

## **ANTI-DUMPING NOTICE NO. 2015/23**

### **Rod in Coils**

### **Exported from the Republic of Indonesia and Taiwan**

### **Preliminary Affirmative Determination and Imposition of Securities**

#### ***Customs Act 1901 – Part XVB***

On 10 April 2014 I, Dale Seymour, the Commissioner of the Anti-Dumping Commission (the Commission) initiated an investigation into the alleged dumping of rod in coils exported to Australia from the Republic of Indonesia (Indonesia), Taiwan and the Republic of Turkey (Turkey), following an application lodged by OneSteel Manufacturing Pty Ltd.

A full description of the goods is available in Anti-Dumping Notice (ADN) No. 2014/27. This ADN is available on the public record at [www.adcommission.gov.au](http://www.adcommission.gov.au)

A notice under subsection 269TD(4) of the *Customs Act 1901* (the Act) advising that I had made a preliminary affirmative determination was published in *The Australian* newspaper on 2 March 2015. In the making of that preliminary affirmative determination I was satisfied that there appears to be sufficient grounds for the publication of a dumping duty notice in respect of the goods exported to Australia from Indonesia (except those goods exported by PT Ispat Indo) and Taiwan.

In reaching this preliminary decision, I have had regard to the requirements of section 269TAE and am satisfied that dumped goods appear to have caused injury in the form of:

- reduced sales volumes;
- reduced market share;
- price depression;
- price suppression;
- reduced profits;
- reduced profitability; and
- reduced revenue.

I am also satisfied the injury to the Australian industry producing like goods is material.

The preliminary analysis of dumping margins is tabulated below. These margins were calculated by establishing the export price under section 269TAB(1)(a) and establishing the normal value under section 269TAC(1) and comparing these results in accordance with section 269TACB(2)(a).

Country	Exporter	Dumping margin
Indonesia	PT Gunung Rajapaksi	10.6%
	PT Ispat Indo	<i>negligible</i>
	All other exporters	10.6%
Taiwan	Quintain Steel Co Ltd	7.5%
	All other exporters	7.5%

At this stage I have not made a Preliminary Affirmative Determination in respect of rod in coils exported from Turkey.

*Preliminary Affirmative Determination and Statement of Essential Facts Report No. 240* sets out the reasons for making this preliminary determination, and has been placed on the public record. Alternatively it may be examined at the Commission's office by contacting the case manager on the details provided below.

Under section 269TD(4)(b), I am satisfied that it is necessary to require and take securities in order to prevent material injury occurring to the Australian industry while the investigation continues.

The Australian Customs and Border Protection Service will require and take securities under section 42 of the Act in respect of interim dumping that may become payable in respect of the goods exported from Indonesia (except those goods exported by PT Ispat Indo) and Taiwan entered for home consumption on or after 2 March 2015.

The security that has been determined is an amount worked out in accordance with the ad valorem duty method.

These securities will be imposed at the rate specified in the above table of preliminary dumping margin assessments.

Affected parties should contact the Commission by phone 13 28 46 or +61 2 6213 6000 (outside Australia) or at [clientsupport@adcommission.gov.au](mailto:clientsupport@adcommission.gov.au) for further information regarding the actual security liability calculation in their particular circumstance.

I must report to the Parliamentary Secretary to the Minister for Industry and Science (the Parliamentary Secretary) with final recommendations in relation to this investigation on or before 15 April 2015. The Parliamentary Secretary will then decide whether to publish a dumping duty notice and, if relevant, the level of measures to be imposed.

If dumped or subsidised goods give rise to retrospective notices being imposed on the goods under section 269TN of the Act, the dumping duty notice will also include the duties to be imposed retrospectively.

Enquiries about this notice may be directed to the case manager on telephone number +61 3 9244 8240, fax number 1300 882 506 (or international fax number +61 3 9244 8902) or email at [Operations3@adcommission.gov.au](mailto:Operations3@adcommission.gov.au)
