Dear Director

Reinvestigation - Continuation Inquiry 573 & 574– FSI Pineapple exported to Australia from the Philippines and Thailand (Goods) – Preliminary Reinvestigation Report

We act for Dole Philippines Inc (**DPI**), Dole Thailand Limited (**DTL**) and Dole Asia Holdings Pte. Ltd. (**DAH**) (collectively **Dole**) in relation to the above matter. We refer to the publication of the Preliminary Reinvestigation Report (**Report**) prepared over a period of almost five months and published on the Electronic Public Record (**EPR**) by the Commission on 27 May 2022 and containing an invitation to interested parties to provide submissions in response within five working days. The Report has been prepared in response to a requirement of the Anti-Dumping Review Panel (**Panel**) on 12 January 2022 (**Request**) under s269ZZL(1)(a) of the Customs Act 1901 (**Act**) to reinvestigate the following specific finding in respect of the goods from the Philippines and Thailand:

...that there was not sufficient evidence to support a finding that material injury was likely to be caused by future imports at dumped prices upon the expiration of the anti-dumping measures then applying to imports of consumer pineapple from those countries.

We support the Commissioner's proposed recommendation and associated reasoning that the expiry of the anti-dumping measures formerly applying to exports of FSI pineapple from the Philippines and Thailand be confirmed.

Yours faithfully
MinterEllison
