

COMMONWEALTH OF AUSTRALIA

Ministerial Exemption Instrument No. 6 of 2019

Customs Tariff (Anti-Dumping) Act 1975

I, KAREN ANDREWS, Minister for Industry, Science and Technology have considered and accepted the recommendations of the Commissioner of the Anti-Dumping Commission, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings in *Exemption Inquiry Report Nos. EX0074, EX0075 and EX0076*. This report concerns certain aluminium extrusions (the goods) exported to Australia from the People's Republic of China (China), Malaysia and the Socialist Republic of Vietnam (Vietnam).

Under subsections 8(7)(a) and 10(8)(a) of the *Customs Tariff (Anti-Dumping) Act 1975*, I hereby exempt certain goods described in Attachment 1 (the exemption goods) from interim dumping duty, dumping duty, interim countervailing duty and countervailing duty (the duties) as I am satisfied that like or directly competitive goods are not offered for sale in Australia to all purchasers on equal terms under like conditions having regard to the custom and usage of trade.

The anti-dumping measures applying to the goods were imposed by:

- the then Attorney-General, following consideration of *Trade Remedies Branch Report No. 148* concerning the alleged dumping and subsidisation of the goods exported to Australia from China; and
- the then Assistant Minister for Industry, Innovation and Science and Parliamentary Secretary to the Minister for Industry, Innovation and Science, following consideration of *Anti-Dumping Commission Report No. 362* concerning the alleged dumping and subsidisation of the goods exported to Australia from Malaysia and Vietnam.

This instrument takes effect from 19 June 2019. The instrument is subject to review and may be revoked.

Dated this 11th day of December 2019

KAREN ANDREWS

Minister for Industry, Science and Technology
