**Why you have been asked to fill out this questionnaire?**

The Anti-Dumping Commission (the Commission) is conducting an investigation into certain concrete underlay film exported to Australia from Malaysia.

The Commission will use the information you provide to determine normal values and export prices over the investigation period (the period). This information will determine whether concrete underlay film is dumped.

**If you do not manufacture the goods**

If you play a role in the export of the goods but do not produce or manufacture the goods (for example, you are a trading company, broker, or vendor dealing in the goods), it is important that you forward a copy of this questionnaire to the relevant manufacturers and inform the Commission of the contact details for these manufacturers **immediately**.

The Commission will still require your company to complete this exporter questionnaire except Section G – Cost to make and sell.

**What happens if you do not respond to this questionnaire?**

You do not have to complete the questionnaire. However, if you do not respond, do not provide all of the information sought, do not provide information within a reasonable time period, or do not allow the Commission to verify the information, we may deem your company to be an uncooperative exporter. In that case the Commission must determine a dumping margin having regard to all relevant information.

Therefore, it is in your interest to provide a complete and accurate response to this exporter questionnaire, capable of verification.

**Extension requests**

If you require a longer period to complete your response to this exporter questionnaire, you must submit a request to the Commission, in writing, for an extension to the due date for all or part of the questionnaire. This request must be made prior to the due date. A request for extension will be rejected if received after the due date.

When considering the extension request, the Commission will have regard to:

- the Commission's responsibility to conduct the case in a timely and efficient manner;
- the reasons why you could not provide a response within the whole period and not only the period remaining between the request and the due date;
- ordinary business practices or commercial principles;
- the Commission's understanding of the relevant industry;
- previous correspondence and previous dealings with your company; and
- information provided by other interested parties.

More information on extensions can be found in the Customs (Extension of Time and Non-cooperation) Direction 2015 at <https://www.legislation.gov.au/Details/F2015L01736>.

You will be informed of the decision whether your request for an extension has been rejected, granted in full or granted in part. For example, you may be granted an extension to submit all sections except for Section A or you may be granted a shorter extension than you requested.

A summary of any requests and grants of extensions to submit a response to this exporter questionnaire will be published in the public record.

### **Submitting a response to the exporter questionnaire**

Responses to the exporter questionnaire should be lodged via SIGBOX, a secure online document repository. Please contact the Commission on the email address listed on the cover page to request access to SIGBOX.

In submitting the response to the exporter questionnaire, you must answer all questions, include all attachments and spreadsheets, and provide a non-confidential version of your response to this exporter questionnaire.

If your response to this exporter questionnaire contains major deficiencies that, in the Commissioner's view, cannot be quickly and easily rectified in a further response, then your company may be deemed as an uncooperative exporter.

### **Confidential and non-confidential responses**

You are required to lodge a confidential version (for official use only) and a non-confidential version (for public record) of your response to this exporter questionnaire by the due date. Please ensure that *each page* of information you provide is clearly marked either "FOR OFFICIAL USE ONLY" or "PUBLIC RECORD".

All information provided to the Commission in confidence will be treated accordingly. The public record version of your questionnaire will be placed on the public record, and must contain sufficient detail to allow a reasonable understanding of the substance of the information, but does not breach confidentiality nor adversely affect those interests.

A person is not required to provide a summary for the public record if the Commission can be satisfied that no such summary can be given that would allow a reasonable understanding of the substance of the information.

All questionnaires are required to have a bracketed explanation of deleted or blacked out information for the public record version of the questionnaire. An example of a statement to accompany deleted/blacked out text is:

[Explanation of cost allocation through the divisions, by reference to machine hours or weight].

If such an explanation is not provided, the Commission may disregard the information in the submission. Where the public record version of your response to the exporter questionnaire does not contain sufficient detail, your company may be deemed to have significantly impeded the case and be deemed an uncooperative exporter.

### **Verification of the information that you supply**

The Commission may wish to conduct a visit to your company to verify your questionnaire response for completeness, relevance and accuracy of the information to your company's records.

The verification visit is not meant to be a chance for you to provide new or additional information. The Commission expects your response to the questionnaire to be relevant, complete and accurate.

