Innovation and Science**

Customs Act 1901

Notice under section 269ZZM(4)

Dichlorophenoxy-acetic acid exported from the People's Republic of China

The Anti-Dumping Review Panel (ADRP) has completed a review of the decision by the former Parliamentary Secretary to the Minister for Jobs and Innovation to secure the continuation of anti-dumping measures applying to Dichlorophenoxy-acetic acid exported from the People's Republic of China (Reviewable Decision). The Reviewable Decision was published on the Anti-Dumping Commission (ADC) website on 5 March 2018.

An application for review was made by Shandong Weifang Rainbow Chemical Co., Ltd (Rainbow).

A copy of the application and the ADRP's report to me (ADRP Report No 79) is available on the ADRP website www.adreviewpanel.gov.au.

The ADRP has recommended that the Reviewable Decision be revoked and substituted with a new decision that is in the same terms as the Reviewable Decision except for:

- The normal value for Rainbow be changed, resulting in a new dumping margin of 22.3% (previously 25.6%).

I, KAREN ANDREWS, Minister for Industry, Science and Technology have considered and accepted the recommendations, and reasons for the recommendations, made by the ADRP in ADRP Report No 79, including all material findings of fact or law as set out in ADRP Report No 79.

Therefore, in accordance with section 269ZZM(1)(b) of the *Customs Act 1901*, I **revoke** the reviewable decision in so far as it relates to Rainbow and substitute a new decision as recommended by the ADRP. The substituted decision is to have effect from the date of the reviewable decision.

Interested parties may seek a review of this decision by lodging an application with the Federal Court of Australia, in accordance with the requirements in the *Administrative Decisions (Judicial Review) Act 1977*, within 28 days of the publication of this notice.

The Hon Karen Andrews MP
Minister for Industry, Science and Technology
2 October 2018
