4. The application must include a detailed statement setting out reasons for seeking continuation of the anti-dumping measure. Applicants must provide evidence addressing whether, in the absence of measures, dumped or subsidised imports would cause material injury to the local industry producing like goods. Applicants should refer to the “Guidelines for Preparing an Application for Continuation of Measures” for assistance.

Refer Attachment A.

5. The applicant must provide details of the current anti-dumping measure(s) the subject of this continuation application, including:

- ***tariff classification***

The goods the subject of this continuation of measures application to which the current anti-dumping and countervailing measures apply are:

Ferrous grinding balls, whether or not containing alloy, cast or forged, with diameters in the range 22 mm to 170 mm (inclusive).

Goods that fall within the goods description include all ferrous grinding balls, typically used for the comminution of metalliferous ores, that fall within the goods description regardless of the particular grade or alloy content.

Goods excluded from the coverage of the measures include stainless steel balls, precision balls that have been machined and/or polished, and ball bearings.

The tariff classification of the goods includes:

- tariff subheading 7325.91.00 statistical code 26; and
- tariff subheading 7326.11.00 statistical code 29.

- ***the countries or companies***

The country the subject of the measures is the Peoples Republic of China (“China”).

- ***specified date of publication of the measure***

The date of publication of the notice announcing the decision of the then Parliamentary Secretary

to the Minister for Industry, Innovation and Science was 9 September 2016.

A notice notifying of the expiry of the measures was published on 1 September 2020 (refer Anti-Dumping Notice No. 2020/100) notifying that applications must be lodged by 20 November 2020.