Any verification visit typically commences approximately 2 to 4 weeks after the due date of the response to the exporter questionnaire. To assist with planning of a verification visit, please contact the Commission as soon as possible for a potential verification date to be scheduled.

Verification is usually conducted over 4 days. However, in complex cases, a verification visit may be scheduled over 5 days. A verification visit will include a detailed examination of your company's records and we will collect copies of relevant documents. The verification will require the participation of key staff, including your financial accountant, production manager and sales staff. A tour of the manufacturing facility may also be required during the verification visit.

## **PUBLIC RECORD**

Note that the Commission may disregard any data or information that is not verified, including new or additional information provided after the verification visit.

A report will be prepared following the verification visit, which details the outcomes of the visit. This report will be placed on the public record and may include the publication of the preliminarily-assessed dumping margin. The Commission considers that the dumping margin is not confidential information, but rather an aggregate figure derived from confidential data.

You will be provided with an opportunity to comment on the accuracy and confidentiality of the verification report prior to its publication on the public record.

The Commission may elect to undertake an alternative verification methodology than an on-site verification to satisfy itself of the completeness, relevance and accuracy of the data.

For information on the Commission's verification procedures, refer to Anti-Dumping Notice No. 2016/30 available on the Commission's website.

### **Important instructions for preparing your response**

- All questions in this exporter questionnaire must be completed. If a question is not applicable to your situation, please answer the question with "Not Applicable" and provide an explanation as to why.
- All questions must be answered in English. An English translation must be provided for documents not originally in English.
- Clearly identify all units of measurement (e.g. KG) and currencies (e.g. AUD) used. Apply the same measurement consistently throughout your response to the questionnaire.
- Label all attachments to your response according to the section of the questionnaire it relates to (e.g. label the chart of accounts as Attachment A-4.6)
- The data must be created as spreadsheet files in Microsoft Excel.
- If you have used formulas to complete spreadsheets, these formulas must be retained and not hard-coded.
- You must retain all worksheets used in answering the questionnaire. Be prepared to provide these worksheets during the Commission's verification of your data.
- If you cannot present electronic data in the requested format contact the case officer as soon as possible.
- Where possible, electronic data should be shared with the Commission via SIGBOX, a secure online document repository. Please contact the Commission to request access to SIGBOX if required.

## GOODS UNDER CONSIDERATION / GOODS SUBJECT TO ANTI-DUMPING MEASURES

The goods under consideration (the goods) i.e. the goods exported to Australia, allegedly at dumped prices, are:

*Black concrete underlay film (also marketed as builders film), manufactured from either recycled and/or virgin resins, with a thickness ranging between 150-230 microns, and a width from 2-6 metres.*

### Model Control Code

Details of the model control code (MCC) structure for the goods are detailed in the table below. Export sales data (Section B-2), domestic sales data (Section D-2) and cost to make and sell data (Section G-3, G-4 & G-5) submitted in this response must follow this MCC structure. At a minimum, the data must report sales and cost data separately for each of the mandatory MCC categories identified by the Commission.

	Category	Sub-category	Identifier	Sales data	Cost data
1	Impact resistance	Medium	M	Mandatory	Mandatory
		High	H		
2	Actual Thickness	150 – 179 microns	A1	Mandatory	Mandatory
		180 – 230 microns	A2		
3	Nominal Thickness	150 – 179 microns	N1	Mandatory	Optional
		180 – 230 microns	N2		

In constructing a MCC, use a "-" between each category. For example: **M-A1-N1**

The MCCs will be used to model match export models to the identical or comparable domestic models. In addition, the MCCs will be used to determine the profitability of domestic sales in the ordinary course of trade test by comparing domestic selling prices to the corresponding cost to make and sell. The MCC may also be used to compare the export price to the cost to make the exported model as part of the constructed normal value.

If there are models manufactured and sold by your company that do not align within the MCC structure above, this should be raised by lodging a submission with the Commission as soon as is practicable, but no later than the time this questionnaire is due, otherwise the response may be deemed deficient.

