## Continuation 565

### Ammonium Nitrate

#### Exported to Australia from the Russian Federation

#### Note For File: Extensions of time for questionnaire responses & issuing of supplementary questionnaires

4 November 2020

#### Extensions of time for supplementary questionnaire responses

On 20 August 2020, the Anti-Dumping Commission (the Commission) published ADN 2020/093 notifying that the Commissioner of the Anti-Dumping Commission had initiated an inquiry into whether the continuation of the anti-dumping measures applying to ammonium nitrate exported to Australia from the Russian Federation (Russia) is justified.

The Commission received within the legislated period from EuroChem Group AG, as the parent company of JSC Novomoskovsky Azot and JSC Nevinnomyssky Azot, a request for an extension of time to the due date to provide a response to the supplementary exporter questionnaire. An extension of one day was sought by these companies due to the need for Eurochem to coordinate with the two Ammonium nitrate producing subsidiaries to gather the data along with the need to meet the deadline for deficiency list provided by the Commission to the original questionnaire response.

Due consideration has been given to the extension request by the General Manager of the Commission, having regard to individual circumstances and the *Customs (Extensions of Time and Non-cooperation) Direction 2015*.<sup>1</sup> EuroChem Group AG, JSC Novomoskovsky Azot and JSC Nevinnomyssky Azot have been granted an extension of 1 day to provide completed supplementary exporter questionnaires. The revised date for these companies to provide completed responses to the supplementary exporter questionnaire is 4 November 2020.

---

<sup>1</sup> From 19 December 2016 the Commissioner of the Anti-Dumping Commission delegated his powers to consider and decide requests for an extension of time. This delegation was made under Delegation Instrument No. 2 of 2016.
