

Customs Act 1901 – Part XVB

ANTI-DUMPING NOTICE NO. 2020/25

Certain Wind Towers

**Exported to Australia from the People's Republic of China
by Suzhou Titan New Energy Technology Co., Ltd**

Termination of Accelerated Review No. 538

Introduction

On 24 December 2019, I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, published Anti-Dumping Notice (ADN) No. 2019/150 to notify interested parties that I had commenced an accelerated review of the anti-dumping measures applying to certain wind towers exported to Australia from the People's Republic of China (China), in so far as they relate to a new exporter, Suzhou Titan New Energy Technology Co., Ltd (the applicant).

Grounds for termination

On 28 February 2020, the applicant notified the Commission in writing requesting that the application for an accelerated review be withdrawn. Following that notification, I am satisfied that the accelerated review may be terminated in accordance with section 269ZE(3)(a) of the *Customs Act 1901*. I have, therefore, terminated the review.

Effect of the termination of the accelerated review

Termination of this accelerated review means that any securities required and taken in relation to the goods exported by the applicant and entered for home consumption from 4 December 2019¹ will now be converted to interim dumping duty. The applicable rate of duty is the 'all other exporters' rate of interim dumping duty applicable to China. Further details on the goods and existing measures is available on the Dumping Commodity Register on the Anti-Dumping Commission website, www.adcommission.gov.au.

Termination of the accelerated review does not affect the applicant's right to apply for another accelerated review.

Contact

Enquiries about this notice may be directed to the Case Manager by email to investigations1@adcommission.gov.au, or telephone number +61 3 8539 2419.

Handwritten signature of Dale Seymour in black ink.