  - Please use the currency that your accounts are kept in.
  - If you have used formulas to complete this worksheet, these formulas must be retained.
1. Please provide all documents, other than those in A-4, B-2 and D-2, required to complete the “B-5 Upwards selling expense” worksheet. If the documents include spreadsheets, all formulas used must be retained.

**PUBLIC RECORD**

2. For any amount in the "B-5 Upwards selling expense" worksheet that is hard coded (i.e. not a formula), please cross-reference by providing:
  - the name of the source document, including the relevant page number, in column C of the worksheet; and
  - highlight or annotate the amount shown in the source document.

## SECTION C EXPORTED GOODS & LIKE GOODS

The Commission considers the MCC structure in and of itself is not likely to be commercially sensitive information. Any claim that disclosing the MCC information is confidential or would adversely affect your business or commercial interests must be raised by lodging a submission as soon as practicable, but no later than the time this questionnaire is due.

### C-1 Models exported to Australia

1. Fully describe all of the goods your company exported to Australia during the period. Include specification details and any technical and illustrative material that may be helpful in identifying, or classifying, the goods exported to Australia. (REFER APPENDIX C-1.1)
2. Provide a list of MCCs of the goods exported to Australia. This must cover all MCCs listed in the Australian sales listing in B-2. (REFER APPENDIX C-1.2)
  - This list must be disclosed in the public record version of the response.  
M-A2-N2  
H-A2-N2

### C-2 Models sold in the domestic market

1. Fully describe all like goods your company sold on the domestic market during the period. Include specification details and any technical and illustrative material that may be helpful in identifying, or classifying, the like goods sold on the domestic market. (NOT APPLICABLE)
2. Provide a list of MCCs of like goods sold on the domestic market. This must cover all MCCs listed in the domestic sales listing in D-2.
  - This list must be disclosed in the public record version of the response.

### C-3 Internal product codes

1. Does your company use product codes or stock keeping unit (SKU) codes? (REFER APPENDIX C-3.1)
  - If yes:
    - (a) Provide details of the product or SKU coding system for the goods, such as a legend or key of the meaning for each code within the product or SKU code.
    - (b) Provide details on how you mapped the product or SKU codes to the MCC for the purpose of completing this questionnaire.
    - (c) Provide a table of showing the product or SKU codes for each MCC.
  - If no:
    - (a) Provide details on the method used to identify the MCC in the sales and cost spreadsheets.

    - ii. Calculate the average credit term for each domestic customer by dividing 365 by the accounts receivable turnover
  - (b) If your Australian customers pay you into a foreign currency denominated account (question B-1.2(a) refers):
    - i. Do you have short term borrowings or an overdraft facility denominated in the same foreign currency? If yes, what is the interest rate, or average of interest rates?
    - ii. What is the interest rate, or average of interest rates, applying to term deposits or other cash product (e.g. bonds) denominated in the same foreign currency? If yes, what is the interest rate, or average of interest rates?

### E-2 Packaging

1. What is the packaging used for your domestic sales of like goods? **(N/A)**
2. What is the packaging used for your export sales of the goods to Australia? **(PAPER CORE, PALLET, OUTER BAG & STRETCH FILM)**
3. If there are distinct differences in packaging between your domestic and export sales: **(N/A)**
  - (a) Provide details of the differences
  - (b) Calculate the weighted average packaging cost for each model sold on the domestic market
  - (c) Calculate the weighted average packaging cost for each model exported to Australia

### E-3 Delivery

1. Are any domestic sales of like goods delivered to the customer? If yes, how were the transportation costs calculated in the domestic sales listing in D-2? **(N/A)**
2. What are the delivery terms of the export sales of the goods to Australia? **(CNF / FOB)**
3. If the delivery terms of the Australian sales includes delivery to the port, how were the inland transport and port charges calculated in the Australian sales listing in B-2? **(N/A)**

