29 July 2022

The Director

Investigation 3

Anti-Dumping Commission

GPO Box 2013, Canberra Act 2601, Australia.

Anti-Circumvention Inquiry No.606 Concrete Underlay Film

1. We refer to the Australian Anti-Dumping Commission's ("**ADC**") e-mail dated 23 June 2022 to GCI, inviting GCI to complete an exporter questionnaire in respect of the inquiry.
2. We note that the present inquiry is in relation to concrete underlay film with a width outside of 2-6 meters.
3. As the ADC is aware, GCI fully cooperated in the original anti-dumping investigation, where data submitted in its questionnaire was duly verified. GCI is a genuine bona-fide exporter.
4. The pattern of GCI's export of concrete underlay film to Australia remained the same. This can be corroborated and verified through the records maintained by the Australian Border Force.
5. The records will show that GCI did **not** engage in circumvention activities.
6. Since GCI's traditional export market to Australia is within the scope of the product defined in the original anti-dumping investigation and continues to be so, GCI is also concerned about the alleged circumvention activities.
7. Against this backdrop, while GCI welcomes the opportunity to assist the ADC with the present inquiry, its export activities to Australia do not justify the cost and effort required to complete an exporter questionnaire. GCI is happy to address any specific questions that the ADC may have.
8. Please feel free to contact us if you have any questions.

Thank you.

Yours faithfully,

Great Cosmo Industries Sdn Bhd
