**Expiry of measures – Steel reinforcing bar exported by
Millcon Steel Public Company Limited from Thailand**

Dear Director

This submission is made on behalf of the Millcon Steel Public Company Limited (Millcon), in response to the Anti-Dumping Commission's (the Commission) findings outlined in Statement of Essential Facts Report No. 601 (SEF 601) on 18 November 2022. Millcon supports and welcomes the Commission's findings and recommendations, and concurs with the comprehensive injury analysis outlined in the report.

The Commission has correctly and accurately determined that Millcon's exports have not been sold into the Australian market at dumped prices in the current and previous review periods. It has also correctly established that there is not sufficient positive evidence to conclude that a recurrence of dumping is likely.