4. If the delivery terms of the Australian sales includes ocean freight, how was the ocean freight cost calculated in the Australian sales listing in B-2? **REFER TO APPENDIX B-3.1 FOR HARDCOPY INVOICE WHICH HAS BEEN PROVIDED IN CONFIDENTIAL. REFER ALSO TO APPENDIX B-2.2 CLAUSE NO.17 FOR MORE UNDERSTANDING)**
- 5.
6. If the delivery terms of the Australian sales includes marine insurance, how was the marine insurance calculated in the Australian sales listing in B-2? **(N/A)**
7. If the delivery terms of the Australian sales includes delivered duty paid, how were the Australian importation and delivery costs calculated in the Australian sales listing in B-2? **(REFER TO APPENDIX B-3.1 FOR HARDCOPY INVOICE WHICH HAS BEEN PROVIDED IN CONFIDENTIAL. REFER ALSO TO APPENDIX B-2.2 CLAUSE NO.24 FOR MORE UNDERSTANDING)**

#### E-4 Other direct selling expenses

1. Do you provide sales commissions for domestic sales of like goods and/or export sales of the goods? If yes, provide details. **(NO)**
2. Are there any differences in tax liability between domestic and export sales? If yes, provide details, for example: **(N/A)**
- What is the rate of value-added tax (VAT) on sales of the goods and like goods?
  - How is VAT accounted for in your records in relation to sales of the goods and like goods?
  - Do you receive a VAT refund in relation to sales of the goods and/or like goods?
  - Do you receive a remission or drawback of import duties on inputs consumed in the productions of the goods or like goods?
3. Are there any other direct selling expenses incurred by your company in relation to domestic sales of like goods? **(N/A)**
- These direct selling expenses must be included in the reconciliation of direct selling expenses in B-5
4. Are there any other direct selling expenses incurred by your company in relation to export sales of the goods to Australia? **(NO)**
- These direct selling expenses must be included in the reconciliation of direct selling expenses in B-5

#### E-5 Other adjustment claims

1. Are there any other adjustments required to ensure a fair comparison between the export price and the normal value (based on domestic sales, costs and/or third country sales)? If yes, provide details. **(NO)**
- An adjustment will only be made where there is evidence that the difference affects price comparability.
  - Refer to Chapter 15 of the *Dumping and Subsidy Manual (November 2018)* for more information.

## SECTION F THIRD COUNTRY SALES

### F-1 Third country sales process

1. Are your sales processes to any third country (i.e. exports to countries other than Australia) different to the sales process described in B-1.1? If yes, provide details of the differences.  
**NO DIFFERENT. SAME SALES PROCESS CHART (B-1.1)**
2. Are there any third country customers related to your company? If yes, please provide a list of each related customer and provide details on how the selling price is set. **(NO)**
3. The invoice date will normally be taken to be the date of sale. If you are making a claim that a different date should be taken as the date of sale: **(YES, OUR INVOICE DATE SAME AS DATE OF SALES)**
  - (a) What date are you claiming as the date of sale?
  - (b) Why does this date best reflects the material terms of sale?

### F-2 Third country sales listing

1. Complete the worksheet named "F-2 Third country sales"
  - This worksheet lists all export sales, summarised by country and customer, to third countries of like goods invoiced within the period.
  - If you have claimed in F-1.3 that the date of sale is one other than the invoice date, then add sales with your claimed date of sale.
  - You must provide this list in electronic format using the template provided.
  - If you have used formulas to complete this worksheet, these formulas must be retained.
2. Provide a table listing the source of the data for each column in the export sales listing (F-2.1).  
**(REFER APPENDIX F-2.2)**

### F-3 Differences in sales to third countries

1. Are there any differences in sales to third countries which may affect their comparison to export sales to Australia? If yes, provide details. **YES (REFER APPENDIX F-3.1)**

## SECTION G COST TO MAKE AND SELL

### G-1. Production process

1. Describe the production process for the goods and provide a flowchart of the process. Include details of all products manufactured using the same production facilities as those used for the goods. Also specify all scrap or by-products that result from producing the goods. **(REFER APPENDIX G-1.1)**
2. Are any of your suppliers related to your company (regardless of whether it is relevant to the manufacture of the goods)? If yes, please provide details including the product or services supplied by the related company. **(YES. XXXXXXXXXXXXXXXXXXXXX) (supplier details)**

