIAL ATTACHMENT]

G-7 Major raw material costs

1. What the major raw materials used in the manufacture of the goods? List the raw materials (or components) and suppliers in the worksheet named G-7.1.

Please see Attachment G-7.1. [CONFIDENTIAL ATTACHMENT]

2. Are any raw materials sourced as part of an integrated production process or from a subsidiary company which your company exercise control? If yes, provide details of these in worksheet G-7.2.

Not applicable.

3. Using the domestic cost data in G-3, calculate the weighted average percentage of each raw material cost (listed in G-7.1) as a proportion of total cost to make.

Please see Attachment G-7.3 for the calculation of the weighted average percentage of each raw material cost as a proportion of total cost to make. [CONFIDENTIAL ATTACHMENT]

4. For each raw material identified in G-7.1 which individually account for 10% or more of the total cost to make, complete the worksheet named “G-7.4 Raw material purchases”.
- This worksheet lists all raw material purchases (i.e. transaction by transaction) purchased by your company within the period.
 - You must provide this list in electronic format using the template provided.

FOR PUBLIC RECORD

- If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment G-7.4 Raw material purchases. [CONFIDENTIAL ATTACHMENT]

5. Provide a table listing the source of the data for each column of the “Raw material purchases” listing (G-7.4).

Please see Attachment G-7.5 for the source of data for each column of the “Raw materials purchases” listing. [CONFIDENTIAL ATTACHMENT]

6. For each raw material:
- (a) Select the two largest invoices by value and provide the commercial invoice and proof of payment.
 - (b) Reconcile the total value listed of the purchases in G-7.4 to relevant purchase ledgers or trial balances in your accounting system. Provide copies of all documents used to demonstrate the reconciliation.

Please see Attachment G-7.6 for the commercial invoices and proof of payment of the two largest invoices by value of each raw material, as well as copies of documentation used to demonstrate the reconciliation. [CONFIDENTIAL ATTACHMENT]

7. Are any of the suppliers listed in G-7.4 related to your company? If yes, please provide details on how the price is set.

No, there are no suppliers listed in G-7.4 related to ABB CQ.

G-8 Reconciliation of cost to make to audited financial statements

1. Please complete the worksheet named “Upwards costs”.
- You must provide this list in electronic format using the template provided.
 - Please use the currency that your accounts are kept in.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment G-8 Upwards costs. [CONFIDENTIAL ATTACHMENT]

2. Please provide any documents, other than those in A-5, G-3 and G-5, required to complete the “Upwards costs” worksheet.

The data reported in Attachment G-8 is based on the Income statement, which is in the financial reports provided at Attachment A-4.1. [CONFIDENTIAL ATTACHMENT]

3. For any amount that is hard coded (i.e. not a formula), please cross-reference by providing:

FOR PUBLIC RECORD

- the name of the source document, including the relevant page number, in column F of the worksheet; and
- highlight or annotate the amount shown in the source document.

Not applicable. All amounts in the “Upwards costs” worksheet were extracted from the SAP system.

G-9 Capacity Utilisation

1. Please complete the worksheet named “Capacity Utilisation”.
 - You must provide this list in electronic format using the template provided.
 - If you have used formulas to complete this worksheet, these formulas must be retained.

Please see Attachment G-9 Capacity utilisation. [CONFIDENTIAL ATTACHMENT]

EXPORTER'S DECLARATION

I hereby declare that ABB Chongqing Transformer Co., Ltd. (company) have completed the attached questionnaire and, having made due inquiry, certify that the information contained in this submission is complete and correct to the best of my knowledge and belief.

APPENDIX

GLOSSARY OF TERMS

This glossary is intended to provide you with a basic understanding of technical terms that appear in the questionnaire.

Adjustments

To enable a fair comparison between the export price and the normal value Australian legislation provides for the adjustment of the domestic price paid for like goods. Adjustments are made to account for sales occurring at different times, specification differences, and differences in the terms or circumstances of the sales. The adjustment to the normal value may be upward or downward. Areas where you believe an adjustment is necessary should be identified. Section E of the questionnaire refers.

