The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed an inquiry, which commenced on 27 July 2020, into whether the continuation of the anti-dumping measures in the form of a dumping duty notice applying to steel rod in coil exported to Australia from the People’s Republic of China is justified.

Recommendations resulting from that inquiry, reasons for the recommendations, and material findings of fact and law in relation to the inquiry are contained in *Anti-Dumping Commission Report No. 562 (REP 562)*.

I, CHRISTIAN PORTER, the Minister for Industry, Science and Technology, have considered REP 562 and have decided to accept the recommendation and reasons for the recommendation, including all the material findings of facts and law therein and have decided that the anti-dumping measures applying to rod in coil exported to Australia from the People’s Republic of China should continue from 23 April 2021.

Under section 269ZHG(1)(b) of the *Customs Act 1901* (the Act), I declare that I have decided to secure the continuation of the anti-dumping measures currently applying to rod in coil exported to Australia from the People’s Republic of China.

I determine that, pursuant to section 269ZHG(4)(a)(i) of the Act, the notice continues in force after 22 April 2021.

In accordance with sections 8(5) and 8(5BB) of the *Customs Tariff (Anti-Dumping) Act 1975*, and the *Customs Tariff (Anti-Dumping) Regulation 2013* (the Regulation), the duty that has been determined is an amount worked out in accordance with the combination of fixed and variable duty method pursuant to sections 5(2) and (3) of the Regulation.

Particulars of the dumping margins established for exporters from China are set out in the following table.

Exporter/country	Dumping margin	Duty method
All exporters - China	33.1%	Combination of fixed and variable duty method