### G-2. Cost accounting practices

1. Is your company's cost accounting system based on actual or standard costs (budgeted)? **(XXXXXXXXXXXXXXXXXX) (type of system)**
2. If your company uses standard costs: **(N/A)**
  - (a) Were standard costs used as the basis of actual costs in your responses G-3.1 & G-5.1?
  - (b) Have all variances (i.e. differences between standard and actual production costs) been allocated to the goods?
  - (c) How were those variances allocated?
  - (d) Provide details of any significant or unusual cost variances that occurred during the period.
3. Do you have different cost centres in your company's cost accounting system? If yes, list the cost centres, provide a description of each cost centre and the allocation methodology used in your accounting system. **(NO)**
4. To what level of product specificity (models, grades etc.) does your company's cost accounting system normally record production costs? **(N/A)**
5. Are there any costs for management accounting purposes valued differently to financial accounting purposes? If yes, provide details of the differences. **(N/A)**
6. Has your company engaged in any start-up operations in relation to the goods? If yes: **(N/A)**
  - (a) Describe in detail the start-up operation giving dates (actual or projected) of each stage of the start-up operation.
  - (b) State the total cost of the start-up operation and the way that your company has treated the costs of the start-up operation in its accounting records.
7. What is the method of valuation for raw material, work-in-process, and finished goods inventories (e.g. last in first out –LIFO, first in first out- FIFO, weighted average)? **(FIFO)**
8. What are the valuation methods for damaged or sub-standard goods generated at the various stages of production? **(N/A)**
9. What are the valuation methods for scrap, by products, or joint products? **(XXXXXXXXXXXXXXXXXX) (valuation method)**
10. Are any management fees/corporate allocations charged to your company by your parent or related company? If yes, provide details **(NO)**

### G-3 Cost to make on domestic market

1. Complete the worksheet named "G-3 Domestic CTM". **(N/A)**

## PUBLIC RECORD

- This worksheet lists the quarterly cost to make the domestic models of like goods by MCC manufactured within the period, even if they are models not exported to Australia.
- The costs must be based on actual cost of production (i.e. not standard costs or cost of goods sold) for each MCC.
- If any imputation tax (e.g. value-added tax) is payable on the purchase of goods or services to manufacture like goods, report the costs excluding the imputation tax. All other taxes payable (e.g. import duty) must be included as 'other costs' if not already included, for example, under material costs.
- You must provide this list in electronic format using the template provided.
- If you have used formulas to complete this worksheet, these formulas must be retained.
- If you have claimed in B-1.8 and/or D-1.7 that the date of sale is one other than the invoice date, then provide the cost for the quarters that all domestic sales are made within your claimed date of sale, even if doing so means that such cost data predates the commencement of the period.

2. Provide a table listing the source of the data for each column of the "G-3 Domestic CTM" listing.

### G-4 Selling, General & Administration expenses

1. Complete the worksheet named "G-4.1 SG&A listing".
  - This worksheet lists all selling, general and administration expenses by account code for the most recent accounting period and the period.
  - You must provide this list in electronic format using the template provided.
  - If you have used formulas to complete this worksheet, these formulas must be retained.
2. Complete the worksheet named "G-4.2 Domestic SG&A calculation". **(N/A)**
  - This worksheet calculates the unit domestic SG&A for each MCC.
  - You must provide this list in electronic format using the template provided.
  - Please use the formulas provided.

### G-5 Cost to make the goods exported to Australia

1. Complete the worksheet named "G-5 Australian CTM".
  - This worksheet lists the quarterly cost to make the Australian models of the goods under consideration by MCC manufactured within the period.
  - The costs must be based on actual cost of production (i.e. not standard costs or cost of goods sold) for each MCC.
  - If any imputation tax (e.g. value-added tax) is payable on the purchase of goods or services to manufacture the goods, report the costs excluding the imputation tax. All other taxes payable (e.g. import duty) must be included as 'other costs' if not already included, for example, under material costs.
  - You must provide this list in electronic format using the template provided.
  - If you have used formulas to complete this worksheet, these formulas must be retained.
  - If you have claimed in B-1.8 that the date of sale is one other than the invoice date, then provide the cost for the quarters that all Australian sales are made within your claimed date of sale, even if doing so means that such cost data predates the commencement of the period.
2. Provide a table listing the source of the data for each column of the "G-5 Australian CTM" listing.  
**REFER TO APPENDIX G-5.2**

