### **Copper tube exported from the Vietnam**

This submission is made on behalf of Hailiang (Vietnam) Copper Manufacturing Co., Ltd, and Hailiang Copper Australia Pty Ltd (collectively referred to as the Hailiang Group), in response to the Anti-Dumping Commission's ("the Commission") findings outlined in Statement of Essential Facts Report No. 580 ("SEF 580"). In summary, the Hailiang Group supports the Commission's findings and proposed decision to terminate the investigation in so far as it relates to the Hailiang Group.

#### **Margin of dumping / subsidisation**

It is noted that the Commission has established that Vietnam Hailiang's copper tube exports to Australia during the investigation period were not dumped, with a negative dumping margin of -0.6% being determined.

The Hailiang Group supports and confirms that the Commission's dumping finding outlined in SEF 580 provide an overall accurate summary of the verification team's findings following detailed examination of Vietnam Hailiang's financial records.

#### **Issues raised by petitioner**

The Hailiang Group has provided an extensive and detailed response to the various and numerous issues raised by the petitioner during the course of the investigation. It is noted that the Commission has had regard to our submission dated 15 October 2021, in preparing its findings of fact outlined in SEF 580. The Hailiang Group kindly requests that the Commissioner terminate the investigation as soon as practicable.