Examples of adjustments that may be made include: *sales occurring at different times*

(it is sometimes necessary to compare domestic and export sales made at different times - in these circumstances an adjustment may be made to reflect price movements during that time); *specification differences; packaging; taxes; level of trade; advertising; servicing/warranty; inland freight; warehousing; export charges; credit terms; duty drawback; commissions.*

Adjustments may also be required where the normal value is based on costs to make and sell.

Arms length

Sales are not considered to be at "arms length" on your domestic market if there is any consideration payable for the goods other than their price, or there is an association between the buyer and the seller which affects the price, or there will be a reimbursement, compensation or benefit for, or in respect of, the price.

Constructed value

In cases where prices paid for like goods sold in the country of export cannot be used for the determination of normal value, i.e. when there are no or insufficient sales or where such sales were not made in the ordinary course of trade, normal value may be based on a constructed value. Constructed value is calculated on the basis of the cost of production of the goods under consideration plus a reasonable amount for selling, general and administration costs, and for profits, that are associated with sales on the domestic market of the country of export.

Cost of production/manufacturing

The cost of production or manufacture consists of all manufacturing costs associated with the goods. It is the sum of direct materials, direct labour and factory overheads.

Cost to make and sell

The cost to make and sell is the sum of the cost of production or manufacture, and the selling, general and administration costs associated with the sale of those goods.

Country of origin

The country in which the last significant process in the manufacture or production of the goods was performed.

FOR PUBLIC RECORD

Date of sale

The Commission will normally use the invoice date as recorded in the exporter or producer's records. Another date may be used if this better reflects the material terms of sale. The questionnaire directs attention to matching data sets of domestic and export sales where some other date is used, as well as matching cost information.

Direct labour cost

Direct labour is categorised as a variable cost, i.e. the value varies with the level of production.

Dumping

Dumping occurs when the products of one country are exported to another country at a price less than their normal value.

Dumping margin

Where the export price is less than the normal value the dumping margin is the amount of the difference. It can be expressed as a value or as a percentage of the export price.

Export price

The export price of the goods is usually the price paid or payable to the exporter in arms length transactions, in most instances calculated at the Free on Board (FOB) level.

Exporting country

The country of export is normally the country of origin from which the goods are shipped. The country of export may be an intermediate country, except where the products are merely transhipped through that country, or the products concerned are not produced in that country, and there is no comparable price in that country.

Factory overheads

Factory overheads consist of variable costs e.g. power, supplies, indirect labour and fixed costs e.g. factory rent, factory insurance, factory depreciation etc.

Goods under consideration (the goods)

The goods to which the application for anti-dumping action relates. That is, the goods that you have exported to Australia allegedly at dumped prices.

Incoterms

The following abbreviations are commonly used (comment is provided concerning costs that are normally borne by the seller):

EXW	ex works (the seller's minimum obligation as costs relate to goods being made available at the sellers premises)
FCA	free carrier (main carriage not paid by seller. Pay costs until such time that the goods have been delivered at the named point into custody of a carrier named by the seller. Customs formalities, taxes etc. paid if required)
FAS	free alongside ship (main carriage not paid by seller. Deliver the goods alongside the ship)