### G-6 Cost allocation methodology

1. What is the allocation methodology used to complete in G-3 domestic CTM and G-5 Australian CTM for: **(REFER APPENDIX G-6.1)**
  - (a) Raw materials
  - (b) Labour
  - (c) Manufacturing overheads
2. Select the domestic model (export model if you have no domestic production of like goods) with the largest production volume over the period and provide worksheets demonstrating the

allocation methodology described in G-6.1 from your normal cost accounting system to the cost for that model reported in G-3.1. **(REFER APPENDIX G-6.2)**

## G-7 Major raw material costs

1. What are the major raw materials used in the manufacture of the goods? **(REFER TO APPENDIX G-7.1)**
2. Are any raw materials sourced as part of an integrated production process or from a subsidiary company which your company exercise control? If yes, complete the worksheet named "G-7.2 Raw material CTM" for these raw materials. **(NO)**
  - This worksheet lists the quarterly cost to make the raw material manufactured within the period.
  - The costs must be based on actual cost of production (i.e. not standard costs or cost of goods sold).
  - If any imputation tax (e.g. value-added tax) is payable on the purchase of goods or services to manufacture the raw material, report the costs excluding the imputation tax. All other taxes payable (e.g. import duty) must be included as 'other costs' if not already included, for example, under material costs.
  - You must provide this list in electronic format using the template provided.
  - If you have used formulas to complete this worksheet, these formulas must be retained.
3. Using the domestic cost data in "G-3 Domestic CTM" (use "G-5 Australian CTM" if you have no domestic production of like goods), calculate the weighted average percentage of each raw material cost (listed in G-7.1) as a proportion of total cost to make **WE HAVE USED G-5.1 AUSTRALIA CTM TO CREATE THE PERCENTAGE TABLE .(REFER APPENDIX G-7.3).**
4. For each raw material identified in G-7.3 which individually account for 10% or more of the total cost to make, complete the worksheet named "G-7.4 Raw material purchases"
  - This worksheet lists all raw material purchases (i.e. transaction by transaction) purchased by your company within the period.
  - You must provide this list in electronic format using the template provided.
  - If you have used formulas to complete this worksheet, these formulas must be retained.
5. Provide a table listing the source of the data for each column of the "G-7.4 Raw material purchases" listing. **(REFER APPENDIX G-7.5)**
6. For each raw material:
  - (a) Select the two largest invoices by value and provide the commercial invoice and proof of payment. **(REFER APPENDIX G-7-.6(a))**
  - (b) Reconcile the total value listed in "G-7.4 Raw material purchases" listing to relevant purchase ledgers or trial balances in your accounting system. Provide copies of all documents used to demonstrate the reconciliation. **REFER APPENDIX G-7-.6(b)**
7. Are any of the suppliers in "G-7.4 Raw material purchases" listing related to your company? If yes, please provide details on how the price is set. **(REFER APPENDIX G-7.7)**

## G-8 Reconciliation of cost to make to audited financial statements

1. Please complete the worksheet named "G-8 Upwards costs" to demonstrate that the cost listings in G-3 and G-5 are complete.
  - You must provide this list in electronic format using the template provided.
  - Please use the currency that your accounts are kept in.
  - If you have used formulas to complete this worksheet, these formulas must be retained.
2. Please provide any documents, other than those in A-4, G-3 and G-5, required to complete the "G-8 Upwards costs" worksheet. **(REFER APPENDIX G-8.2)**
3. For any amount that is hard coded (i.e. not a formula), please cross-reference by providing:
  - the name of the source document, including the relevant page number, in column D of the worksheet; and

- highlight or annotate the amount shown in the source document.

## **G-9 Capacity Utilisation**

4. Please complete the worksheet named "G-9 Capacity Utilisation". **(REFER APPENDIX G-9.4)**
  - You must provide this list in electronic format using the template provided.
  - If you have used formulas to complete this worksheet, these formulas must be retained.

