# Lock Up or Lose It!

**Padlocks are an important, effective, and often overlooked cornerstone of security**

**We have many options available; here are some of our most popular choices.**

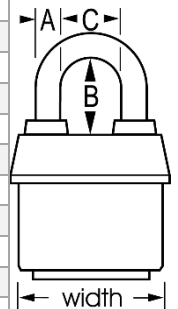

## Keyed to Differ (KD)

This is the most rudimentary padlock, called "Keyed to Differ (KD)".

Each lock is opened by its own unique key that does not open any other lock in the set.

Keyed to differ is the standard keying on Master Lock padlocks.

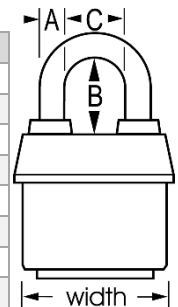

Code	Shackle	Description of Padlock Body	Size A	Size B	Size C	Qty	Price / Unit
PADLKDBO_30	Boron	Solid Brass 40mm Wide Body	8	30	23	1	\$53.90

PADLKDSS_62	Stainless Steel	Solid Brass 40mm Wide Body	8	62	23	1	\$69.95
						5+	\$68.95

## Keyed Alike (KA)

**KEYED ALIKE (KA)** – This option provides "same key" convenience and eliminates the need for multiple keys where numerous padlocks are used. All padlocks in the set are opened by the same key.

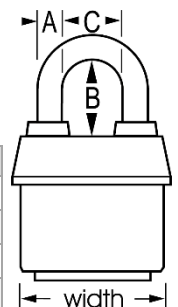

Code	Shackle	Description of Padlock Body	Size A	Size B	Size C	Qty	Price / Unit
PADLKABO_30	Boron	Solid Brass 40mm Wide Body	8	30	23	1	\$66.25
						5+	\$65.25

PADLKABO_143	Boron	Solid Brass 40mm Wide Body	8	143	23	1	\$84.00
						5+	\$83.00

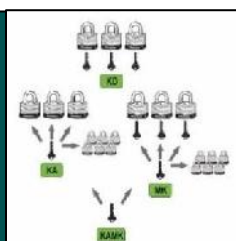

## Master Keyed (MK)

**MASTER KEYED (MK)** – In a Master Keyed System, a master key opens all the locks in the System although each lock has its own unique key. This permits overriding master key systems along departmental or other functional lines, to allow supervisory access.

Code	Shackle	Description of Padlock Body	Size A	Size B	Size C	Price
