The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed the accelerated review, which commenced on 12 March 2021, of the anti-dumping measures applying to certain aluminium extrusions (the goods) exported to Australia from the People’s Republic of China by Qingyuan City Huanan Copper & Aluminum Co., Ltd. (the applicant).

Recommendations resulting from that review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report No. 581* (REP 581).

I, CHRISTIAN PORTER, the Minister for Industry, Science and Technology (the Minister), have considered REP 581 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts and law set out in REP 581.

Under section 269ZG(3)(b) of the *Customs Act 1901* (the Act), I declare that, with effect from 12 March 2021, the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act) have effect as if the original dumping duty notice and countervailing duty notice had applied to the applicant but the then Minister had fixed specified different variable factors relevant to the determination of duty.

I, CHRISTIAN PORTER, the Minister, determine, pursuant to section 8(5) of the Dumping Duty Act, that the interim dumping duty (IDD) payable on the goods exported to Australia from China by the applicant is an amount worked out in accordance with the floor price duty method as set out in sections 5(4) and 5(5) of the Customs Tariff (Anti-Dumping) Regulation 2013, with effect from 12 March 2021.

I, CHRISTIAN PORTER, the Minister, direct, pursuant to section 10(3B) of the Dumping Duty Act, that the interim countervailing duty payable on the goods exported to Australia from China by the applicant is a proportion of the export price of those goods.

<sup>1</sup> Unless otherwise indicated, all legislative references are to the *Customs Act 1901*.

The duty that has been determined is an amount worked out in accordance with the floor price duty method and a proportion of the export price, as detailed in the table below.

Qingyuan City Huanan Copper & Aluminum Co., Ltd.	N/A	1.7%	Dumping: floor price duty method. Countervailing: proportion of the export price of the goods.

IDD will be payable on the goods exported by the applicant only when the actual export price is below the floor price which is a specified (confidential) amount per kilogram as per Confidential Table 1 to this notice.

To preserve confidentiality, details of the revised variable factors such as ascertained export price, normal value and the floor price will not be published.