## **EXPORTER'S DECLARATION**

## APPENDIX GLOSSARY OF TERMS

This glossary is intended to provide you with a basic understanding of technical terms that appear in the questionnaire.

### **Adjustments**

To enable a fair comparison between the export price and the normal value Australian legislation provides for the adjustment of the domestic price paid for like goods. Adjustments are made to account for sales occurring at different times, specification differences, and differences in the terms or circumstances of the sales. The adjustment to the normal value may be upward or downward. Areas where you believe an adjustment is necessary should be identified. Section E of the questionnaire refers.

Examples of adjustments that may be made include: *sales occurring at different times* (it is sometimes necessary to compare domestic and export sales made at different times - in these circumstances an adjustment may be made to reflect price movements during that time); *specification differences; packaging; taxes; level of trade; advertising; servicing/warranty; inland freight; warehousing; export charges; credit terms; duty drawback; commissions.*

Adjustments may also be required where the normal value is based on costs to make and sell.

### **Arms length**

Sales are not considered to be at "arms length" on your domestic market if there is any consideration payable for the goods other than their price, or there is an association between the buyer and the seller which affects the price, or there will be a reimbursement, compensation or benefit for, or in respect of, the price.

### **Constructed value**

In cases where prices paid for like goods sold in the country of export cannot be used for the determination of normal value, i.e. when there are no or insufficient sales or where such sales were not made in the ordinary course of trade, normal value may be based on a constructed value. Constructed value is calculated on the basis of the cost of production of the goods under consideration plus a reasonable amount for selling, general and administration costs, and for profits, that are associated with sales on the domestic market of the country of export.

### **Cost of production/manufacturing**

The cost of production or manufacture consists of all manufacturing costs associated with the goods. It is the sum of direct materials, direct labour and factory overheads.

### **Cost to make and sell**

The cost to make and sell is the sum of the cost of production or manufacture, and the selling, general and administration costs associated with the sale of those goods.

### **Country of origin**

The country in which the last significant process in the manufacture or production of the goods was performed.

### **Date of sale**

The Commission will normally use the invoice date as recorded in the exporter or producer's records. Another date may be used if this better reflects the material terms of sale. The questionnaire directs attention to matching data sets of domestic and export sales where some other date is used, as well as matching cost information.

### **Direct labour cost**

Direct labour is categorised as a variable cost, i.e. the value varies with the level of production.

**Dumping**

Dumping occurs when the products of one country are exported to another country at a price less than their normal value.

**Dumping margin**

Where the export price is less than the normal value the dumping margin is the amount of the difference. It can be expressed as a value or as a percentage of the export price.

**Export price**

The export price of the goods is usually the price paid or payable to the exporter in arms length transactions, in most instances calculated at the Free on Board (FOB) level.

**Exporting country**

The country of export is normally the country of origin from which the goods are shipped. The country of export may be an intermediate country, except where the products are merely transhipped through that country, or the products concerned are not produced in that country, and there is no comparable price in that country.

**Factory overheads**

Factory overheads consist of variable costs e.g. power, supplies, indirect labour and fixed costs e.g. factory rent, factory insurance, factory depreciation etc.

**Goods under consideration (the goods)**

The goods to which the application for anti-dumping action relates. That is, the goods that you have exported to Australia allegedly at dumped prices.

**Incoterms**

The following abbreviations are commonly used (comment is provided concerning costs that are normally borne by the seller):

EXW	ex works (the seller's minimum obligation as costs relate to goods being made available at the sellers premises)
FCA	free carrier (main carriage not paid by seller. Pay costs until such time that the goods have been delivered at the named point into custody of a carrier named by the seller. Customs formalities, taxes etc. paid if required)
FAS	free alongside ship (main carriage not paid by seller. Deliver the goods alongside the ship)
FOB	free on board (main carriage not paid by seller. Deliver the goods on board, provide export clearance if required, pay loading costs to the point the goods have passed the ship's rail, pay customs formalities, taxes etc. payable upon exportation)
CFR	cost and freight (main carriage paid by seller. Pay all costs until delivered as well as freight, loading and unloading, pay customs formalities, taxes etc. payable upon exportation)
CIF	cost, insurance and freight (main carriage paid by seller. Pay all costs as under CFR as well as marine insurance)
CPT	the terms CFR and CIF are only used where goods are carried by sea or waterway transport
CIP	carriage paid to carriage and insurance paid to the terms CPT and CIP are used as alternatives to CFR and CIF where the goods are carried by air, road, rail etc.
DAF	delivered at frontier (goods carried by rail or road and cleared for export at the named place at the frontier. Pay costs until delivered at the frontier plus any discharge costs incurred to place the goods at the customer's disposal)
DES	delivered ex ship (goods made available to the buyer on board the ship uncleared for import at

