Dear Mr Williams

I refer to PT Pindo Deli Pulp and Paper Mills (Pindo Deli's) response to the exporter questionnaire and correspondence received by the Anti-Dumping Commission (the Commission) on 19 March 2020.

As previously advised to the Government of Indonesia, please be assured that Australia is committed to implementing the Panel's findings and recommendations in good faith and in a prompt and timely manner. As set out in ADN 2020/28, the Commission has initiated the review to implement the DS529 Panel's findings. In undertaking this review, the Commission will apply the legislative framework set out in Part XVB of the *Customs Act 1901* (Cth) which, among other things, implements Australia's obligations under the Agreement on Implementation of Article VI of the GATT 1994. The review conducted pursuant to this framework will be in conformity with the Panel's findings and is intended to implement those findings.

The review seeks to obtain information from Pindo Deli relevant to the Anti-Dumping Commission's assessment in light of the Panel's findings. This includes data in relation to the review period.

The Commission invites Pindo Deli to provide a further response to the questionnaire and any other submissions it would like to make relevant to the review, including:

- information or data relevant to the calculation of the normal value for Pindo Deli, including the proper comparison and cost of production in the country of origin findings from the DS529 Panel report;
- information or data relevant to the construction of the normal value findings from the DS529 Panel report;
- any other information or data that Pindo Deli considers relevant to the implementation of the DS529 Panel Report.

The Commission has prepared Attachment A which highlights the sections of the exporter questionnaire that we welcome a further response from Pindo Deli. The Commission would also welcome any information, data or submissions in relation to the grounds of review, including:

- that the variable factors relevant to the taking of measures in relation to A4 copy paper exported to Australia from Indonesia by Pindo Deli may have changed;
- that the anti-dumping measures may no longer be warranted in relation to the measures applying to Pindo Deli.

The Commission invites Pindo Deli to consider Attachment A and provide a further response by 8 May 2020.

Please be assured that Australia is committed to implementing the Panel's findings and recommendations in good faith and in a prompt and timely manner. The provision of relevant information from Pindo Deli would assist the Commission in implementing the Panel's findings and recommendations. In the event that Pindo Deli does not request a longer period to respond, or provides a response by this deadline that I consider does not provide information relevant to the case, the Commissioner may need to place greater weight on other information available to him, including from other interested parties or sources.

If you would like to discuss any of the matters raised in this letter, please contact the case manager on 03 8539 2447 or email Investigations2@adcommission.gov.au.

Yours sincerely

Paul Sexton
