

Customs Tariff (Anti-Dumping) Act 1975

Aluminium Extrusions (Mill Finish)

Exported to Australia from Malaysia

Notice pursuant to subsections 8(5) and 8(5B) of the *Customs Tariff (Anti-Dumping) Act 1975*

I, CHRISTIAN PORTER, Minister for Industry, Science and Technology (the Minister), having decided to issue a notice, pursuant to subsections 269TG(1) and (2) of the *Customs Act 1901* (the Act), in respect of mill finish aluminium extrusions described in that notice (the goods), DETERMINE, pursuant to subsection 8(5) of the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act), that the interim dumping duty payable on the goods is an amount worked out in accordance with the combination of fixed and variable duty method, specified in subsections 5(2) and (3) of the *Customs Tariff (Anti-Dumping) Regulation 2013*.

Pursuant to subsection 8(5B) of the Dumping Duty Act, I have had regard to the desirability of specifying a method such that the sum of:

- (i) the export price of goods of that kind as so ascertained or last ascertained; and
- (ii) the interim dumping duty payable on the goods;

does not exceed the non-injurious price of goods of that kind as ascertained, or last ascertained, for the purpose of the dumping duty notice. For the reasons set out in the *Anti-Dumping Commission Final Report No. 540*, the non-injurious price is determined to be equal to the normal value of the goods to which the section 269TG notice applies.

This notice applies to the goods and like goods entered for home consumption as per my declaration¹ under section 269TG of the Act and to which section 8 of the Dumping Duty Act applies.

Dated this 31st day of May 2021

CHRISTIAN PORTER
Minister for Industry, Science and Technology

¹ Anti-Dumping Notice No. 2021/033 refers.