	the named port of destination. Pay all costs incurred in placed at the disposal of the buyer, pay customs formalities, taxes etc. payable upon exportation, and where necessary for transit through another country)
DDU	delivered duty unpaid (Pay all costs for carriage to the agreed point, pay customs formalities, taxes etc. payable upon exportation, and where necessary for transit through another country)
DDP	delivered duty paid (goods made available at the named place in the country of importation – all risks and costs being incurred by the seller including duties, taxes etc. incurred upon importation)

### **The period**

A period defined by the Commission over which importations of the goods are examined.

### **Like goods**

Like goods are goods sold on the domestic market of the country of export (or to a third country) that are identical in all respects to the goods or that, although not alike in all respects have characteristics closely resembling those of the goods. The term 'like goods' also refers to the goods produced by the Australian industry allegedly being injured by dumped imports.

### **Normal value**

Australian legislation sets out several ways to assess "normal value".

The preferred method is to use the price paid for like goods sold for domestic consumption in the country of export. Usually, these sales are made by you, but there may be circumstances where it is appropriate to use sales made by other sellers on the domestic market.

Sale prices must be at arms length and in the ordinary course of trade. In the absence of relevant or suitable domestic sales, the normal value may be determined by constructing a price based on all costs to make and sell the goods, and an amount for profit. Alternatively the normal value may be ascertained using the price paid for like goods sold in the ordinary course of trade at arms length to customers in a country other than Australia, however this option is rarely used.

Finally, when a normal value cannot be ascertained by any of the above methods, or if no information is provided, the Commission will determine the normal value by considering all the relevant information, including the applicant's information. This allows the applicant's information to be used where sufficient information has not been furnished or is not available.

Where domestic price generally, and the trade of the exporting country are determined or substantially influenced by the government of the exporting country, an alternative/surrogate market economy is selected by the Commission and the normal value is determined as if the surrogate country were the export source.

### **Ordinary course of trade**

Testing for "ordinary course of trade" includes a comparison of the selling price and the unit cost to make and sell for the same period. If sales in respect of a substantial quantity of goods over an extended period of time, usually 12 months, do not recover all costs and these losses are not likely to be recovered within a reasonable period of time, (again usually 12 months) then the sales are regarded as being not in the ordinary course of trade.

There may be circumstances where it is appropriate to use a period other than 12 months in assessing whether sales are in the ordinary course of trade.

Unprofitable sales are to be taken to have occurred in substantial quantities during an extended period where the unprofitable sales amount to 20% or more of the total volume of sales of the goods by the exporter over the period. An extended period of time is usually taken to be a period not less than 12 months. Where unprofitable sales are rejected, normal value is based upon remaining profitable sales provided they occur in sufficient number. Where all sales have been made at a loss, or profitable sales are insufficient, the normal value may be constructed from costs to make and sell.

**Selling, general and administration expenses (SG&A)**

The selling, general and administration expenses includes all selling, distribution, general and administration expenses including finance costs that would be incurred if the goods were sold for domestic consumption in the country of export. The amounts are determined in each case using all the available information and may include expenses incurred in:

- . domestic sales of like goods;
- . sale of goods of the same general category by the exporter; or
- . sales in the industry in the country of export.

The expenses must, however, reflect the selling, general and administration costs of the goods. Administrative and selling expenses include: director's fees, management salaries and benefits, office salaries and benefits, office supplies, insurance, promotion, entertainment, depreciation and corporate overheads.
