Dear Mr Seymour

Application for anti-dumping - Aluminium extrusions exported from China

Extrusion Profiles Australia (EPA) is a manufacturer of aluminium extrusions with production facilities located in Dandenong South, Victoria. EPA produces approximately xxxx tonnes of aluminium extrusions in Australia annually.

EPA understands that Aluminium Shapemakers Pty Ltd t/a "AluShapes" has made an application for anti-dumping measures against injurious exports of micro-extrusions from China. As a local Australian manufacturer of aluminium extrusions that is impacted by the imports from China, EPA fully supports AluShapes' application for said anti-dumping measures.

EPA understands that the Anti-Dumping Commission ("the Commission") may contact EPA during an investigation into AluShapes' application. EPA looks forward to assisting the Commission with its inquiries as required.
