ANTI-DUMPING NOTICE NO. 2021/108

Continuation Inquiry No. 569

Grinding balls exported to Australia
from the People's Republic of China

Notice for longer period for the declaration of
the Minister for Industry, Science and Technology

Customs Act 1901 - Public notice under section 269ZHG(1B)

The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed an inquiry into whether the continuation of anti-dumping measures in respect of grinding balls exported to Australia from the People's Republic of China is justified.

Copies of the application and various submissions made in relation to the continuation inquiry are available on the Anti-Dumping Commission's website at www.adcommission.gov.au.

The Commissioner provided his final report and recommendations to me on 23 July 2021. Section 269ZHG(1B)(a) of the *Customs Act 1901* (the Act) requires me to make my declaration on the outcome of this inquiry within 30 days after receiving the Commissioner's report, that is, by **23 August 2021**.¹

Where there are special circumstances that prevent me from making the declaration within that period, section 269ZHG(1B)(b) of the Act provides that the declaration may be within such a longer period as I consider appropriate.

I consider there are special circumstances due to the complexity of the continuation inquiry and that it is appropriate under section 269ZDB(1B)(b) of the Act to extend the period for making my declaration for a further **17 days** to properly consider the Commissioner's final report and recommendations. This means my declaration must now be made by **8 September 2021**.

A handwritten signature in blue ink, appearing to read 'C. Porter'.

THE HON CHRISTIAN PORTER MP
Minister for Industry, Science and Technology

Dated this 19th day of August 2021

¹ Day 30 would be 22 August 2021, a Sunday. Accordingly, the decision is due on the next working day.
