Subject: Quicklime from Thailand

Dear Kim,

Volumes of quicklime imports from Thailand at low prices continue to increase and cause injury to Cockburn.

Our letter of 21 October 2013 provides volumes and prices of imports of quicklime from Thailand up to end-September 2013. According to ABS import statistics, during October 2013 5015 tonnes of quicklime were imported from Thailand at an FOB export price of AUD 109/tonne. Hereunder is an updated table of imports of quicklime from Thailand from 2009 to October 2013.

Year	Quantity (mt)	Value (AUD)	Unit price (AUD/mt; FOB)
2010	5,573.76	693,254.98	124.38
2011	10,066.13	1,227,652.51	121.96
2012	14,645.43	1,778,896.97	121.46
Jan –Oct, 2013	20,830.64*	2,314,015.56	111.09

*Annualised = 24,996.77 mt.

It is disappointing that there is no indication on the public record that the Commission is investigating the dumping status of Chememan Thailand's exports during January-June 2010

Regards,
Roger