FOR PUBLIC RECORD

FOB	free on board (main carriage not paid by seller. Deliver the goods on board, provide export clearance if required, pay loading costs to the point the goods have passed the ship's rail, pay customs formalities, taxes etc. payable upon exportation)
CFR	cost and freight (main carriage paid by seller. Pay all costs until delivered as well as freight, loading and unloading, pay customs formalities, taxes etc. payable upon exportation)
CIF	cost, insurance and freight (main carriage paid by seller. Pay all costs as under CFR as well as marine insurance)
	the terms CFR and CIF are only used where goods are carried by sea or waterway transport
CPT	carriage paid to
CIP	carriage and insurance paid to
	the terms CPT and CIP are used as alternatives to CFR and CIF where the goods are carried by air, road, rail etc.
DAF	delivered at frontier (goods carried by rail or road and cleared for export at the named place at the frontier. Pay costs until delivered at the frontier plus any discharge costs incurred to place the goods at the customer's disposal)
DES	delivered ex ship (goods made available to the buyer on board the ship uncleared for import at the named port of destination. Pay all costs incurred in placed at the disposal of the buyer, pay customs formalities, taxes etc. payable upon exportation, and where necessary for transit through another country)
DDU	delivered duty unpaid (Pay all costs for carriage to the agreed point, pay customs formalities, taxes etc. payable upon exportation, and where necessary for transit through another country)
DDP	delivered duty paid (goods made available at the named place in the country of importation – all risks and costs being incurred by the seller including duties, taxes etc. incurred upon importation)

The period

A period defined by the Commission over which importations of the goods are examined.

Like goods

Like goods are goods sold on the domestic market of the country of export (or to a third country) that are identical in all respects to the goods or that, although not alike in all respects have characteristics closely resembling those of the goods. The term 'like goods' also refers to the goods produced by the Australian industry allegedly being injured by dumped imports.

Normal value

Australian legislation sets out several ways to assess "normal value".

The preferred method is to use the price paid for like goods sold for domestic consumption in the country of export. Usually, these sales are made by you, but there may be circumstances where it is appropriate to use sales made by other sellers on the domestic market.

FOR PUBLIC RECORD

Sale prices must be at arms length and in the ordinary course of trade. In the absence of relevant or suitable domestic sales, the normal value may be determined by constructing a price based on all costs to make and sell the goods, and an amount for profit. Alternatively the normal value may be ascertained using the price paid for like goods sold in the ordinary course of trade at arms length to customers in a country other than Australia, however this option is rarely used.

Finally, when a normal value cannot be ascertained by any of the above methods, or if no information is provided, the Commission will determine the normal value by considering all the relevant information, including the applicant's information. This allows the applicant's information to be used where sufficient information has not been furnished or is not available.

Where domestic price generally, and the trade of the exporting country are determined or substantially influenced by the government of the exporting country, an alternative/surrogate market economy is selected by the Commission and the normal value is determined as if the surrogate country were the export source.

Ordinary course of trade

Testing for "ordinary course of trade" includes a comparison of the selling price and the unit cost to make and sell for the same period. If sales in respect of a substantial quantity of goods over an extended period of time, usually 12 months, do not recover all costs and these losses are not likely to be recovered within a reasonable period of time, (again usually 12 months) then the sales are regarded as being not in the ordinary course of trade.

There may be circumstances where it is appropriate to use a period other than 12 months in assessing whether sales are in the ordinary course of trade.

Unprofitable sales are to be taken to have occurred in substantial quantities during an extended period where the unprofitable sales amount to 20% or more of the total volume of sales of the goods by the exporter over the period. An extended period of time is usually taken to be a period not less than 12 months. Where unprofitable sales are rejected, normal value is based upon remaining profitable sales provided they occur in sufficient number. Where all sales have been made at a loss, or profitable sales are insufficient, the normal value may be constructed from costs to make and sell.

Selling, general and administration expenses (SG&A)

The selling, general and administration expenses includes all selling, distribution, general and administration expenses including finance costs that would be incurred if the goods were sold for domestic consumption in the country of export. The amounts are determined in each case using all the available information and may include expenses incurred in:

- . domestic sales of like goods;
- . sale of goods of the same general category by the exporter; or
- . sales in the industry in the country of export.

The expenses must, however, reflect the selling, general and administration costs of the goods. Administrative and selling expenses include: director's fees, management salaries and benefits, office salaries and benefits, office supplies, insurance, promotion, entertainment, depreciation and corporate overheads.
