

ANTI-DUMPING NOTICE NO. 2021/014

Certain Aluminium Zinc Coated Steel exported to Australia from the People's Republic of China

Findings in relation to a review of anti-dumping measures

Notice under section 269ZDB(1) of the Customs Act 1901

The Commissioner of the Anti-Dumping Commission has completed a review, which commenced on 23 August 2019, of the anti-dumping measures applying to certain aluminium zinc coated steel (the goods) exported to Australia from the People's Republic of China (China).

Recommendations resulting from the review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report No. 521 and 522* (REP 521 and 522).

I, KAREN ANDREWS, the Minister for Industry, Science and Technology, have considered REP 521 and 522 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts or law, set out in REP 521 and 522.

Under section 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), I declare that, for the purposes of the Act and sections 8(5) and 10(3A) of the *Customs Tariff (Anti-Dumping) Act 1975*, with effect from the day after the publication of this notice, the dumping duty notice applying to the goods exported to Australia from China and the countervailing duty notice applying to the goods exported to Australia from China are to be taken to have effect as if different variable factors had been fixed in respect of exporters generally, relevant to the determination of duty.

For all exporters from China, and in accordance with sections 8(5BAA), 10(3D) and 10(3DA) of the Dumping Duty Act, and section 269TAC(2)(a)(ii) of the Act, I have not had regard to the desirability of specifying a lesser amount of duty, due to the situation in the market in the country of export.

The interim dumping duty and dumping duty payable that has been determined is an amount worked out in accordance with the combination of fixed and variable duty method or the floor price duty method, as indicated in the following table, for all exporters subject to the dumping duty notice. The interim countervailing duty and countervailing duty payable that has been determined is an amount worked out in accordance with the *ad valorem* duty method for all exporters subject to the countervailing duty notice. Particulars of the margins established for each exporter and the effective rates of duty are set out in the following table:

Country	Exporter	Dumping duty method	Dumping Margin	Subsidy Margin	Effective rate of duty*
China	Jiangyin Zongcheng Steel Co., Ltd.	Combination	21.6%	N/A	21.6%
	Zhejiang Huada New Materials Co., Ltd.	Floor price	0.0%	0.5%	0.5%
	All other exporters	Combination	22.5%	20.8%	33.0%

* The calculation of combined dumping and countervailing duties is not necessarily simply a matter of adding the dumping and subsidy margins together for any given exporter, or group of exporters. Rather, the collective interim dumping duty and interim countervailing duty imposed in relation to the goods, is the sum of:

- the subsidy rate calculated for all countervailable programs, and
- the dumping rates calculated.

The actual duty liability may be higher than the effective rate of duty due to a number of factors. Affected parties should contact the Anti-Dumping Commission (the Commission) through business.gov.au on 132 846 or +61 2 6213 6000, or by email to clientsupport@adcommission.gov.au for further information regarding the actual duty liability calculation in their particular circumstance.

To preserve confidentiality, details of the revised variable factors such as the ascertained export price, normal value and non-injurious price will not be published.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel (www.adreviewpanel.gov.au) in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

REP 521 and 522 has been placed on the Commission's public record. The public record may be examined at www.adcommission.gov.au. Enquiries about this notice may be directed to the case manager on telephone number +61 3 8539 2559 or by email to investigations4@adcommission.gov.au.

Dated this 17th day of March 2021.

Karen Andrews
Minister for Industry, Science and Technology
