## Vision

To be a Global Leading Crop Protection Company

## Mission

All About Growing

## Core Values

Customer Oriented	Rapid Response
Constant Effort	Open and Inclusive
Together We Work	Together We Win

**Rainbow**  
all about growing

# Rainbow Manifesto

We are a leading crop protection company that produces, distributes and markets crop protection products. With presence in more than 80 countries in the 5 continents, we face challenge due to the unique of each place, this force us to provide specific solutions for each customer, whether they are industrial companies, dealers, or farmers.

Our commitment with the development of our customers comes from the conviction that growing is to find value in each step of the agro productive chain. That is why we accompany each member in the process, intervening in key moments, articulating productive, commercial, and human skills. We combine the best of and international producing company with knowledge, dynamism, and the commitment of our local management ensuring quality in service and performance in each of the results.

We understand everything about growing because we are a company that works for and about the growth of our customers.

Rainbow, all about growing.
