

## **ANTI-DUMPING NOTICE NO. 2015/51**

### **Certain Hollow Structural Sections Exported from the People's Republic of China Initiation of a Review of Anti-Dumping Measures Relating to Dalian Steelforce Hi-Tech Co Ltd Correction to initiation information**

#### ***Customs Act 1901 – Part XVB***

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission have initiated a review of the anti-dumping measures applying to certain hollow structural sections exported to Australia from the People's Republic of China (China) by Dalian Steelforce Hi-Tech Co Ltd (the goods the subject of the review). The initiation of the review was notified by Anti-Dumping Notice (ADN) 2015/45.

ADN 2015/45 incorrectly stated the relevant tariff classification numbers associated with the goods the subject of the review. The goods the subject of the review are correctly classified to tariff subheadings 7306.30.00 (statistical codes 31, 32, 33, 34, 35, 36 and 37); 7306.61.00 (statistical codes 21, 22, and 25); and 7306.69.00 (statistical code 10).

ADN 2015/45 and Consideration Report 285 also incorrectly stated that these goods, exported from China, are subject to a 5 per cent rate of Customs duty. The correct rate of Customs duty for the aforementioned goods is 4 per cent.

A correction to the public notice was also published in *The Australian*, on 30 April 2015.

#### **The Goods**

The goods subject to anti-dumping measures, in the form of dumping and countervailing duty notices, (the goods) are:

*certain electric resistance welded pipe and tube made of carbon steel, comprising circular and non-circular hollow sections in galvanised and non-galvanised finishes. The goods are normally referred to as either CHS (circular hollow sections) or RHS (rectangular or square hollow sections). The goods are collectively referred to as HSS (hollow structural sections). Finish types for the goods include in-line galvanised (ILG), pre-galvanised, hot-dipped galvanised (HDG) and non-galvanised HSS.*

Sizes of the goods are, for circular products, those exceeding 21mm up to and including 165.1mm in outside diameter and, for oval, square and rectangular products those with a perimeter up to and including 1277.3mm. Categories of HSS excluded from the goods are

conveyor tube; precision RHS with a nominal thickness of less than 1.6mm and air heater tubes to Australian Standard (AS) 2556.
