Dear Mr Cosgrave,

**Alloy Round Bar exported from the People's Republic of China ([ADN 2017/152](#))
Application by: OneSteel Manufacturing Pty Ltd (OneSteel)**

Thank you for your attendance at the conference with myself and the Anti-Dumping Commission on 20 December 2017 in relation to the application for review of the decision of the Commissioner to terminate part of Investigation 384 in respect of Alloy Round Bar exported from the People's Republic of China.

As discussed at the conference, I confirm the following:

1. For the reasons given in my letter dated 5 December 2017 and as discussed at the conference, I propose to wait for the decision of the Commissioner with respect to Investigation 384 before proceeding with my consideration of the application currently before me;
2. Once the decision of the Commissioner is known, I will hold a conference to discuss how the current application should proceed in light of the Commissioner's decision.

As you will be aware, s.269ZZRC(3) of the *Customs Act 1901* requires the Panel to publish a notice if the Panel proposes to conduct a review of a termination decision. In the absence of such a notice being published within a reasonable time after the expiry of the time for an

application for review, an inference could be made that no application for review of the termination decision was made. To avoid possible unfairness to the exporter, Jiangsu Yonggang Group Co. Ltd as a result of the delay by the Panel, it is proposed to write to the exporter advising that an application has been received but consideration of the application has been delayed pending the decision of the Commissioner with respect to Investigation 384.

If you wish to make further inquiries about this review you may email ADRP@industry.gov.au or telephone (02) 6276 1781.
